ADLER-ROCHESTER SUITS - OVERCOATS

"Exhibition Clothes" may be well applied to these unusual new models of Suits and Overcoats.

There is a "cut" about these famous clothes that is inimitable.

It is the "cut" of the master hand—the portrayal in clothes of the touch of the artist.

You will see it in the "hang" of the trousers, in the smartness of the lapels, the set of the sleeves—in the "lines" of the whole suit.

You will find a rare combination of tailoring wools and linings that con-

forms with what a gentleman demands in clothes.

Then see those ADLER-ROCHESTER OVERCOATS—acknowledged by tailors everywhere as masterpieces—known to be the overcoats that made famous the individualized style of garment.

See the "swing" of these overcoats. See yourself in one of these rare creations adapted to your height, your build, your characteristics. These are the overcoats that individualize the gentleman.

SHAHAN REPORTS ON JAILS

Secretary of Charities Board Tells of Trip Over the State.

GAGE COUNTY IN POOR SHAPE

Richardson Needs New One, While Nemaha and Otoe Counties Are Somewhat Better Situated in This Respect.

(From a Staff Correspondent.)

LINCOLN, Nov. 1.—(Special.)—The Gage county jail is a disgrace to the county, according to a report made by J. M. Shahan, secretary of the state board of charities and corrections who made an inspection to that county and also to Richardson, Nemaha and Otoe counties the first of the week.

The jail is an old building built forty years ago and has little chance for ventilation and no way to separate the male from the female prisoners. He also discovered that the poor farm buildings were in poor shape, but well taken care of as far as could be done in their condition. There are twelve inmates at the county farm.

Richardson county needs a new jail very badly, but the voters voted down a proposition to erect a new one and so a cage, which has to accommodate seventeen prisoners, thought but 12x14 feet will have to do the business for some time to come. The poor farm buildings are in pretty good shape, but lack modern conveniences such as lavatories and bathing facilities.

The Nemaha county jail is a pretty good jail and is provided with sanitary conveniences. The poor farm and buildings are in good condition with the exception of the woman's ward which is situated in the basement and is very damp.

The Otoe county jail is a good one. It has seven rooms located in the basement of the court house and is well lighted and has modern conveniences. The poor farm buildings are also well provided with modern conveniences and has thirteen inmates.

The Nebraska State school for the Blind has thirty-one male and twenty-five female inmates. Secretary Shahan believes that the school should be provided with an elevator as it would be more convenient for the blind children to get from one floor to another. The hospital facilities are very poor and the present building requires painting and plastering badly. The menu for the day which Mr. Shahan visited the school was as follows:

Breakfast—Puffed wheat, pan cakes, maple syrup, coffee, milk and cocoa.

Dinner—Pork chops, boiled potatoes, gravy, apple sauce, bread and butter, coffee, milk, ice cream and cake.

Supper—Rice, fried apples, catsup, cookies, bread and butter, tea, coffee, chocolate, milk.

Ice cream is served for dinner each Wednesday and Sunday.

He went to Humboldt, put the horse in aivery stable and went to a saloon, where he remained until the sheriff of this county went and got him Wednesday. When Deputy Sheriff Broady went to his room Friday morning he was dead and was apparently in the same position he left him the night before.

ATTORNEY GENERAL CHARGES OPINION ABOUT FUNDS

(From a Staff Correspondent.) LINCOLN, Nov. 1.—(Special.)—"On again, off again" gone again, Finuigan," will about explain the situation in the insurance department muddle at the present time.

When the courts ordered State Auditor Howard to pay Insurance Commissioner Deane salary and the other expenses of the office, it ordered them paid and did not go any farther. However, Auditor Howard does not propose to get himself and his bondsmen in trouble and when the vouchers from the insurance department for salaries came to him drawn on the general fund of the office instead of the cash fund as has formerly been the case, he held them up. Mr. Howard claims that the salaries of the examiners must be drawn on the regular cash fund which is derived from fees collected for examining insurance companies and that salaries have nothing to do with expenses of the office. The first opinion of the attorney general given in the matter authorized the auditor to pay out of the general fund, given on October 20, yesterday he revised his opinion after talking with Mr. Howar and made it cover the cash fund.

The correct motor number is 308,000 and the car number is 287,944.

Otoe Orchardists Lose Heavily

NEBRASKA CITY, Neb., Nov. 1.—(Special.)—The recent cold spell, when the mercury went down to 14 degrees above zero, has caused a great loss to the apple growers of this section. Ernest Poliard of Nebraska had 5,000 barrels of apples frozen on the trees. He had been unable to secure help to gather the same. In the orchards south of this city the loss was from 20 to 25 per cent, while the same thing occurred near Hamburg, Ia. It is estimated the loss to the fruit growers has been not less than 20 per cent of their late crop and some estimate 25 per cent. All of this loss was caused by the orchard owners and purchasers being unable to secure help and the loss will run up into many thousands of dollars. Some estimate the loss at \$50,000 and others at a greater sum. The weather for the last week has been unseasonable and caught the fruit growers unprepared, or they might have gathered the apples and put them in piles in the orchards, where they could have been covered up and packed later.

Beware of Coal Advertising Frauds!

This is most unusual language to be found in a Sunderland advertisement—but it seems advisable to give a bit of warning to the coal buyers of Omaha.

Should you happen to see an advertisement giving in one column a list of so-called "cut rate" coal prices and in another column an ALLEGED list of "Competitor's Prices"—then

Compare Them With Ours as Shown Below

Such a comparison will be illuminating to those who have a disrespect for untruthful advertising. These prices—our prices—have been repeatedly published since September and have not changed except that our Cherokee Nut is lower than formerly.

Kind	Price	Kind	Price
*HARD COAL, grate size	\$10.50	ECONOMY	\$6.50
HARD COAL, egg size	\$10.75	High quality Southern Illinois. No other dealer can furnish Economy coal.	
HARD COAL, range size	\$10.75	YELLOWSTONE	\$7.00
HARD COAL, nut size	\$11.00	Wyoming softless.	
COKE FOR FURNACE	\$8.50	CHEROKEE NUT	\$5.00
OZARK, best Ark. Anthracite	\$9.00	WALNUT BLOCK	\$5.50
*In Kansas City, where hard coal costs the same as in Omaha the retail price is \$11.00.		ECLIPSE (Iowa) NUT	\$4.50

If a So-Called "Cut Price" Dealer

should publish a FALSE LIST of alleged "Competitor's Prices" is it not likely the purpose to make folks believe there's a saving offered, when maybe there isn't?

There Is No Other Line of Business

in which the buyer must depend so fully upon the integrity of the dealer and one does not need to think deeply to figure out the probable outcome of being deceived by deceptive advertising.
