MEN TRY TO LOOK WOMANLY

(Continued from Page One.)

are good so far as they go, but they only go half way—they are only half of the "people," whose rights were proclaimed in the declaration of independence and provided for by the constitution of the United States. Whenever one-half of the "people" is dependent upon the rule of the other half, there is rank injustice.

The one glaring heresy of today is the contention that it is the right of the separate states to pass upon the question of suffrage. The constitution of the United States expressly forbids such action.

Laws Rob Them.
Dr. Shaw said that nowhere, excepting in the states where woman suffrage has been granted, are women accorded equal rights. The laws, she said, robbed them of many things that are their inherent right, marriage for instance. As proof of this last, Dr. Shaw cited New York, where teachers in the public schools are discharged if they marry, as an example of tyranny.

The champion of suffrage referred briefly to the action of the "English women who have been driven to madness." She said that just because they "destroyed a few mail boxes and a golf links the people of this country throw up their hands in horror." The plight of the militants was likened to the circumstances which forced drastic action on the part of revolutionary fathers.

In referring to a suggestion made by a foreigner that women teachers in the schools of this country be displaced by men, because the former had not sufficient patriotism, Dr. Shaw said: "Give the women their rights, men—give them some reason to be patriotic. Then criticize their lack of patriotism—if it exists."

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Kiehl's Dandruff from any drug store or toilet counter and try it.—Advertisement.

Girls, Don't Wash Hair With Soap
Soap dries your scalp, causing dandruff, then hair falls out—Try this next time.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanser." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy, and abundant, and possess an incomparable softness and lustre.

Besides cleaning and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.
