GET BETTER TRAIN SERVICE

St. Joseph and Grand Island to Send More Trains Over Road.

HEARING BEFORE RAIL BOARD

Union Pacific Given Right to Lower Rates on Corn to Help for Purpose of Feed for Cattle.

(From a Staff Correspondent.) LINCOLN, Nov. 10.—(Special.)—As a result of the hearing before the railroad commission this morning, the controversy over train service over the St. Joseph & Grand Island road from Grand Island to Hastings has been adjusted and the two towns will be given additional service.

S. E. Stohr, general freight agent of the road, appeared for the road and A. M. Collins of the Grand Island Commercial club represented the city. As a result of the conference the road will run two additional trains each way besides the two trains which already ply between the two cities. One train will leave Hastings in the morning and return about noon. In the afternoon another train will leave Hastings about 2 o'clock and return about 5 o'clock.

Agreement Over Premium. An agreement has been reached between Auditor Howard and the insurance board whereby the premium of the bond of Insurance Examiner Clayton will be paid the company on the stipulation that in case the law creating the insurance board was declared unconstitutional, the unearned premium would be returned. This same condition will exist in the payment of all claims.

Board Hears Complaint. The State Board of Control resolved itself into an insanity commission this morning and listened to the complaint of one Chamberlain, who asserted he had been railroaded from the asylum in order that others might profit by his incarceration in that institution. In his contention he was backed up by a brother. The board has taken the matter under consideration, notwithstanding all railroad matters are supposed to come under the jurisdiction of the railway commission.

Reduce Rates on Corn. The Union Pacific Railway company has been given authority to reduce rates on corn from Omaha, Alton and Norfolk to Hain and intermediate points for the purpose of furnishing feed for cattle in the west and northwest part of the state.

Asks for Train Order. George Negola of DeBolt place has made complaint before the railway commission that the Northwestern railway places and takes shipments of stock at that place and he is compelled to ship from Irvington, the nearest point. He says that when he bought his land shipments were made from DeBolt place and that he would like to leave the company again stop their train as formerly.

MANY NOVEL FEATURES FOR WINTER MEETINGS

(From a Staff Correspondent.) LINCOLN, Nov. 10.—(Special.)—The domestic science department of the University of Nebraska will "do some stunts" at the midwinter meeting of Organized Agriculture. The display of cured meats and the apple show will be big features at the Auditorium, January 19-23. Secretary J. R. Duncan of the State Horticultural society has been busy engaged on the details of the apple show for several weeks.

Good roads, the improved methods of agriculture and stock-breding, important rural problems and many other matters will come up at the various sessions. Prof. C. E. Lee, Prof. H. J. Gramlich and Prof. T. A. Kieselbach are planning some novel features for the show. Secretaries of the twenty-two societies that make up Organized Agriculture are writing for space in the official program.

FARMER NEAR HEMINGFORD PROVES FERTILITY OF SOIL

HEMINGFORD, Neb., Nov. 10.—(Special.)—John Kavornik, a young farmer living fifteen miles northeast of Hemingford, is making a great success raising corn and hogs. He has lived in Box Butte county since he has been old enough to work. His start was made working on the ranches a few years, which enabled him to buy later on three quarters of the rich, dark-loom land

Mother's Friend in Every Home

Comfort and Safety Assured Before the Arrival of the Stork.

The old saying—what is home without a mother—should add "Mother's Friend." In thousands of American homes there is a bottle of this splendid and famous remedy that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health of mind and body in advance of baby's coming and had a most wonderful influence in developing a healthy, lively disposition in the child.

There is no other remedy so truly a help to nature as Mother's Friend. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding and soothes the inflammation of breast glands.

Mother's Friend is an external remedy, acts quickly and not only banishes all distress in advance, but assures a speedy and complete recovery for the mother. Thus she becomes a healthy woman with all her strength preserved to thoroughly enjoy the rearing of her child. Mother's Friend can be had at any drug store at \$1.00 a bottle, and is really one of the greatest blessings ever discovered for expectant mothers. Write to Broadfield Regulator Co., 128 Lamar Bldg., Atlanta, Ga., for their free book. Write to-day. It is most instructive.

Nebraska.

northeast of here. He began to raise corn and to feed the corn to hogs. He has prospered and now has his farm under fine cultivation, a fine barn, granary and a new house built this summer in which there are eleven rooms. He raises a few horses and cattle and sells some farm crops, but his specialty is hogs, of which he raises and fattens about 100 head annually.

In an interview he said: "Corn can be successfully raised here every year. Lying the distance I do from town I prefer to raise corn to potatoes and I can care for more acres of it. I have never failed to raise corn and this year a field of what we call blue corn went over fifty bushels to the acre. This field is fenced hog light and I let my hogs do the husking."

ROBINSON CHECKS UP KEARNEY NORMAL SCHOOL

(From a Staff Correspondent.) LINCOLN, Nov. 10.—(Special.)—The report of E. J. Robinson of the state auditor's office, sent out to check up the Kearney Normal school before turning the same over to the state by President A. O. Thomas shows that there are fifty-five people employed in the institution as teachers, instructors and office force, including the principal. There are three regular employes, consisting of an engineer, assistant and janitor. All extra work is done by students who are paid by the hour. There were 1200 students enrolled for the year for all kinds of work.

Cash is derived from dormitory rent, laboratory charges for breakage and rental of typewriters at \$1 per week and matriculation fees of \$5 for each student, the latter going to the library fund. President Thomas bought the text books and typewriters out of the receipts for rentals and sales to students and thus the state comes into possession of this property without an appropriation.

The records are quite complete, receipts and vouchers covering about all moneys received and disbursed.

News Notes from Fairbury.

FAIRBURY, Neb., Nov. 10.—(Special.)—Fairbury will be represented at the conference between the Rock Island locomotive firemen and officials at the Lexington hotel in Chicago this week by George B. Wylie, a passenger fireman on the Jersey runs between this point and Lincoln. Mr. Wylie departed for Chicago and will be delegated from Fairbury to the Brotherhood of Locomotive Firemen and Enginemen. Mr. Wylie is candidate for one of the higher up positions on the joint protective board of this organization. Last June he represented the Fairbury lodge at the international convention of the firemen at Washington.

A change has been made in the jurisdiction of Rock Island officials. J. L. Boyle, who has been stationed at this place as supervisor of fuel economy on the Nebraska division, has been promoted to supervisor of fuel economy over both the Nebraska and Colorado divisions effective this date. He leaves tonight for Goodland, Kan., where he will hold a joint meeting with the engineers and firemen of the Colorado division at that point Wednesday afternoon. He will hold another meeting at Limon, Colo., on Thursday.

County Clerk C. H. Shaffer has broken all former records for issuing hunting licenses. He has already issued 617 licenses to the sportsmen of Jefferson county.

A work train was equipped at Fairbury and sent west to operate on the district between Belleville and Phillipsburg, Kan., this morning. Ed Hughes left for Lincoln to take a position on the switch engine operating in the Rock Island yards at that place. Mr. and Mrs. P. Connell and little daughter were called to Nelson, Neb., by a message announcing that Mrs. Connell's father was in a precarious condition and not expected to live.

THOMAS LEAVES THE SCHOOL

(Continued from Page One)

Fairbury, State Superintendent Delsell, T. J. Majors of Peru and State Treasurer George. The other member of the board, Mr. Gettys of University Place, was in Indianapolis and, therefore, could not be present. State Treasurer George and Secretary Tooley were the two members of the board who voted against dismissing Dr. Thomas at the former session who were present, the other member who voted with them, Mr. Gettys, being absent. It is understood that since the action of the board Secretary Tooley has also taken a stand against Thomas, but Treasurer George has been outspoken in condemnation of the state chamber proceedings and was prepared to stay with Dr. Thomas to the end.

For the Good of the School. In a telephone talk with Dr. Thomas today after it was known that the board had been notified that he would step down tomorrow, he said that he would turn over the school at noon Tuesday. "I feel," said he, "that if I should oppose the action of the board, the matter would be taken into the courts and pending a decision, warrants would be held up and the school would receive much harm. I do not want to stand in the way of future progress of the Kearney Normal. I shall leave it with wishes for its future success and I shall watch its future with much interest."

In discussing the action of the state association in postponing consideration of the resolution covering action of the state normal board, Dr. Thomas said there was little doubt, but three-fourths of the teachers were with him on the resolution, but when the substitute was sprung so suddenly, a large number of them were confused, as it was intended they should be, and when they saw others getting up they arose likewise.

He thinks that on a straight vote on the resolution there would have been little doubt of it carrying by a good majority and that it was worried the men who wanted it defeated, consequently the old political game of springing something to cover their tracks worked.

Death from Blood Poison was prevented by Dr. W. Ford, Plunk, Mo., who headed his dangerous wound with Buckler's Arnica Salve. Only 25¢. For sale by all druggists.—Advertisement.

Curtis Lawyer Has Hand Torn Off by Gun

CURTIS, Neb., Nov. 10.—(Special.)—Just before noon today while Attorney J. L. White was handling his shotgun, one of the cartridges exploded, the charge passing through Mr. White's right hand, fearfully mutilating it. The contents of the shell then passed through the office walls. The hand was so badly torn that it had to be amputated.

Notes from Table Rock.

TABLE ROCK, Neb., Nov. 10.—(Special.)—J. L. Rhodes, who lives two miles southwest of here, and Miss Eliza Stevens of Table Rock were married at Tecumseh Wednesday. After a short bridal tour they will make their home on the farm of the groom.

W. J. Ullman, a progressive farmer living west of here in the vicinity of Steinauer, has just marketed the wheat grown on fifteen acres of ground this year. After saving enough seed to again seed the ground the crop from the fifteen acres netted him \$13.54, a trifle less than \$2 an acre.

News has arrived here of the death of Mrs. Mary E. Miles at Patterson, Cal., at the age of 81. She was a pioneer settler in this county, having located with her husband, the late Henry J. Miles, on a farm in the vicinity of Pawnee City, a half century or more ago. The interment was at Newman Cal.

Humboldt Man Drops Dead.

HUMBOLDT, Neb., Nov. 10.—(Special.)—T. J. Creed, one of the most prominent and influential citizens of this city, dropped dead while riding on a street car in Los Angeles, going to the depot. About six weeks ago he and his wife left Humboldt to spend the winter with relatives in California, but becoming homesick, they were on their way back to this city, when Mr. Creed was stricken. The deceased was born in Illinois in 1847 and came to Nebraska about thirty years ago. He was married to Miss Nancy Coons about forty-five years ago. To this union was born six daughters and two sons, two daughters dying in infancy. The body will be brought to Nebraska and interment made in the Humboldt cemetery.

Fullerton Notes.

FULLERTON, Neb., Nov. 10.—(Special.)—Judge Thomas held an adjourned term of district court during the past week. One in which the jury failed to agree and the others, Masters and Michael against Mike West, a suit for commission, was decided for the plaintiff. The hardware store owned by Frank Wake was traded to J. M. Babb for land in Montana. Mr. Wake will return to Genoa, where he had conducted a hardware store previous to engaging in business in this city.

Oxford Defeats Mascots.

OXFORD, Neb., Nov. 10.—(Special.)—The Oxford High school team defeated the Mascot team here Saturday afternoon by a score of 35 to 0. The Mascot team was reinforced by several former Oxford stars, and outclassed the high school team in weight, but the high school team had the necessary team play. This makes three games won, three games lost, and one tied for the Oxford team this year. The next game will be played at Red Cloud, with the Red Cloud High school team.

Carrier Pigeons Found at Lyons. LYONS, Neb., Nov. 10.—(Special.)—Quite a little interest is taken in the discovery of two carrier pigeons here. Henry Doubert found the birds in his hen coop and after he had cut their heads off discovered that each had a metal band on its leg. On one the inscription was "S. A. 0215" and on the other "P. B. 30955." No one has any idea where they are from.

Disbarred Lawyer Reinstated.

TECUMSEH, Neb., Nov. 10.—(Special.)—A. P. Toney Wilson, formerly a practicing attorney of Johnson, Nemaha county, and later disbarred from the practice of law in Kansas, where he had located, has been reinstated by a decision of the Kan-

Nebraska.

sas supreme court. The case has been pending for three years or more, during which time Mr. Wilson has been running a democratic weekly paper at Topeka. He will now resume the practice of his profession.

Prison Physician Defends Governor

(From a Staff Correspondent.) LINCOLN, Nov. 10.—(Special.)—Dr. Williams, physician at the state penitentiary, comes to the rescue of the governor in an effort to show the public that the liberation of two prisoners from that institution was the best thing to do. The governor had been criticized to some extent for his action, which upon investigation seems to have been justified, as both the men were in an advanced stage of consumption and their condition was such that the health of the other men in the institution was menaced. The men, Younger of Lancaster and Johnson of Douglas, had become very ill with tuberculosis and a physician was called in for consultation with Dr. Williams that something should be done to get them away from the prison. About this time the matter was taken up with the parents of both men, who live in Texas, and they agreed if the men were sent to them that they would take care of them as long as they lived. As there is no provision for isolating the men at the prison, Governor Morehead thought it best to furnish them and get them out of the state, which was done.

NO POSITIONS ARE OPEN TO WOMEN ON THE COAST

(From a Staff Correspondent.) LINCOLN, Nov. 10.—(Special.)—A communication from Miss Evelyn B. Ketch, general secretary of the Young Woman's Christian association of San Francisco to Governor Morehead, urges that some steps be taken to prevent women and girls from throwing up positions in the east and coming to the coast in expectation of finding good jobs. The communication in part is as follows:

May we ask your aid in coping with a situation which is rapidly becoming alarming? Women and girls from eastern states are coming to us in constantly increasing numbers. Trained nurses, teachers, stenographers, and women of all walks of life, are relinquishing good positions in the east and coming to California, explaining that they have been unable to understand throughout the east that the Panama-Pacific exposition will create positions for women. Many of these women are here without money and without friends, and they say that they are already starving. If the condition is such in 1913, what will it be in a few months? We appeal to you to reach the women and girls in your state, through the press, or by whatever agencies you may deem most efficacious, impressing upon them the seriousness of the situation and the fact that there are already in California more than enough women to fill every position which is now open, or which might be created as the result of the exposition.

Few Delinquents in Johnson. TECUMSEH, Neb., Nov. 10.—(Special.)—County Treasurer W. C. Redfield of this county makes the announcement that never before within the records was the sale of real estate to pay delinquent taxes as light as it was this year, which attests to the prosperity of our people. The total sum realized from all property sold was but \$46.00. The tax list this year was the smallest it has been in years, necessitating the offering for sale of but very little property.

BIRMINGHAM, Ala.—P. L. Willis of the firm of Hartman & Willis, pharmacists, suffered greatly from asthma and bronchitis, so bad he could not attend to business. As he writes: "I got no relief until I took Holey's Honey and Tar Compound. It entirely removed those choking sensations and never failed to produce an easy and comfortable condition of the throat and lungs." Remember the name, Holey's Honey and Tar Compound, and accept no substitute. In the yellow package. For sale by all dealers everywhere.—Advertisement.
