Harvest Festival Attracts Many to Admire the Effect

Those whose daily fare depends upon the rather uncertain results of their efforts to center the attention of the public upon such given event and to arouse interest in it have long maintained that there is something particularly alluring and appealing in the prospect of a festival of any kind, because it holds forth a promise of enjoyment of some sort. Whether it be to the traditional May gathering or to any other scene of recreation, they say, the throngs will flock to it the more readily if it is heralded as a festival.

Courtney & Co., in advertising the sale that is now in progress at its store, took advantage of any prestige that is carried with the announcement of a festival, and even added to that—they advertised a harvest festival.

Throughout the days of the sale thus far the store has been crowded with many, the store management says, who came not only as prospective purchasers, but merely because they wanted to see what this particular festival was like. It is added, however, in explanation of the record-breaking number of sales that have been registered, that most of those whose visits were prompted by a pleasure-seeking sense were, through an equally well developed sense of thrift, induced to make a purchase before leaving the store.

Henderson Confuses Downtown Streets

James Henderson, secretary of the Central City Commercial club, is anxious that the downtown streets in Omaha should be marked so that he can tell one from the other. Henderson is a live wire. In coming to Omaha occasionally as he does he has a little difficulty in discerning which is Parman street and which is Douglas. Also he puzzles a little over which is Dodge and which is Harney. So he has written the Commercial club of Omaha that the whole world does not know the streets in Omaha merely by the looks of them, as Omaha people do. He suggests that these principal streets be marked at once.

38 PIANOS SOLD

IN ONE WEEK

All records of piano selling surpassed

The success of this co-operative sale has been almost electrifying

THE success of this sale was foretold the day it opened. It started out a success—and has kept it up ever since. The Piano department has been as busy as a bee or any other department, where thousands of things are sold instead of a few. Up to this writing we have sold and delivered just twenty-one instruments more than the probable sales for the given time—which means—that the sale will close from a week to two weeks earlier than we had expected. Remember—when three hundred pianos and one hundred player-pianos have been sold—the sale ends. Not another one of these instruments will be sold at these prices, upon these terms, or upon this plan. So come NOW.

Success due wholly to this mutual plan

Co-operation and concentration did it. The plan has done it all. You got a good, durable piano, worth three hundred and fifty dollars of any body's money, for two hundred and forty-eight dollars and seventy-five cents. This was a saving of one hundred and one dollars and twenty-five cents—to begin with.

You paid five dollars when you selected your piano, leaving two hundred and forty-three dollars and seventy-five cents to be paid. To pay this balance you were allowed one hundred and ninety-five weeks time. This made the payments amount to only one dollar and twenty-five cents a week. You could take the full time—one hundred and ninety-five weeks—or not, just as you wished.

If you paid in shorter time, you earned and were paid a cash dividend of fifteen cents a week. After the balance of two hundred and forty-three dollars and seventy-five cents was paid, there was then no further interest or payment of any kind to be met.

You could get your money back after a thirty days' trial, if you wished. If you kept the piano you could exchange it without loss at any time up to within one year from the day you bought it. And all unpaid payments were voluntarily cancelled in the event of your death while you were still paying for the instrument.

Besides this you got the protection of a joint guarantee, signed by both the manufacturers and ourselves, protecting you absolutely for five years.

What more could have been given? What more wished? Could you have suggested any further privileges or conditions that would have been of advantage to you.

Player-pianos also on same plan

One Hundred player-pianos are also being sold on this co-operative plan. The usual price of these player-pianos is five hundred and fifty dollars each. The co-operative price is three hundred and ninety-five dollars, with NO INTEREST to be added. The player-piano will also be delivered immediately upon the payment of five dollars.

The payments are two dollars a week—giving you one hundred and ninety-five weeks' time in which to make the payments—the same as on the piano. The same unconditional guarantee that is given on the piano is given on the player-piano. You can also get your money back at any time within thirty days. You get the same privilege of exchanging within a year, as that given with the piano.

All of the unpaid balances will be voluntarily cancelled in event of death. Also a player-piano bench and nine rolls of music (your own selection) are included without extra charge.

We attribute the success of our Player Department largely to the fact that we have been careful to select only such Player-Pianos that would not only give satisfaction to the purchaser, but that would lend prestige to this department of our business.

We believe that we have sold more Player-Pianos than any other piano concern in this section of the country, and in this great co-operative sale we have been careful to select only such Player-Pianos that can be sold upon, not only the manufacturer's guarantee, but OUR GUARANTEE.

All of the features of the co-operative plan are carried out in offering the player-pianos, with the single exception that the terms on the player-piano are two dollars a week instead of—as on the piano—one dollar and twenty-five cents a week.

The various makes of pianos for this great co-operative sale were personally selected by Mr. M. M. Robinson and upon arrival are being tested and inspected by Prof. Jean Gilbert Jones.

How to obtain one of these pianos by our co-operative plan

To take advantage of this unusual sale, all you have to do is to send or bring in five dollars, for which we will give you a receipt.

This five dollars is credited to your account on the co-operative books—leaving two hundred and forty-three dollars and seventy-five cents to be paid.

The co-operative plan then allows one hundred and ninety-five weeks' time in which to pay this amount—at the rate of one dollar and twenty-five cents a week. There are no further payments of any kind to be met.

You can select a piano at once—tomorrow—next day—next week or any other time convenient to you. It will be delivered immediately—next week or next month. The time you select your piano and the date of delivery is wholly optional with you.

If not convenient for you to personally select your piano we will make the selection for you under your instructions, with the understanding that, if at the end of thirty days' trial the piano is not satisfactory, we will refund your money.
