

Spirit of Advertising

The spirit of advertising is different from that of a few years ago. The idea no longer is to fool and to misrepresent, but to inform and to invite. And it is our constant aim at all times to stick absolutely to facts.

It is this spirit on the part of the Dundee Woolen Mills that makes for confidence and enables The Daily Bee to direct the attention of its readers to the fact that there is nothing in our advertising that we do not put into our garments. An exclusive line of all wool fabrics on display.

Nebraska. STATE FACTORY MEN MEET

Hold Session of Organization in Capital City.

RETAILERS COME AS GUESTS

Governor Morehead Speaks at Banquet, Which is Attended by Number of Prominent Men from Omaha.

(From a Staff Correspondent.) LINCOLN, Nov. 19.—(Special.)—The second annual session of the Nebraska Manufacturers' Association was held in Lincoln today and will continue to tomorrow.

The meetings are being held in the convention hall of the Lincoln hotel and the attendance is good. Committeemen representing the Retailers' Federation are guests of the association and participated in the banquet held this evening at the Commercial club.

A short morning session was held today, in which President C. E. Towle delivered the opening address. In the afternoon Commissioner F. I. Ringer delivered an address on the work done last year and what was expected would be accomplished in the future. He believed that the manufacturers of the state would accomplish a great deal by organization and he outlined plans which he believed would bring about mutual benefits.

R. W. Campbell of Chicago, president of the National Council for Industrial Safety, spoke, having for his subject, "Safety First."

F. E. Pierce of Omaha, manager of the credit department of Paxton & Gallagher, gave an interesting talk.

In the evening the annual banquet was held at the Commercial club. C. C. Quiggle, president of the club, acting as toastmaster.

Speakers were Governor Morehead, John W. Sternhart of Nebraska City, vice president of the association; Judge Howard Kennedy of the State Board of Control; George W. Darner of Bethany, vice president Federation of Nebraska Retailers, and Dr. William J. H. Boecker of Toledo, O.

Thursday's session will be taken up with addresses by M. C. Powell of Ralston, president of the Omaha Furture Manufacturing company, who will speak on "The Fighting Spirit of a Nebraska Manufacturer;" Arnold C. Koenig, chief engineer Commonwealth Power company, on "Possibilities of Water Power Development;" L. V. Estes of Chicago, on "Manufacturing;" and C. C. Holmes of Omaha on "Home Patronage;" George A. Wrightman of Des Moines, secretary Iowa association, on "Organization;" and Lieutenant Governor S. R. McKelvey, on "Advertising."

Wilson Expects to Negotiate Another Treaty With Czar

WASHINGTON, Nov. 19.—After a conference with President Wilson today, Dr. Stephen S. Wise of New York issued a statement declaring the president and Secretary Bryan had not abandoned the idea of pressing a new commercial treaty with Russia that would recognize the passports of American citizens, "without distinction of religion or race."

"The president is in a far better position today than he was six months ago to negotiate through the State department and Secretary Bryan the commercial treaty with Russia," says the statement in part. "The president has become in an extraordinary degree the leader of his own party and has come to command the confidence and respect of the whole American people."

"In his dealing with the Mexican problem he has shown the high wisdom and patience of international statesmanship free from unworthy ambitions. Russia will know that in pressing for a treaty that will recognize the passports of American citizens without distinction of religion or race, the president represents the American people as well as his own fixed and inflexible convictions."

British Postal Men Refused More Pay

LONDON, Nov. 19.—The demand of 100,000 employees of the British postoffice for higher pay was rejected today by Herbert Samuel, the postmaster general. He sweetened his refusal by making some concessions in working conditions, but he pointed out that an increase of 15 per cent in wages meant an expenditure of \$12,500,000 a year and would necessitate new taxation.

Head Stuffed? Got a Cold? Try Pape's

"Pape's Cold Compound" relieves worst cold or the gripe in few hours—No quinine used.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passage of the head; stops nasty discharge of nose running; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25c at any drug store. It acts without assistance, (asthma, and causes no inconvenience. Accept no substitute.—Advertisement.

Nebraska. POOL FILES ON HIS LAND

Labor Commissioner Picks Out Fine Farm Near Ashby.

NEW QUARTERS IN STATE HOUSE

Various Departments Already on Move to Upper Stories of Capitol Building—Union Pacific Appeals Damage Suit.

(From a Staff Correspondent.) LINCOLN, Nov. 19.—(Special.)—Labor Commissioner Charles Pool returned from his trip to the land of peace and plenty this morning, where he selected the land on which he will make his future home. While he was disappointed in not getting the tract he at first selected, he believes he has one equally as good, and the more he thinks about it is just as well satisfied.

His land is about twelve miles southwest of Ashby, a town on the Burlington. He is also situated next to the section on which there is an artesian well, and as that surface water can be secured on his land at only a depth of a few feet. The larger portion of the land lies in a valley between a ridge of low sand hills and is admirably fitted for the raising of alfalfa.

Elevator Service at Last.

The elevator in the state house is at last running and this morning the departments which will have offices on the fourth floor in the new rooms began their moving.

The Grand Army of the Republic department was the first to start and without waiting for the assistance of the janitors began taking their stuff out and carrying it to the top floor, where they will be found in room 405 on the south side close to the elevator entrance.

The station registration board was also moving today and will have room 406 on the north side in the center of the wing. The state veterinarian will have 407, next on the east, while the State Board of Agriculture and horticulture will have rooms on the northeast corner of the north wing, numbered 405 and 406.

Dr. Wilson and the State Board of Secretaries will move to room 400 on the southwest corner, where they will share offices with the state bacteriologist.

Railroad Appeals.

The Union Pacific Railway company has appealed from a judgment secured in the district court of Douglas county in which Roy J. Hall sued for \$15,000 for injuries received and received a verdict of \$5,000.

Hall set out in his suit that he was a student brakeman on that road and was assisting in weighing cars on the company scales in Omaha, and that on account of the construction of the scales he was knocked from the car on which he was helping to weigh, and received permanent injuries.

Anthracite Roads Discriminate Against Independent Dealers

PHILADELPHIA, Nov. 19.—A J. Stone, general manager of the Erie railroad, testifying today before the interstate commerce inquiry into the coal freight rates and practices of the anthracite carrying railroads, described the method of loading and shipping hard coal from the Wilkes-Barre-Scranton district to tidewater at New York harbor, and to Buffalo for the lake trade.

In order to obtain comparison of costs, Mr. Stone also described the method of handling freight other than coal. The trend of this class of freight, Mr. Stone said, was westward rather than eastward.

The Philadelphia & Reading railway's handling of anthracite was then taken up. J. E. Turk, superintendent of the Shamokin division was the first official called.

C. A. Eastman of Chicago testified the railroad companies discriminate in favor of the so-called railroad coal companies as against the independent companies. He testified in substance that dealers in Ohio, Indiana, Illinois and Michigan purchase their coal from independents have to pay about 25 cents more a ton than dealers who purchase coal from the so-called railroad companies. This is brought about, he said, by manipulating freight rates.

Two Currency Bills a New Problem to Senate Leaders

WASHINGTON, Nov. 19.—What to do with the two currency reform bills now being completed by the two factions of the senate banking committee has begun to give serious concern to senate leaders.

Both bills, one representing the administration view and the other the work of the republican committee members and Senator Hitchcock, probably will be ready for the senate before the end of this week.

As the committee is evenly divided, there can be no formal report on the Glass bill, which passed the house, and neither of the new bills can be offered as a substitute, with the endorsement of a majority of the committee. Both factions of the committee are anxious to obtain whatever advantage there is to be had before the senate and it probably will be agreed to return the house bill without a report and submit the two new bills simultaneously as amendments.

Efforts will then be made by some of the republican members to have the senate consider the currency bill item by item, so that each side will have a chance to advance its amendments and have them voted on as the reading of the bill progresses in the senate.

For Children There is Nothing Better.

A cough medicine for children must help their coughs and colds without bad effects on their little stomachs and bowels. Foley's Honey and Tar exactly fills this need. No opiates, no sour stomach, no constipation follows its use. Stuffy colds, wheezy breathing, coughs and croup are all quickly helped, and sweet refreshing slumber instead of feverish tossing and night. It is easy therefore to understand why an increasing number of bottles of Foley's Honey and Tar Compound is sold yearly.—Advertisement.

"THE STORE WITH A CONSCIENCE"

Go Away or Stay at Home as You Choose on Thanksgiving Day— You Should be Attired So as to Appear at Your Best

Passengers Taken from Burning Ship

LONDON, Nov. 19.—The British battleship Iron Duke effected a timely rescue of the thirty passengers and crew of the steamer Rottedyke while the steamer was burning in the English channel early today.

The steamer, bound from Mediterranean ports for Sunderland, caught fire off the Isle of Wight shortly after midnight. The blaze started in a deck cargo of grass and spread so rapidly through this inflammable material that the crew was unable to stay its progress.

The fire attacked the ship's bridge and a number of life boats, which were destroyed. Owing to the heavy sea it was impossible to launch the remaining life boats. The panic-stricken passengers and the crew were forced to the stern of the vessel.

The battleship Iron Duke was carrying on trials in the channel during the night and when the burning steamer was sighted sailors put off in boats to the rescue. The forepart of the steamer was a mass of flames when the boats arrived and the helpless persons aboard were huddled together aft. The Iron Duke placed its searchlights on the ship while the rescue crew took all hands safely off.

Mrs. George Lauder Dies in Pittsburgh

NEW YORK, Nov. 19.—Mrs. George Lauder of Pittsburgh, a cousin of Andrew Carnegie, died here today. She had been ill about two weeks.

Diagnosed as a case of liver and bowels, in refusing to act, is quickly remedied with Dr. King's New Life Pills. Easy, safe, sure. 5c. For sale by your druggist.—Advertisement.

Glass of Salts Cleans Kidneys

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Advertisement.

Very Soon Our Landlords Will Say: "Time's up!"

and when they do you will see an instant end of the Clothing Sale that has caused consternation in Omaha.

Brooks Quits!
