Tests have been made from time to time and as pupils have failed to reach the standard set they have been dropped out. The final test in running will be concluded this week, and the last event in the broad jump will be held during the week following December 1.

At this time no figures on the results in the broad jump are available, but the scores of schools in the chinning and running high jump follow:

## MEXICAN FEDERAL ADVANCING IN FORCE UPON JUAREZ CITY

(Continued from Page One.)

that the restoration of order was complete between Tuxpan and Tampico.

Secretary Bryan issued this statement relative to Mexico City dispatches about the movement of British warships to Mexico.

The statement published this morning to the effect that the State department protested against the action of Great Britain in sending war vessels to Mexico waters is absolutely false. And in issuing the statement, I desire to add a condemnation of the publication of statements of that kind without taking time to inquire into their truth or falsity. A denial cannot reach all who read the statement, nor can it prevent the discussion and editorial comments that are practiced on the false statement. Surely

in international affairs there ought to be a patriotic desire to promote friendly relations, and these cannot be promoted by the reckless publication of false statements in regard to the acts of the government officials.

Rebel Commander Warned.  
VERA CRUZ, Nov. 21.—Consul Clarence A. Miller of Tampico, reports in a wireless dispatch from the United States to Mexico City, that he has sent a messenger to General Canido, the rebel commander, with a letter from Captain Spencer S. Wood, the commander of the Nebraska, giving a warning against the destruction of foreign property. He also advised the companies that they must remain neutral and must not pay war taxes.

### HURTA ORDERS HIS ELECTION OFFICERS INSTRUCTED TO SEE RETURNS ARE RIGHT.

NEW YORK, Nov. 21.—The facsimile of printed instructions which purport to be those issued by General Huerta, in preparation for the recent presidential election

in Mexico, has been received here. A translation of the document is interesting as showing some of the precautions taken by General Huerta, to keep himself in power.

The instructions apply particularly to the state of Puebla and read in part as follows:

1. If any of the municipal presidents and in league with any of the revolutionary parties they must be removed from office immediately so that there may be no cooperation between the municipal presidents and the Jefe politico.
2. It is especially advisable that the men appointed to supervise the polling shall be trustworthy persons, who will unambiguously obey any orders given to them.

3. If there is still time, orders are to be given that the houses intended to receive the votes of persons living on ranches shall not be installed in the towns or villages corresponding to the ranches, but in one of the ranches, so that the watchers may not attend, the principal object aimed at being to omit elections in at least two-thirds of the polling booths in each district. For this reason not more than two booths are to be installed in your district.

4. Blank ballots will be used in the polling booths which may be established. That the absolute majority of votes cast shall give the following result:

President—General Victoriano Huerta.  
Vice President—General Aureliano Blazquez.

5. In spite of the fact that article 31 prescribes that the returns be sent directly to the chamber of deputies, the supervisors must be instructed to turn them over to the Jefe politico, who will examine them, and if he finds that they are in accord with the instructions, he will return them to the supervisor with instructions to send them to the chamber of deputies. If the Jefe politico finds that more than one-fourth of the polling booths in the district have been utilized, he will omit the forwarding of a sufficient number of returns so that the chamber of deputies shall not have received returns from more than one-third.

6. Complete liberty must be given to citizens and political parties in all booths where votes are to be permitted to be cast, so that they may formulate protests of any description, so long as the protests are against violence.

7. Use of the law by partisans of any of the candidates in the electoral contest, may in no case must such protest be allowed to interfere with the object set forth in part 5 of these instructions.

8. If the examination by the Jefe politico reveals that the returns do not correspond to the instructions, they will make whatever arrangements may be necessary, so that the returns shall correspond entirely with the said instructions.

8. If the examination by the Jefe politico reveals that the returns do not correspond to the instructions, they will make whatever arrangements may be necessary, so that the returns shall correspond entirely with the said instructions.

### RIGHT OF JUDGE TO CHANGE HIS MIND IS QUESTIONED

WASHINGTON, Nov. 21.—The powers of a judge to change his mind and increase the sentence of a prisoner after he has been sent to prison will be one of the problems the supreme court must solve shortly.

A judge in Trego county, Kansas, sentenced Henry Meyer, to jail for three months and to pay a fine of \$100 for contempt in violation of an liquor injunction. Twelve hours later in the day, the judge recalled Meyer from jail and made his sentence six months.

The legal minds of Kansas have been figuring ever since what happened to Meyer. The supreme court of Kansas held that the trial judge was powerless to set aside the first sentence and that this must be served out. Meyer claims that the judge set aside the first sentence, but was without power to impose a second sentence so that he is a free man.

### ELLSWORTH CLAIMS COLLEGE CHAMPIONSHIP

BYA FALLS, Pa., Nov. 21.—(Special).—By a score of 27 to 9 Ellsworth college earned the distinguished title of the championship of the Hawkeye conference and defeated the Upper Iowa university team, which had been touted as a strong contender for the championship of the conference which embraces eight of the smaller colleges of the state. The victory was obtained and made no gains except by the forward pass, which was used in the last part of the second quar-

ter to advance the ball to Ellsworth's ten-yard line. A score seemed imminent when time was called. The Ellsworth goal has not been crossed this season by an opposing player, nor has a score been made on the team by the air route. The closing game of Ellsworth will be played here Thanksgiving with Des Moines college, a non-conference team.

### Invention Perfected in Prison Indirectly Lands Him in Jail

NEW ORLEANS, Nov. 21.—A device which he invented while serving a term in the Arizona penitentiary for forgery is declared to have been indirectly responsible for landing Roy J. Meyers in jail here. Meyers is held in default of \$5,000 bail on three charges of obtaining money under false pretenses, in connection with attempts to place his device on the market.

Meyers while in the Arizona prison invented a "power-absorber" with which he said static electricity may be caused from the air and used for power.

Miss Kate Barnard, state commissioner of charities and corrections of Oklahoma, while visiting the Arizona prison, became interested in Meyers' invention. It is said she appeared before Governor Hual and the Arizona legislature and succeeded in having Meyers paroled for thirty days to enable him to go to Washington and have his device patented. He returned from Washington without a guard and served the eight months remaining of his sentence.

ST. LOUIS, Nov. 21.—William L. Bodine of Chicago, president of the National League of Compulsory Education Officers, in an address before the convention of the organization here today said the boy of 15 knows too much and the girl of 14 knows too little.

"Moral education is a great question for big cities to consider," he said. "I would not call it sex hygiene. I would call this teaching personal purity education of juvenile delinquency. I have seen girls in the Chicago juvenile courts whose mothers were the cause of their downfall because through false modesty they failed to tell their address what they should know."

The divorce statistics relating to Berlin show an average of ninety-six per 100,000 in 1911, against sixty-two per 100,000 for the period 1901 to 1904.

### "DUMMY" COMMITTEE OF SENATE IN CONSTERNATION

WASHINGTON, Nov. 21.—Consternation seized upon members and employees of the senate committee on the University of the United States today when it was learned that the chairman, Senator Dillingham, had announced his intention of introducing and pressing a bill for the

establishment of a university under federal control. The committee has not had a meeting in years and has existed principally to afford new members a chairmanship, a committee room and the allowance for secretary and clerks that go with committee appointments. Hence the stir.

### Rumors of Capital "Social War" Denied

WASHINGTON, Nov. 21.—There is to be no "social war" in official circles and all previous reports of such a warfare between wives of cabinet officers and helpmates of members of the house, are declared to be the "absurdest nonsense" by a cabinet officer's wife, who deemed the rumors of sufficient importance to warrant a statement calculated to lay them at rest. According to the original reports the trouble, the wives of representatives had been stricken from the calling lists of the cabinet group of women, because the latter had deemed it impossible to meet all the social demands made upon them. This was denied as a base slander by the cabinet officer's wife who declined to reveal her identity at this time.

"We called on the ladies of the senate last spring," she explained, "because the senate had confirmed our husband's appointments. And while we were house-hunting and more or less overwhelmed by our new duties we had no time to make calls excepting those that were immediately necessary. We had no idea that any offense would be taken at this. We all expected that the entire session would be short and that with the beginning of the new session we would be all ready to take up our regular social duties."
