If Kidneys and Bladder Bother

Take Salts to flush Kidneys and neutralize irritat-

Kidney and Bladder weakness result from upic acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame causing a burning, scalding sensation, or setting up an irritation at the neck o the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in avoiding it.

Bladder weakness, most folks call it because they can't control urination While it is extremely annoying and sometimes very painful, this is really one of the most simple aliments to overcome Get about four ounces of Jad Salts from your pharmacist and take a tablespoonfu in a glass of water before breakfast continue this for two or three days. This will neutralize the acids in the urine so

it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and

is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splenidid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithla-water drink, which quickly relieves bladder trouble.-Advertisement.
