wheat and who await a hardening in prices in order to indulge in some, real-ising, prevent advances from day to day, as well as to hold the market within narrow limits. Sentiment is more builts non wheat at the present than it has been for a fortnight and the buyins on the whole was of much better char-acter than the selling. Nearly all the private wire houses advised their friends to steer clear of the selling side, ex-cept on the bulges. While these are not all the houses that are talking builtsh. they are to be seen on the built side, the bears have a slim chance to win out. According to the Northwestern Miller, the Minneapolis flour output decreased 65,000 harrels last week. The output for the week ending November 29 was 347,000 barrels, against 44,600 barrels in 1912; 24,000 in 1911, and 276,000 in 1910. North-western mills are doing a steady busi-ness. Some mills are disposing of a volume of flour somewhat under the guantity made, while others are selling somewhat mare prices in order to indulge in some, real-

rest. Thin is are doing a steady business of the Trading and Closing is volume of flour somewhat under the outantity made, while others are selling somewhat more.
Cash wheat was is higher.
Corn was expected to sell to a lower level yesterday, but those who put out short lines early were obliged to run to cover later. The December future was reported that the country is cancelling December shipe of the same as last night to sent south west, because to bagins of the southwest, because to bagins of the same as last night to range is large and the damage of the damp condition of that grain. Cash corn was is both in the southwest, because to be given support by larger packers. There were weak spots yesterday and the stock yards contingent came in as tuyers on all declines.
Cash oats were is the heat and flour were stand ob a lower is the stock yards contingent came in as tuyers on all declines.

Thus it would appear that the demand for both killers and feeders in all sections of the country and at all market points is very much below what might reasonably be expected for the early part of December. With buying demand small it naturally follows that the tendency of prices should be lower. That explains why the trade in fat cattle here and at other market points was slow and weak this 65%c. gram.)-Among the speakers at tonight's session of the National Rivers and Harbors congress was Mrs. William E. An-drews, wife of the auditor for the Treasury department, and a member of the executive committee of the general federation of women's clubs, which number 1,500,000 members.

Mrs. Andrews spoke of "The Interest of Women's Clubs in Waterway Development" and was received most enthusiastically by a very large audience which before the speechmaking had been received by Vice President and Mrs. Marshall, Speaker and Mrs. Clark, Senator and Mrs. Fletcher of Florida, Senator and Mrs. Ransdall of Louisiana, Mr. and Mrs. J. Hampton Moore of Pennsylvania, and other waterway enthusiasts.

Mayor J. C. Dahlman, W. Driscoll and J. H. Healy of Omaha are in attendance upon the rivers and harbors convention as delegates for the Gate city.

Mayor Dahlman was selected to represent the state of Nebraska on the resolutions committee, W. Driscoll going on the committee of nominations.

Delegations urged before the rivers and harbors committee or songress an appropriation to build permanent levees along the Mississippi river as a protection against floods. The spokesmen, in the main, favored the Ransdell-Humphreys bill now pending, which would provide for levees to cost \$50,000,000, of which the

states would raise \$20,000,000.
