The report was discussed, however, by the crowd that attended the trial. There is conflicting evidence as to the cause of Mrs. Turner's death. The body was found with the face half buried in sand and wounds on the face and head that might have been caused by blows from a heavy club. Death, it is contended, might have resulted either from the blows or from sufficiation.

Court was in session until 10 o'clock last night and this morning the prosecution continued its evidence.
