CATTLE-Receipts of cattle this morning were very light, only about 400 head being reported in the yards. This makes the total for the five days this week 16,400 head, the smallest since three weeks ago, but about the same as the corresponding perior last year.

grades offered, and those on sale had a very wide range in prices. As during the entire week packers continued to look for right good lambs and sheep and were rather indifferent as to anything not on that order.

A little trade took place in feeding lambs, prices being about steady and ranging largely from \$6.25 to \$6.35. Considerable trade in this division for this time of the year took place all the veek and closing prices are practically steady to strong with a week ago.

Frices on fat stuff, including both sheep and lambs, have shown wide ranges all the week due to the difference of quality and finish of the offerings, and also to the demand, which is chiefly for the better grades. On the best sheep and lambs there is a decline of 25035c, while the less desirable kinds are apparently not wanted at a reduction of \$6035c from last week's close.

Bears Experience Little Trouble in Routing Longs.

MARKET SLIDES DOWN LITTLE

Orders Are Uncovered Selling Becomes Fast and and Furtous for a Little While.

CMAHA, Dec. 19, 1913.

The bears experienced little trouble in forcing many of the longs in wheat and corn out of their holdings yesterday and in addition to this seiling by those who accumulated grain at higher levels in the hope that advances were to come was the liquidation by longs in eats. The leases were lightly in wheat, "grac in corn, and 195% in cats. As the market sailed downward many stop orders were uncovered and the seiling at times became fast and furious, while the buying was rather slow. One noticeable feature was that some of the old-time bears in wheat who recently switched to the built side, were in the lead as sellers yesterday. The weakness displayed in the wheat market in the anxiety of longs to unload was a reflection of the exceptionally bearish government report Wednesday. The weakness in corn was caused more by a lack ness in corn was caused more by a lack of demand coupled with big receipts than

These who are carrying the largest load of wheat in Chicago showed no algestices because of the change from bullish ness because of the change from builish to bearish feeling. Some of them were advising their customers to use caution on the buying sine, but they adhered to the idea that there is still a chance for the buils to win out, and that they will be materially helped by the further reduction in the movement of wheat to northwestern and primary markets.

Holders of corn were greatly discouraged at the unfavorable change which has taken place for them. Many who were long on May, and a good number who have banked on the December as a sure winner because of small stocks here seemed eager to get out of their here seemed eager to get out of their lines and some of them were obliged to take losses. Concerns with drying ma-chines were sellers of the December, showing that the corn is being prepared for delivery as rapidly as it comes for-

Montgomery is Captain of Tarkie.

TARKIO, Mo., Dec. is.—(Special.)—At the annual meeting of the foot ball men of Tarkie college here lest night, Archie Montgomery of Samoxburg, Pa., was elected captain for 1914. D. B. McPherson of Tarkie, Mo., was elected manager for 1914. Montgomery has played a half-back position for two years and was the star on the 1917 team. Ite is a sophomore in college. McPherson played a backfield position and is a student in the Tarkie college school of commerce. Lajole Likes Strong Eyes.

Napoleon Lajoie says that young base bail players pay too much attention to developing speed without giving a thought to what he considers the most important asset in an aspiring recruit. Lajole says a perfect pair of eyes can do more to make a player successful than any adjunct. Plenty of nerve, intelligence and strength enter into it, but the largest item is good exesight.

### NEW YORK STOCK MARKET

Decided Strength Shown from Opening to Close.

SHARES OF ALL CLASSES RISE

Forward Movement Brought About by Increasing Firmness During the Last Few

NEW YORK, Dec. 12.—From opening to close today's stock market exhibited locided strength. The sustained advance in shares of all classes—railroad and instrial, investment and speculative—impressed both buils and bears and there was increased buying for both accounts. Not for weeks had the street seen a market which gave such striking evidence of inherent strength. Many of the representative shares were marked up two to four points.

four points.

The forward movement was brought about by increasing firmness during the last few days and evidences that disturbing liquidation had been completed. Oversold conditions among the speculative stocks enabled the built to conduct approximately oversold and approximately Oversold conditions among the speculative stocks enabled the buils to conduct aggressive operations successfully and the shorts were forced to run to cover. While there are many different opinions in Wall street as to the ultimate effect of the changes to be made because of the currency bill, the trading element took the view that passage of the bill would be a distinctly hullish influence. Becent changes in the bill were construed as favorable.

An unofficial report from Washington that the interstate Commerce commission was disposed to resard favorably the petition of the eastern roads for higher freight rates helped to strengthen railroad stocks. Success of the Lehigh Valley bend offering was another influence in that direction.

Another favorable bank statement was indicated. Forecasts based on known movements of currency during the week suggested a gain of \$7,000,000 or more in cash holdings.

Bonds shared in the strength of the market for stocks. Wabash-Fittsburgh certificates slumped five points to ten. Total sales, par value, \$2,000,000. United States is advanced is on call.
