Commercial Club So Declares in Telegram to The World,

LOOKS FOR NO BAD EFFECTS

Prosperity for Omaha and Nebranks is Well Assured Under Present Prospects.

No bad effects on business in general are anticipated by the Omnaha Commercial club as a result of the revision of the tariff laws. That the currency bill as finally passed, with its numerous amendments, will restore con, ence, another opinion of the Commercial club, as expressed in a telegram to the New York World. The New York World sent the following inquiry to the Commercial club by telegraph:

The New York World wishes you a happy New Year and would be gratified if you would telegraph to this office your New Year opinion on the outlook for 1814, taking into consideration the new currency law and the new tatiff law. An early reply will be deeply appreciated. Following is the reply sent to the

World by the Omaha Commercial club: "The Commercial club of Omaha re turns the compliments of the season ex pressed in your wire and wisnes the ommercial interests of this country a happy and prosperous new year. The outlook for 1914 is, in our opinion, very favorable. The effect of the revision the tariff laws and the new currence law cannot as yet be fully determined While the tariff changes may affect ser tain interests to some extent, we do not anticipate that they will have any bad effect on business in general. The new currency law as yet is largely experimental, but there seems to be a general feeling amongst business men and banking interests that the bill as amended and finally passed when put in full operation will have a tendency to restore confidence and do away with the general feeling of unrest which has existed during the last few months. With the prospect of bountiful crops the comluc the continued prosperity Omaha and Nebraska is well assured. COMMERCIAL CLUB OF OMAHA, "George H. Kelly, President.
