# OFFICE ON WHEELS FIXED UP

Steel Car Secured for Travels of Reserve Bank Body.

TO JOURNEY MORE THAN MONTH

Some of Preliminary Steps Taken Indicate that Undertaking Will Be an Unique

One.

WASHINGTON, Jan 1.-Although plans for the long western trip of the reserve tank organization committee, beginning the middle of this month, have not been ompleted, some of the preliminary steps taken indicate that the undertaking will e unique.

The committee expects to have an office in wheels for more than a month and to insure the safety of its records and documents on the 10,000-mile journey a steel car of the latest type has been secured. Secretary of the Treasury McAdoo and Secretary of Agriculture Houston, the committee, will live aboard this car most of the time for the month, will go over testimony oil a in the twelve western cities they are to visit and keep up with the mass of correspondence that will be iorwarded to them from Washington. Each secretary will take his own private secretary with him and besides there will be at least four stenographers and a couple of messengers and possibly a lawyer from the Treasury department.

The currency law put \$100,000 at the disposal of the committee in reaching a determination of the boundary lines of reserve districts and in locating reacrve cities. By making use of a special car the committee expects to make the trip much more cheaply than if it were compelled to use the ordinary means o travel. Moreover, the secretaries want to have at their disposal an "office" where they can realize and avoid per sistent boosters, urging the claims of their cities for reserve banks. The plan contemplates the keeping of the records of the public hearings in the twelve cities up to the minute. When Washington is reached on the return trip it is hoped the records will be in such shape that all the testimony can be laid before the federal reserve board at once, if that body has been organized by the president. The reserve board has the power to review the decision of the organizat'on committee and it is desired all facts influencing the committee to its decisions be available when the district lines and cities are announced.

The committee begins its work Monday with hearings in New York

# City Mission to Get \$3,603 from the Charity Ball

Treasurer W. H. Bucholz of the general arrangements committee, which had charge of the charity ball, gave out figures this afternoon to show the approximate profits cleared by the affair for the City mission. As all sales of tickets have not been reported, the recelpts in the financial statement which follows may be somewhat increased beore the end of the week: RECEIPTS. ...\$3.900 Total admissions ..... \$4,073 proximate total receipts
