

PROTESTS ARE OVERRULED

Sawyer's Request to Refuse Licenses Passed Up by Council.

TURN DOWN LEISY COMPANY

Also Refuse to Grant License for Saloon on Which Protest is Made by Calvary Baptist Church.

Protests of E. C. Sawyer against the granting of seven saloon licenses were overruled by the city commission and the licenses ordered issued. Mr. Sawyer is represented by C. J. Benjamin, an attorney, whose father, also an attorney, represents the Leisy Brewing company here, a corporation which it was alleged, sought to oust saloonists which did not sell Leisy made beer.

Immediately after ordering that the protested licenses be issued, the council refused to grant a license to the Leisy Brewing company to sell at wholesale at 212 1/2 South Twelfth street, and the license money put up by the brewing company was ordered refunded.

A license was refused to Albert F. Ohman, 1402 North Twenty-fourth street, against whose application the Calvary Baptist church, through Attorney Elmer Thomas, had protested. The councilman said Ohman offered no proof to show that he would conduct the saloon himself.

Mrs. Mary Norton notified the commission that she would hold the city liable for a broken leg she suffered December 24, when she fell in a hole in the pavement. The communication was referred to the legal department.

A communication from Muriel Davis, asking the council to co-operate with her in her effort to standardize dances in New York and other cities, was placed on file.

Stock and Wheat Are Wintering Well All Over the State

In from his ranch in Perkins county, Nebraska, George W. Holdrege, general manager of the Burlington, finds that the stock in this state is wintering well and that the expense of carrying cattle through is likely to be down to the minimum.

His own experience justifies the assertion made by Mr. Holdrege. He explains that owing to the warm and open winter, cattle men have been compelled to feed but little, except to animals being finished off for the market. Almost everywhere through the state the ground has been bare of snow and the weather generally having been warm, cattle have grazed almost every day without having been sheltered and fed inside the enclosures.

In his trip across Nebraska, Mr. Holdrege closely observed the condition of the winter wheat and found that, generally without exception, that it was never better. The late rains last fall put the ground in the best of condition for the growth of the plant and these followed by the week, or more of rain during December, set the earth far below the roots of the grain, so there is no danger whatever of the soil drying out and being blown off later in the season.

Mr. Holdrege takes an optimistic view of the whole situation and sees no reason why the coming year should not be one of the best that Nebraskans have ever experienced. He looks for a revival of business in all lines within a short time, with a probability of it continuing without interruption during the spring and summer.

CAFES PREPARE FOR TANGO PARTY DANCES

Informal dancing by small parties after the theater performance has become so popular since started at the Henshaw night of the charity ball that Manager Joe Keenan is now making arrangements for regular cabaret entertainment and dancing between the tables in the main cafe of the hotel. He plans to vary the nature of the entertainment at frequent intervals and allow the tango dancers to dance to their hearts' content. The cafe will remain open as late as the public desires, he says, and the music and entertainment will be arranged especially for those who wish to enjoy the tango dances.

The Quickest, Simplest Cough Remedy. Easily and Cheaply Made at Home. Saves You \$2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50. Simple as it is, it gives almost instant relief and usually conquers an ordinary cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membrane takes an most valuable concentrated compound of Norway white pine extract, and is rich in gualic acid and other natural healing elements. Other preparations will not work in this combination.

The prompt results from this mixture have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

THROW YOUR THROAT AWAY! RUPTURE. Made strong and well in a few days—without a surgical operation or loss of time. One week is guaranteed. Call or write for particulars. Drs. Wray & Mathews, 101 So. 10th.

Police Arrest Trio Guilty of Robbery Before Reported

Before the police knew that the Nicolli tailoring establishment at 211 South Fifteenth street had been broken into and looted by burglars, all of the stolen stuff had been recovered and three negro men were in jail. Afterwards they confessed their guilt and told the police where they got the stuff.

Officers Heil and Emery met four suspicious looking negroes at Ninth and Dodge streets at 1:28 Tuesday morning and took them to headquarters. They suspected them of complicity in another job and after the quartette was locked up they searched their rooms at the "Arcade" Eighth street and Capitol avenue and found over \$100 worth of clothing, most of it new. They then returned with the stuff to headquarters and after questioning the prisoners learned that the Nicolli place had been broken into. Several of the suits of clothes recovered belonged to Jack Haskell, Western league umpire. He sent his clothes there for repairs only yesterday.

Two negroes attempted to hold up O. Moltz, keeper of a small store at 121 North Twelfth street, early in the evening, but were frightened away. The police are trying to connect the three negroes now under arrest with the Moltz job. The negroes gave the following names: Fay Young, Willie Carter and Roy Rogerson. All were armed when arrested.

Grain Now Moving South from Omaha

Considerable grain has begun to move south for future export, but the quantity is nothing what it was last year, and, in the opinion of both railroad and grain men, the movement will not be as heavy as last year, due to the fact that this year there is no prospect of a reduction in the rate, that continues to be kept at 1 1/2 cents per 100 pounds to New Orleans for ocean-going shipments.

Last year the Missouri Pacific cut the rate to cents to New Orleans on grain for export, and as a result, during January, 1913, this road hauled close to 5,000 cars of wheat out of Omaha. The rate was protested and went back to 1 1/2, the original charge.

When the change was made in the rate of grain for export, there was also an advance in the domestic rate on grain going south. It was put up from 18 to 21 cents to New Orleans, where it still remains and, notwithstanding the advance, large quantities of both wheat and corn has continued to move south. This rate carries a milling-in-transit privilege, and as a result, much of it goes to St. Louis and other southern cities, where it is ground and then reshipped to New Orleans, where it is distributed to the plantations and smaller cities tributary.

The rate to Chicago continues the same as last year, 12 cents per 100 pounds on wheat and 11 cents on corn, and, regardless of the differential, the heavy movement of both kinds of grain continues to seek southern outlet from this market.

Thinks Persons Who Passed Bogus Bills Have Left the City

Owing to the fact that a local paper wrongly described the counterfeit \$10 bills which were discovered in several Omaha banks last week, Hugh Mills, United States treasury agent, has found the counterfeit bills of the bogus currency a difficult matter. The bill was described as an imitation of the Montreal counterfeit, when it does not resemble that fraud. The number of the plate on the counterfeit discovered in Omaha is C 186, while the orange and yellow ink on the certificate is more of a lemon color than on the original. Likewise, the photograph reproduced on the bill is more imperfect on the counterfeit than on the original. It is the opinion of federal authorities here that the person or persons who circulated the notes here stayed in the city but a few hours. It is believed that not more than twenty of the spurious certificates will be discovered here. Already more than a dozen of these \$10 bills are in the possession of the federal authorities.

Abandon Plans to Change City Jail

Plans to convert the old city jail into a municipal lodging and workhouse and use the new jail, located east of the old structure, for jail purposes exclusively, have been abandoned by Police Commissioner J. J. Ryder until his department has more money at its disposal.

Commissioner Ryder has also abandoned his plans to increase the police force. He said he preferred to keep his present force on throughout the year, rather than increase it, run short of funds and be again compelled to lay off the men for a month or so.

Believing that he can reduce expenses by so doing he will install a Bertillon photographic department at the police station. The photographs now made are costing too much, he says.

Commissioner Ryder has decided to issue a daily bulletin as soon as possible for distribution among police officers, advising them of developments in the department, describing criminals who are loose in the city and devoting some space to a discussion of efficient police work.

Y. M. C. A. TO START A BIG MEMBERSHIP CAMPAIGN. Plans for a prolonged and systematic campaign to secure almost 700 new members for the Young Men's Christian association are being laid by the directors and secretaries of the association and the present membership is slightly more than 2,300. It is the wish of the association men to raise this to 3,000. E. A. Wilcox is chairman of the membership committee of the board of directors and at the head of the proposed campaign. A. E. Eaton is membership secretary and will be the office executive in the big canvass for new members.

ASKS INCINERATOR MONEY

Ryder Requests \$100,000 Issue of Bonds to Build Plants.

PRESENT SYSTEM IS NO GOOD

Disposal of Garbage is Now an Expense to Both the Officials and the Citizens of the City Generally.

Police Commissioner J. J. Ryder has asked the city legal department to immediately prepare an ordinance calling an election to vote \$100,000 for the construction of two incinerator plants for the disposal of city garbage. If the council cannot agree to call a special election the proposition will be submitted at the home rule charter, or some other election.

"If we had the money we would begin work immediately on these plants and would have them ready by fall," said Commissioner Ryder. "It is generally admitted that the city needs incinerator plants perhaps more than anything else right now."

Settlers Are Slow to Seek Lands in Some Other States

The anticipated rush to California and Florida that railroad passenger men predict would set in immediately after the first of the year has not materialized, at least that is what these same railroad men say. What is more, most of them are of the opinion that it is not coming this year.

Railroad officials who have to do with boosting new locations in the west and south, say that this year there seems to be less inclination than ever before to get out of Nebraska. They go upon the theory that among the wealthy there will be the usual number of people going west and south during this month and next, but there will be a less number of people so to locate than ever before. They add that the emigration to Canada and the British northwest is practically a thing of the past and that there is little call for tickets in that direction. In fact, the movement is the lightest in years and no prospect of it increasing.

As to the western and southern movements, railroad passenger men state that Nebraskans note that here land has increased \$15 to \$25 per acre within the last six months and that in California or Florida there is nothing that is a better or more sure investment. They admit that in this state there are still large areas of cheap land, that if bought at present prices will double in value within the next three to five years and that there is no place that offers anything more attractive for man with limited means, especially the one imbued with the back to the land idea.

Many Bids for City Supplies Are Tie

Bids for \$200,000 worth of city supplies, referred to Dan R. Butler, city commissioner of finances and accounts, are being held up by a string of extraordinary tie bids. Nearly all of the low bidders on lumber, coal, stationery and asphalt submitted exactly the same figures.

"All of the bids are low," said Commissioner Butler. "We will be able to purchase supplies at an unusually reasonable figure. Bids on coal are especially low."

Commissioner Butler has called in the tie bidders and lots will be cast, the winner to be awarded the contract. In instances the bids vary but the smallest fraction of a cent on several thousand dollars' worth of supplies. The asphalt bids are very low.

As soon as the tie bids are settled the commissioner of finances will submit tabulated bids to the council for approval and contracts will be let.

B'NAI B'RITH AUXILIARY TO INSTALL NEW OFFICERS

A meeting of the entire house committee of the McKinley lodge and auxiliary of the B'nai B'rith was held Monday evening at the Russian synagogue. The committee subdivided into committees on house, dancing party to celebrate the opening of the club rooms, solicit donations and rules and regulations. An announcement of the location of the rooms upon which the committee are centering their activities will follow in the course of a day or two.

The installation of the new officers of the two organizations will take place Wednesday evening at Baright hall. Refreshments and a general social hour will follow.

THROAT Troubles ARE Dangerous because the swollen glands and inflamed membranes often affect other tissues and impair their healthy action. Scott's Emulsion stands alone as nature's corrector of throat troubles; its cod liver oil is speedily converted into germ-resisting tissue—the glycine is curative and healing, while the combined emulsion up-buils the forces to avert the weakening influence which always follows throat troubles.

SPECIALS FOR WEDNESDAY & THURSDAY in Our First Annual Clearance Sale. SPORT COATS. We have them in all colors and all sizes, in the newest materials and shades. The styles are the very latest and the workmanship the best. Regular \$19.00 and \$12.00 values; special for Wednesday and Thursday at \$3.33. \$15 to \$20 COATS, Now \$7.77. MAIL ORDERS FILLED PROMPTLY. NATIONAL SUIT & CO. 319 S. SIXTEENTH STREET.

E. E. Emmett to Be Cashier of the Corn Exchange National

E. E. Emmett of Arapahoe, Neb., will enter upon the duties of cashier of the Corn Exchange National bank of this city on February 1, a position that has been filled since the bank was converted from a state to a national. Mr. Emmett is moving his family here and will make Omaha his home.

Youngster Missing Since New Year's is Found by Policeman

Clarence Young, 10-year-old son of Mr. and Mrs. Charles H. Young, 523 South Twenty-fourth avenue, who has been missing from his home since New Year's day, was found by Officer Turner in a vacant house on the northeast corner of Eighteenth and Dodge streets. The boy would give no reason except "just for fun" as an excuse for running away. However, he eagerly led the officer to a closet where a quantity of jewelry had been piled and which the police believe to have been cached there by Norman Taylor, although the latter denies it. The young boy was taken home by his father, who was in the neighborhood of \$125 and was made up of diamond chips and material for making scarf pins.

ROCK ISLAND UNITES TWO LARGE DEPARTMENTS

Following out the plan of retrenchment outlined by Chairman Schumaker of the executive committee, and President Mudge, the Rock Island has concentrated the tariff department of the road under one general head, thus saving the salary of one high priced official.

John Sebastian, for many years third vice president of the road, in charge of passenger traffic, retired January 1 and instead of electing a successor, J. E. Gorman, first vice president in charge of freight traffic, has been placed at the head of the two departments. The office is continued in Chicago.

SOUVENIR COAL

Each week a valuable souvenir with each ton of coal. This week a Coal Hod, free. Next week something else. Several hundred towns in surrounding states are using our coals on account of their superiority and price. Blue Flamed Excello. \$8.50. The nearest to anthracite. Olympic Lump, Egg or Nut—for \$6.50.
