"TALKS ON NEWSPAPER ADVERTISING"

By TRUMAN A. DEWEESE, (Box 82, Buffalo, N. Y.) think of it in that light, but you will agree that if the Street Railway Company had no service to sell you wouldn't have a job as a street car conductor. And after you got far enough along in your job to regard yourself as a "street car conductor." When you finally recognize yourself as a salesman of service you will find yourself helping old ladies and babies on and off the car, and doing other acts of courtesy that you never regarded as belonging to the work of being a street car conductor.

Nick and Pat went to visit their sister, Mrs. Thomas O'Connor, several doors distant, but instead of entering the house through the door, they chose a window. When found by the police one of them was sound asleep and the fumes of alcohol were strong about the place.

Mrs. Martha Sieratowski, 116 Miller street, whose case on the charge of concealing property stolen from railroad freight cars, has been pending since December 24, was freed by Police Judge Foster yesterday. What Is It? The usual cup of coffee contains about 2 1/2 grains of caffeine, a drug which often produces aches, ails and discomfort, but the habit can be quickly overcome by using well-made Postum. One of the most pleasing features of this change from coffee to Postum is the total absence of a sense of something missed. But more important is that "good all over" feeling of returning health; and it's the finest trade possible to quit coffee and get well. Postum, made of prime wheat and a small per cent of New Orleans molasses, is a pure food-drink. It is wholesome and nourishing; and has a delicious, snappy flavour resembling that of Old Gov't Java, but is entirely free from the coffee drug, caffeine. Anyone can make a stand for the old fashioned fun that comes with health and the power to "do things." Suppose you try it! "There's a Reason for POSTUM" Postum now comes in two forms: Regular Postum—must be boiled 15 to 20 minutes. Instant Postum—is a soluble powder. A scant teaspoonful stirred in a cup of hot water dissolves instantly. The convenience of Instant Postum is apparent. But, when prepared according to directions, both kinds are exactly the same. The cost per cup is about equal. —Grocers everywhere sell both kinds.
