

NEW CAR LINES ORDERED

Directors of Street Railway Company Lay Out Work for Year.

WILL SPEND ABOUT \$400,000

Consider Fourteen Petitions for New Lines from Thousands of Citizens—Some Are Called Impracticable.

Improvements and extensions of street car lines in Omaha to cost approximately \$400,000 have just been ordered by the board of directors in special meeting held Monday. Fourteen petitions signed by several thousand citizens, asking for extensions of the car lines in all parts of the city, were considered. The aggregate of petitions ask for some twenty-nine and one-half miles of single track.

One of the extensions the board of directors has ordered to be built in the spring is a line to the southwest part of the city, which the company expected to build last year. The construction of the line last year was prevented by the controversy over its exact location and the impossibility of crossing Saddle creek on the bridge that now spans that stream. If necessary, the street railway company says it will now construct its own bridge across the creek and build the line with as little delay as possible.

South Omaha Line.
Another line is to be constructed on L street in South Omaha from the present western terminus of that line to Forty-fourth street.

Another to be extended is the Thirty-third and Harney street line from its present terminus on Thirty-third and Parker street north and west toward Fontenelle park. This line will not be completed the whole distance during the present year, but half of it will probably be built this year. The exact route of the line reaching to Fontenelle park has not as yet been determined, as it will depend upon which route will offer the least obstacles in the way of hills.

Other lines petitioned for will be investigated for future action by the board of directors.

To Build New Cars.
The company expects during the present year to complete twenty-five new double-truck cars now under construction in the company's shops, with which the small cars now in operation on the Dodge street line are to be replaced. When this is done all the cars on the system will be of the large uniform type now in use on other lines.

The usual amount of reconstruction of tracks, made necessary by the repaving of streets, is to be done, and in addition considerable old track is to be relaid. Much welding of the joints of tracks is to be done, and many iron poles are to be replaced with wood ones. A crosscutting plant for the treating of the steel is to be constructed. Some work is also to be done on the Council Bluffs line in addition to the above.

One of the extensions asked for in the petitions placed with the car company by Omaha residents is of one mile of the Harney line from Lincoln avenue to Gibson.

Many Extensions Asked.
Another is an extension south from the present terminus of the Tenth street line to Dominion street. At present the line stops at Riverview park.

Another asks that the Sixteenth street line be extended south from Vinton street three-fourths of a mile to the city limits.

Another asks that the Thirty-second street line be extended 1 1/2 miles to L street in South Omaha.

Another asks that the East Side Harney street line be turned west on Martha street and be extended to Forty-fourth street, then south to South Omaha, a total extension of three miles. It asks that the line run from Thirty-fifth to Forty-fourth on L street in South Omaha.

Another asks that a branch run from the West Side Harney street line west on Center to River's park, a distance of two miles.

Decide on This Line.
Another asks that a line be run south on Forty-eighth street from Leavenworth to Poppleton, then west to Fifty-first street, south on Fifty-first to Center, then west to River's park. This is one of the lines the company has decided to build.

Another asks that the Cumming street line be extended from Forty-sixth to Hamilton, then west to Forty-eighth street.

Two extensions are asked for in Benson, one north from Military avenue to the Catholic church, one-half mile, and the other south a half mile from the center of the town.

The board announces that some of the lines petitioned for are over routes that

Quit Meat When Kidneys Bother

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes, and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

RENT AND HEALTH TO MOTHER AND CHILD.

Mrs. Winkler's Suffering Baby has been cured for SIXTY DAYS by KIDNEY PILLS. The mother was suffering from a severe case of kidney trouble, and the child was suffering from the same. The mother was advised to take KIDNEY PILLS, and the child was advised to take KIDNEY PILLS. The mother was cured in sixty days, and the child was cured in sixty days.

Mrs. Harry Hayward Kills Herself by Gas in Her Bathroom

Mrs. H. V. Hayward, 3122 Woolworth avenue, died Monday about an hour after she had taken from the bathroom of her home almost overcome from gas asphyxiation.

The attention of the two maids in the house was aroused when their mistress stayed an unusually long time and did not come down for breakfast, and after telephoning a neighbor, Mrs. A. Gilman, 1724 South Thirty-second street, they called up Mr. Hayward. Before he arrived, however, Mrs. Gilman had broken in the bath room door with an axe and Dr. H. A. Waggoner had been summoned. He in turn called the police surgeons, who responded with the pulmotor and made every effort to rekindle the spark of life left, but to no avail.

Mrs. Hayward, who was 34 years old, has been in ill health for two years and was not feeling very well when she arose. It is presumed that when she reached up to turn on the gas and light that she suffered a fainting spell and keeled over and was overcome while prostrate upon the floor of the room.

Besides the husband, Harry V. Hayward, secretary of the Willow Springs Sewing company, she is survived by a 13-year-old son, Walter, who attends St. John's Parochial school, and who did not know anything of his mother's condition until all effort to revive her had failed.

Burgess-Nash Co. Sale Attracts Big Crowd on First Day

Crowds of shoppers thronged the Burgess-Nash store all day Monday and liberally patronized the reorganization sales incident to the change in ownership from Orkin Brothers to the new firm, Burgess-Nash company.

Employees who have been with the store for years remarked that Monday's crowd was the largest ever in the building. A notable feature of the connection with the record attendance at the store was that the thousands of visitors were not "just shopping," but carried many bundles of merchandise home with them.

Mr. Nash, general manager of the firm, said that the first day of the big sale had been a pleasant surprise to him. He continued:

"The crowds of purchasers have far exceeded our expectations. We are very much delighted and gratified and wish to express our sincere appreciation of the public's generous response to our efforts on behalf of honest merchandising and up-to-date methods.

"We regret that we were forced to open our reorganization sale before our service was completely perfected. It will be made soon, however. Our selling force is being reorganized and we are increasing our facilities as fast as possible."

Father J. W. Stenson Bitten by Mongrel; Head Sent Away

While on his way to visit the home of a parishioner near Third and Poppleton, where a child was seriously ill, Father J. W. Stenson was bitten by a mongrel dog belonging to Anton Ryehley, 13 Poppleton avenue, last Wednesday afternoon. Father Stenson completed his visit and upon returning to his home, 1324 South Nineteenth street, sent for Dr. Dwyer, who dressed the wound. The health department was notified and J. S. Coffey sent out to shoot the dog.

The owner and his family of several small children pleaded for the pet's life. Ryehley begged to be shot instead of the brute. Coffey finally took the brute along, agreeing to keep it for several days and watch for any sign of rabies. The dog was led behind police headquarters and executed Sunday. The head was cut off and sent to the Pasteur institute.

COUNCIL DELAYS FIXING DATE FOR CITY ELECTION

Ordinances calling a special election for a day to be held in the month of March at which the home rule charter will be submitted, as well as the propositions of voting \$100,000 incinerator bonds and \$225,000 Auditorium purchase bonds were laid over for a week by the city council in committee of the whole. The commissioners intend to submit these three propositions at the next election. The issuance of \$100,000 sewer bonds and an equal amount of incinerator bonds was authorized. These bonds need not be submitted to the people for a vote of approval.

SMITH GETS SIXTY DAYS FOR ABUSING HIS WIFE

James Smith, 84 North Fourteenth street, was sentenced to sixty days in jail for beating and abusing his wife. Mrs. Smith declared that her husband had not worked since last September, and that she had been forced by him to beg on the streets. With two small children accompanying her Mrs. Smith informed the court that she was in a delicate condition, and Saturday refused to let her any longer. The husband then attacked and beat her. On Christmas day they were put out of their home because the rent had not been paid.

LIVE STOCK MEN GO TO THE BIG DENVER SHOW

D. D. Cutler, general live stock agent for the Northwestern, is stopping in Omaha on his way from the Chicago headquarters to the big live stock show in Denver. A special car of live stock men of the various railroads and South Omaha dealers left for Denver yesterday.

A Difference in Working Hours.
A man's working day is 8 hours. His body organs must work perfectly 24 hours to keep him fit for 8 hours' work. Weak, sore, inactive kidneys cannot do it. They must be sound and healthily active all the time. Foley Kidney Pills will make them sound and well. You cannot take them into your system without good results following their use. They are tonic in action, quick in results, and contain no habit forming drugs. Try them. For sale by all dealers everywhere.—Advertisement.

Former Nebraskan Develops Big Model Plant at Niagara

A conference was held last week at a factory at Niagara Falls, which has a peculiar interest for Nebraskans.

The Buffalo Express, in telling about it, says: "The factory at the falls is the concrete realization of a 'dreamer' who built, better than he knew. It is visited annually by over 100,000 travelers from all parts of the world. It is also literally true that this company has belted the globe with Shredded Wheat biscuits, for there is no country where civilized human beings live where the product may not be found. While breakfast foods have come and gone, Shredded Wheat has survived the ups and downs of public fancy and is now recognized as a staple product, showing a steady increase in sales from year to year, no matter what conditions may exist in the industrial and business world. The success of this business is generally attributed to wise, conservative business management and intelligent educational advertising, combined with a product that meets all the highest standards of cleanliness, purity and nutritive value in food manufacture."

The "dreamer" referred to above was a former Nebraskan, and the factory referred to that of the Shredded Wheat company, founded by Mr. Perkins, who formerly lived at Wahoo, and was a well known lawyer and at one time senator, representing Douglas, Sary and Saunders counties in the Nebraska legislature. He is not only the inventor of the food product of world-wide fame, but the first man in this country to develop a model manufacturing plant—a model in cleanliness, health and comfort for its employees, as well as a model in efficiency.

Bossie Has Tags for Clean Milk Campaign

Dairy Inspector Claude F. Bossie has instituted a novel educational campaign for a better grade of milk. He has had several thousand illustrated labels printed and these will be pasted on milk bottles and milk cans. One of the tags reads: "Only clean, healthy cows can produce clean milk. Feed cows wholesome food. Keep barns well lighted and ventilated. Thoroughly clean and scald utensils

Mayor Dahlman Has Ordered Release of Many Prisoners

Mayor Dahlman has issued orders for the release of fifteen prisoners who were serving time at the city jail for various minor offenses. The mayor says that he probably will pardon fifteen more in the near future. This will include all of the list of forty presented to the mayor by Dean J. A. Tancock of Trinity cathedral.

Dean Tancock called on Mayor Dahlman with his list and made a plea that these men, serving time for minor offenses in the city jail be released because of the unsanitary conditions at the jail.

TWO OMAHA NAVY MEN GIVEN GOOD PROMOTIONS

During the last week, two men formerly connected with the naval recruiting station have been advanced in rank to warrant officers. Edward L. Benson, an Omaha boy who graduated from the high school here, and for some time has been in charge of the naval recruiting station at Twelfth and Farnam streets, has been made a warrant officer. His appointment is effective January 16 and carries with it besides the higher rank and the more responsible duties a substantial raise in salary. Mr. Benson has been ordered to the receiving ship at Mare Island, Cal.

Last week A. L. Hecykell, formerly at the station here, was appointed warrant officer, which also makes him a warrant officer and carries with it a substantial increase in pay.

Kidney and Liver Troubles quickly relieved by Dr. Williams' Pink Pills. Best remedy for indigestion, dyspepsia, heart burn and most kidney troubles. 50c and \$1. All druggists.—Advertisement.
