

KUGEL TO ENFORCE THE LAW

New Police Commissioner Says He Will See They Are Carried Out.

DOES NOT GO INTO DETAILS

County Attorney Visits Kugel and Pledges His Support in Carrying Out Provisions of the Albert Law.

County Attorney George A. Magney, who, under the law, is vested with power to enforce the Albert law against the use of property for immoral purposes, visited City Commissioner A. C. Kugel, who goes to the head of the police department February 1, and pledged the new police superintendent his support in enforcing the Albert as well as other laws.

Before Police Commissioner J. J. Ryder retires from the superintendency of police he placed the names of nearly 100 places violating the Albert law in the hands of the county attorney, with sufficient evidence, he believed, to secure convictions.

County Attorney Magney did not explain to the new police commissioner the reason why this evidence has been pieced together and forgotten.

Police Commissioner Kugel has announced that he will go to any extent to enforce literally all laws which the police department is charged with enforcing. He has received letters from many citizens wishing him success and pledging him their support.

"In the face of conditions," said Kugel, "there is but one thing to do—enforce the law. And that's what I will do."

Commissioner Kugel did not go into detail as to his plans, preferring to allow his actions to speak for him. The only thing he has said for publication is that the laws will be enforced literally and as long as he is in charge of the police department.

Thieves Return Victim His Watch; Present from Mother

Dressed in plain clothes and armed with a Winchester rifle, Officer George Emery spent a good portion of Wednesday night in search of four bandits who held up and robbed F. B. Higgins, 644 South Thirtieth street, as he was entering his home early in the evening. Emery, unaccompanied, drove a machine during his search.

Higgins, who is with the W. F. Shelton Land company, had been visiting a neighbor, when upon returning to his house, he was just entering the gate when four men appeared from the shadows with the order to throw up his hands. Higgins thought at first it was some friend trying to joke with him, but upon remembering recent tragic events he complied with the bandits' request. Several dollars in change was taken by the thieves, who left Higgins his watch when he informed them that it had been a present to him from his mother. Six cigars were taken from his pockets and distributed before his eyes amongst the quartet. A bunch of keys which were also included in the haul were found in the yard of a neighbor.

If Backachy or Kidneys Bother

Eat less meat also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; make a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Advertisement.

TO HAVE JOINT STYLE SHOW

Associated Retailers Plan to Use the Same Date.

TALK OF COLLECTION BUREAU

Committee on Credits and Collections to Report on Such a Scheme at Meeting to Be Held Monday.

The next problem which will be settled by the Associated Retailers of Omaha is whether or not they will establish a collection bureau in connection with their credit rating department, which has been in operation for several months. A meeting of the officers and directors of the organization will be held Monday, at which time the committee on credits and collections will make its report and the matter will be definitely settled. Many of the members of the association, it is understood, will oppose the movement to establish a credit bureau in connection with the association.

Members of the organization are active in making preparations for their first annual style show. The association brought about the agreement to make the style shows at all of the stores of members occur on the same date. The show this year will be held during the week of March 23-25. Already many firms have sent representatives to New York and other eastern cities to gain new ideas for their exhibitions this spring.

"If the joint style show here is the success we anticipate, it is possible that South Omaha and Council Bluffs will be asked to set their style shows for the same date as ours, so that the tri-cities may make one monster showing of new fall and spring goods here," said James Metcalfe, secretary of the Associated Retailers. "St. Paul and Minneapolis have a joint style and fashion show, and I see no reason why the same plan cannot be pursued here."

I. K. Pond Talks to Omaha Business Men on City Beautiful

"No history is better than the people of whom that history is written," said Irving K. Pond, Chicago architect, in his address to the Commercial club at noon when speaking along the lines of city planning. His subject was "The Architect's Relation to the Community."

He made his address a city planning talk, and declared that if the city in general does not make a good, artistic appearance the people of the community have no one to blame but themselves. The city's appearance from an artistic or inartistic standpoint, he said, "is simply a reflection of ourselves. If we have been negligent in laying out our general city plan, we see ourselves, as it were, only in a cold plate glass mirror."
