Foreign Notes Charles K. Moser of Virginia, the American consul at Colombo, Ceylon, has been awarded \$5,000 damages in a suit brought by him against Mrs. Virginia Graham, an American visitor to Ceylon, for defamation of character. An authoritative denial was given in London yesterday of the report published in the United States that Chancellor David Lloyd-George was shortly going to America on a visit. It was explained that the chancellor has long desired to go to the United States, but that there was no chance of his making the trip as long as he remained a member of the British cabinet.

WASHINGTON, Jan. 27.—(Special Telegram)—While the friends of Colonel George W. Goethals have been greatly surprised at his determination to leave the Panama canal and accept a position outside the army, they are happily assured through communications received today from the canal zone that the colonel will not even think of leaving his position until 1915, or, until at least, the new administration as provided in the so-called Adamson act, is inaugurated.

Secretary Bryan discussed the administration's attitude toward foreign commerce as reflected by the tariff and currency reform measures, and its policies toward private monopoly and the Chinese loan question. Prior to his departure for Washington at midnight, Secretary Bryan was asked for a statement concerning the proffer of Mayor Mitchell of the police commissioner of New York City to Colonel George W. Goethals, chief engineer of the Panama canal.

WASHINGTON, Jan. 27.—The Kenyon so-called red light bill, already passed by the senate and proposing to eliminate the segregated district in the capital by injunction, was passed by the house today without amendment or opposition. We hope to do away with the temptations continually in the way of both men and women."

Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Advertisement.

Thomas D. Fry of Omaha has written Senator Hitchcock a strong protest on the part of officers of building and loan associations against legislation that will prohibit directors in such associations from serving as directors of national banks.
