GRAIN AND PRODUCE MARKET

Outlook for Wheat is Somewhat Brighter with Traders.

"JIM" PATTEN IS A CORN BULL Pit Celebrity Switches for Second Time During the Year and Londs Up on May Deliv-

ery of Yellow Cereal.

OMAHA, Jan. 28, 1914.

There was a small lot of wheat taken in this market yesterday for direct export. It was said late in the day that this was other than the No. 2 hard, winter. the only kind foreigners have purchosed in some time, save the grain taken in Canada and other parts of the world. While it was not generally known that sales were made here, those who were cognizant of the fact were on the buying side inte, and this was the principal cause of the reaction and advance of '½c from the lower levels of the morning. Minneapolis millers were reported as buying of wheat futures yesterday, which was believed to reflect an improved trade in flour. One of the best authorities of the northwest after the close in an estimate placed northwestern country elevator stocks at 21,000,000 bu., against 30,000,000 bu. In the previous catimates.

"Jim" Patten and his following are

timates.

'Jim' Fatten and his following are cecided bulls on corn. It will be remembered by those who follow market conditions closely that Fatten was a bear a short time ago, and it will be something of a surprise to know that he switched to the bull side for the second time during the year. He covered his short contracts and is now believed to have a good sized long line. It was his intention to leave for California isst Saturday right, but he put off his departure until last night and during the meantime he was a heavy purchaser of May corn. It was reported yesterday that eight loads of American corn were sold to Bellast, but this was believed May corn. It was reported yesterday that eight loads of American corn were sold to Beliast, but this was believed to be white forn for milling purposes. McKenna & Rodgers received a message from Boston late yesterday reporting the sale of 34,000 bushels new crop ocrn at 64%c via New York, May shipment. There were reports Monday of drouth in some sections of Argentine, but the Armour Grain company received a cable yesterday saying that rains were general throughout the corn belt.

Oats were fractionally better for the day. Only 145 cars were received here yesterday and only 57,000 bushels were reported at primary markets.

The provision market was lower, with some selling late on the government report on hogs, which was more bearish than looked for.

Cash wheat was 15c higher.

Cash corn was unchanged to ic higher. Clearances: Wheat and flour equal to 195,000 bushels; corn, 2,000 bushels; oats, 2,000 bushels.

Liverpool close: Wheat, 4d to 14d higher.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Jan. 28.—Fear that a predicted cold wave might bring disaster to the winter crop nai a good deal to do today with a bulge in the price of wheat. The market closed nervous at an advance of he net. Corn showed a gain of hards to 1½c and oats a rise of he to 1½c and oats a rise of he to 1½c and oats a rise of he to 1½c he and oats a rise of he to 1½c he and oats a rise of he to 1½c he hards from 2½c decline to an upturn of 10c.

Wheat displayed firmness from the start. Inadequacy of snow protection over autumn sown fields made the chance of a hard freeze a serious menace. Heretofore this season the temperature has not at any time been frigid enough to affect more than the surface of the soil. As a result great tracts, especially in Missouri, Kansas and Oklahoma, are said to be muddy or soaking in water and threatened with severe damage according to the degree of a sudden chill. European asknowledgment that supplies were becoming inadequate tended further to sit the harms. Prices on Board of Trade.

Case Here is a good quarier to trade for eastern Neb. land; located 9 miles southeast Villisea, Taylor Co., Ia.; smooth, all can be farmed; new improvements; 66 acres cultivated. Interatence with severe damage according to that supplies were becoming inadequate tended to surther that supplies were becoming inadequate tended to sell the bull side in wheat. Export bids at Baltimore came near to a working basis. Attention was also given working basis. Attention was also given to the scantiness of receipts and to assertions that country mills have contracts for 75 per cent of the spring crop left in elevators northwest.

Corn went sharply higher, influenced by the prospect of a decided enlargement of the feeding demand and by talk of locust damage in Argentina. Country of feerings were generally small and there were reports of additional bids for occan with other strain. The buying was chiefly on the part of belated shorts.

Temporarily the provision market suffered from a begrish construction placed on the government live stock figures and because of a break in the price of hoga.

The property unloaded, however, found its way into strong hands. A decided

NEW YORK STOCK MARKET

Travels Over Much of Same Ground as Day Before.

FLUCTUATIONS ARE IRREGULAR First Tendency Downward, After Which Market Rines Above Close of Preceding Session-

NEW YORK, Jan. 28—In the absence of new influences to give direction to speculative effort the stock market loday traveled over much the same ground as in the preceding session. Fluctuations were livegular, rising and falling in a purposeless way. The first tendency was downward, after which the market rose above yesterday's close. The upturn lacked stability, however.

Speculators were uncertain which way to turn. It was the general opinion that a reaction was to be looked for before resumption of the advance could be expected, but the strong demand on recent downward swings made the shorts fearful of offering stocks freely.

Reading held first place in the market on account of vigorous buying, which for a time held the stock well dver the general level. Exceptional weakness prevailed in the Rock Island stocks and bonds, leading to discussion of financial problems, which the company may be called upon to solve. The tobacco stocks as a group were strong. Reports of improvement in the copper trade gave a better tone to the copper stocks, after a drop earlier in the day. Sales of the metal were made at 14% cents.

London reversed its attitude in this market tone to the copper stocks after a drop earlier in the day. Sales of the metal were made at 14% cents.

London reversed its attitude in this market would at a result of the stock purchased here yesterday for foreign account.

There was a further easing of money rates and for the first time in months commercial paper was placed under 4 per cent.

The recent upward movement in bonds

thing in the way of desirable stockers and feeders had been disposed of at an early hour.

There were more cows and helfers than usual on a Wednesday and as prices at this point have been high compared with other markets buyers were again very bearish in their views. They started out bidding 10g15c lower and in many cases worse than that. Sellers naturally fought hard against taking off so much, which made the market very dull and siew. In the end most of the gows sold loc lower, and in many cases is lower. This would mean that cows and helfers outside of the best helfers are around 15g25c lower than the first of the week.

Quotations on cattle: Good to choice than the first of the week.

steps of Omaha's trio of young foot-

pads, because three jobs which were

fraught with areat risk failed to net them even a single copper for their pains. L. E. Ellsworth, 218 North Twentythird street, was stopped at Twentyfourth and California streets and wasted some of the footpads' time, and later when they seized the purse which dangled from the arm of Mrs. T. P. Shirley, 3520 North Twenty-second street. as she was going home, they found nothing they could turn into money. Their next stunt was to steal the auto-

belonging to Mrs. Frank Hamilton, wife

of the president of the Omaha Gas com-

pany, and this they abandoned an hour

later near Rome Miller's place on the North boulevard. CASH LOW IN THE RHODE ISLAND STATE TREASURY

PROVIDENCE, Jan. 28.-Rhode Island has never experienced so great financial embarrassment as at present, Walter A. Read, state treasurer, asserted in his

report to the legislature today. The state, he said, began the year with less than \$400, available cash in the treasury and unless some means of increasing the revenue is found, the year will end with a deficit of \$46,430. The income for 1914 is estimated at less than \$2,000,000, whereas, in the treasurer's opinion, a dependable income of \$3,506,600
