NORTHWEST MISSOURL
CORN FARMS.
We can offer you more for the money in the way of good improved farm land than can be found in any other section of the United States. We grow to perfection corn, blue grass, wheat, oats, timothy and clover, and are unequalled as a stock raising country. We are located in close proximity to the best stock markets in the country, and late excellent railroad facinities for reaching these markets. We control the largest list of good farms of any land company operating in Missouri, Write what you want, and how much you have to invest, and we will submit you a proposition in line with your wishes.

destination. The trade is puzzled because of the continued small demand for the cash article, which should be improved with the colder weather.

There was some short covering in oats and they absorbed the offerings as rapidly as they were thrown into the pit. The strength in corn helped, it was reported that Canadian oats in bond at Toledo have received good bids from abroad.

The run of hogs in the west was larger

The run of hogs in the west was large Farmers Indiaposed About Delivering Last Year's Crop in Face
of the Small Cash

The run of hogs in the vector sharp advance will draw out a larger run. These factors helped depress provisions prices resterday. Packers led in the selling investore gave May and July ribs the

CHICAGO GRAIN AND PROVISIONS Atchison

Prices on Board of Trade.

CHICAGO, Feb. 7-Severe weather west held in check today short sellers of wheat, but the crop scare did not sufficiently develop to start a big buil market. After a modest advance prices closed easy at exactly last night's level. Corn showed a net loss of 43% to 56 in the course finished unchanged and provisions were down 2½ to 5½6c.

Show covering, whether heavy enough or not to prevent crop damage, was of adequate extent to halt any excited buying of wheat. Every time the market builsed commission houses would become free with orders to sell. On the other hand, the west sent no orders to buy and there was only a temporary effect from Antwerp cables estimating the Argentine exportable surplus at 60,000,000 bushels, the amallest total yet mentioned this senson. Features of the Trading and Closing

hushels, the amallest total yet mentioned this season.

Restraint on wheat bulls came partly from knowledge that in the last fortnight as much as 2,000,000 bushels of hard winter wheat has been bought for shipment from Kansas City and Nebraska to Chicago. Receipts here for the week were the largest for any corresponding time in more than five years.

Increased country offerings with prospects for bigger receipts led to a break in the corn market. Moreover, the cold weather had failed to bring about any decided revival of demand for feed and there were rains which favored the crop in Argentins.

there were rains which favored the crop in Argentina.

Oats were sustained by fear that the Texas yield would suffer harm from the temperature falling suddenly 65 degrees. Expected larger supplies of hogs next week made the provision market easy. Longs were more inclined to take profits than to give prices support.

Dun's Report of Bank Clearings for January Bank erchanges in January display considerable irregularity as compared with a year ago, the total, according to the statement prepared by B. G. Dun & Co., which includes returns from 128 cities in the United States, amounting to \$16,106,835,396,

a decrease of 0.3 per cent. The comparison with 1912, however, is much more favorable, as a gain over that year is shown of no less than 7.1 per cent. The exhibit by New York is comparatively satisfactory, there being gains at that center of 0.4 and 6.1 per cent. respectively, as contrasted with the two earlier years. A portion of this improvement is due to greater activity in the financial markets, but it also of this improvement is to prove the control of the than in 1913, there is a gain in comparison with two years ago of 85 per cent. Boston,

Providence and Portland report more or less contraction as compared with both years, and though there is substartial improvement at most other centers, the total of the New England States shows losses of 4.5 and 5.8 per cent. Most of the larger cities in the Middle Atlantic States, notably Philadelphia, Pittsburgh, Buffalo, Rochester and Wheeling, show decreases from twelve months ago, but improvement is general compared with 1912 and there is a good gain over that period. Losses at Baltimore and some other cities in the South Atlantic States occasion some falling off in the total of that section from a year ago, but a fairly satisfactory comparison is made with 1912. Gains at St. Louis, New Orleans, Louisville and some other cities in the South more than offset contraction at the remaining centers and the total is larger than in either year. Practically all the leading centers in the Central States report more or less improvement as compared with earlier corresponding periods, and the total makes quite a satisfactory comparison with both 1913 and 1912. Although a number of cities in the Western States report gains over both years, notably St. Paul, Des Moines, Sioux City, Omaha, Fremont and Lincoln, there is a small loss compared with last year swing to the falling off at Minneapolls, Duluth, Kannas City, Topara, Donver and several other important points. The comparison with two years ago, however, is emineptly favorable. Exchanges on the Pacific Coast are slightly less than last year, but a small gain over 1912. Some loss, as compared with both years appears at San Francisco, Tacoma, Salt Lake City, Oakland and San Jose, and at Los Augeles,

Portland, Sacramento, Oakland and San Diego as contrasted with a year age. \$904,358,890 1,900,000,782 450,888,52 2,071,650,909 682,886,128 661,036,405 \$981,7*7,949 1,126,965,018 438,67,807 730,615,803 1,82*,840,991 400,184,38 520,955,954 6011.85.348 1.908.486.37 48.007.308 841.41.487 2.108.110.008 680.070.483 807.806.407 N. values everywhere suffered a sharp deciline.

Beef steers at this market are 10@20c lower than a week ago, while cows and helfers are generally quoted 15#20c lower for the week. Stockers and feeders have eased off during the last two or three days and they are safely 10%15c lower.

Quotations on cattle: Good to choice beef steers, \$5.75g\$.00; common to fair beef helfers, \$5.75g\$.00; common to fair steeders, \$7.55g\$.60; fair to good to choice cows, \$5.25g\$.7.25; stock cows and feeders, \$7.25g\$.00; common to fair stockers and feeders, \$7.25g\$.7.25; stock cows and heifers, \$7.25g\$.7.25; stock common to fair stockers and feeders, \$7.25g\$.7.25; stock cows and heifers, \$7.25g\$.7.25; stock cows and heifers, \$7.25g\$.7.25; stock cows and heifers, \$7.25g\$.7.25; stock common to fair stockers and feeders, \$7.25g\$.7.25; stock common to fair stock

HOGS—Owing to the heavy storm and cold weather of the last thirty-six hours receipts this morning were very light even for a Saturday, estimates calling for lifty cars, or 3,600 head. For the week the supply amounts to something weel: the supply amounts to something like 53,312, being a shortage of 5,500 head as compared with last week, and better than 8,000 smaller than the corresponding

than 8,000 smaller than the corresponding week a year ago.

Packers did not seem at all anxious to start out this morning, and consequently the rade opened very slow, very few hids being made until after 9 o'clock. When buyers finally did start out their offers were barely steady, and as sellers were holding for an advance it was well along toward 16 o'clock before a trading basis was reached. In the end, however, salesmen were forced to give in, and the bulk of the supply moved at steady figures. Movement was draggy throughout, and it was well along in the forenoon before the light receipts were cleaned up.

out, and it was well along in the forenoon before the light receipts were
cleaned up.

Bulk of the offerings sold at \$3.25@
s.50 and tops again landed at \$3.55. For
the week prices show a net advance of
fully 10c. During the first half of the
week the market was in very unsatisfactory shape, but starting with a strong
close Wednesday a reaction set in, and
on Thursday enough was put onto values
to cover all the early decline. Another
strong trade on Friday placed values at
a point that looked to be a big dime
higher than the close of last week. There
were hardly enough hogs here today to
make a good market, and the week closes
with a slow, steady trade. Light hogs
probably have shown more gain than
the heavies, as at the close of last week
they were selling well below the range
of the heavier stuff, but under the influence of a fair demand they have moved
up until good even kinds, not too light,
are s-liting fully as well, and in many
cass better, than the rougher grades
carrying more weight. It might be mentioned that values are now at the highest
point that they have reached so far this
year, and this week s top of \$5.55 is the
best price that has been paid since last
October, when tops reached the same
figure.

No. Av. Sh. Pr.

extremely bearish attitude on the part of the buyers this week is given as the bad conditions surrounding the eastern trade in dressed mutton and the unusually heavy receipts in January at all markets, making an over supply of dressed meat to astisfy a slack demand. The best lambs on the close are quotable up to \$70, though none here brought over \$1.25, and the bulk of the good ones sold around \$7.00\$7.25. A week ago most of the lambs moved at \$1.20\$7.35. Yesterday lambs sold to feeder buyers went at \$5.50\$7.60, and anything over \$6.75 carried a fleshy top. There are logist lower than last week's quotations.

Choice handyweight ewes might bring \$6.30, with the bulk of the cwes here on Friday selling around \$5.00. There were more ewes on the market this week than at any time this year and the quality of the offerings on the whole was fairly \$6.00. There were considered though choice ewes were scarce.
