Alberts Tax Collector—Another cluster of political grapes has been handed one of the democratic faithful in Nebraska in the appointment of Nelson Alberts of Clay county as inspector of income tax revenue. Sees Income Tax Lift Burdens of the Poor

Ross Hammond, collector of internal revenues for Nebraska, in speaking to the current topics department of the Omaha Woman's club, Tuesday afternoon, emphasized the altruistic purpose of the new income tax, whose purpose, he said, was to transfer the burdens of the poor to the rich. "The relation of wealth to the community in which it is derived is a question of growing importance," said the speaker.

Mr. Hammond gave a resume of the provisions of the law and a history of its origin. He thought that the new law would stimulate better bookkeeping and business methods in large corporations. According to the speaker, Dr. Anna Shaw, Lillian Russell, Mrs. DeVolt Hopper and others who object to paying the income tax because of being denied the right to vote, have little reason for doing so, as the law provides that every person residing in the United States, whether he is a citizen or not, must pay the tax, if he comes within its bounds. As a collector, he did not look for very much evasion of the law "because of the wholesome regard for the power of Uncle Sam."

Preceding the speech, Mrs. L. M. Lord had charge of the parliamentary practice, which was on the subject of "Debate and Decorum." Mrs. C. Vincent is leader of the department.

Washington Affairs

Nearly 3,000 guests called at the White House last night to attend the congressional reception, the third of the winter social functions given by the president and Mrs. Wilson.

Consideration of the proposed constitutional amendment to enfranchise women was postponed in the senate again yesterday to enable senators to speak on the question. The amendment retained its place at the head of the calendar for bills awaiting consideration.

Sentiment is beginning to develop in the senate against any immigration legislation at this session of congress. Hearings are being planned by the immigration committee on the Burdett bill with its literacy test, as it passed the house, but it is apparent that a strong effort will be made to prevent the upper branch from passing this or any other immigration

AFFAIRS AT SOUTH OMAHA

Mayor Tells Why Quarters in City Hall Refused Water Board.

DISLIKES TO REORGANIZE BODY

Believes It Will Be Constructed as Legal Acceptance of Water District Bill—Practical Joke Makes Man Ill.

Although several water districts have been created in South Omaha under the new metropolitan water district bill Mayor Thomas Hector says he has advised the city council to refuse quarters in the city hall to the water board lest by so doing he should recognize the validity of the bill.

The mayor issued the following statement in regard to the matter yesterday: In reply to your inquiry as to what position the city will take with reference to the reported abolishing of the local water office by the Omaha Water board, permit me to say:

I believe under the terms of the existing contract between the Omaha Water company and the city of South Omaha, and which does not expire until October, 1914, the company is required to maintain a local office in this city. They are also under the terms of this contract, required to locate their mains when fire hydrants are located by concurrent resolution at a distance not to exceed 40 feet from the hydrant on the main so extended. On October 2, 1912, by concurrent resolution, the city council ordered thirteen hydrants located at specific points under the terms of the contract heretofore mentioned. At the time these hydrants were ordered located there was sufficient money in the fund to pay the annual rental on said hydrants and this money is still in the hands of the treasurer, for this specific purpose. Although the Omaha Water board assumed this contract between the Omaha Water company and the city of South Omaha when they took over the water works plant and have complied with the terms of the contract as provided in said contract, they have refused to honor the terms of the contract which requires the extension of mains and the installing of the fire hydrants authorized by concurrent resolution of the mayor and council.

I have advised the council to refuse the request of the Omaha Water board for office room in the city hall for the reason that it might be construed as recognition of the validity of the bill creating the Metropolitan water district which I do not consider effective, at least during the life of the existing contract heretofore mentioned. In this contention I am unanimously supported by the council.
