Wheat Closes Strong in Face of the Bearish Conditions.

CORN REPORTS SOME BETTER

Conditions in South America Point Toward a Bigger Yield of the Cereal Than Was at First Expected.

In the face of decidedly bearish conditions the wheat market closed with gains of 's@%c. The most strength was shown in the May future, which is in the control of large concerns and which was wanted by shorts. The controlled interest was the taking of lifteen boatloads at Chicago and fifteen boatloads at the seaboard, with about half 'n- grain No. 2 hard and the balancs Manitoba. This was sold to experters. In addition to these sales there were 70,000 bushels to interior millers. Minneapolis reported a good demand for cash wheat there and the head of a Duluth house reported. OMAHA, Feb. 25, 1914.

a good demand for cash wheat there and the head of a Duluth house reported some improvement in the buying of cash. Next to a crop scare, the cash trade in wheat may be called the strongest bull factor. This was shown yeaterday, and it is said those who are selling the wheat for shipment abroad are hedging these transactions in the pit, as is generally the case.

According to the government show map, the wheat plant is well covered with the possible exception of western Kansas, Oklahoma and southern Illinois. This condition will furnish enough moisture to carry the plant for an almost indefinite period, and places the wheat in a position where it will be enabled to withstand any attack by a possible sharp freeze. Cush wheat was unchanged to 140

The more favorable crop prospects for corn in the Argentine over balanced all else in the markets of the old world. as Liverpool showed losses of 4604d yesterday in the face of world's shipments of only 1.483,000 bu., which was considered quite light by the trade. Farmers were a little more willing to sell their corn, and cash concerns advanced the opinion that we are to have an increase in the offers. Iowa receipts are to run heavy until the farm work begins in the spring. The cash trade here was light, sales yesterday amounting to only 75,000 bushels.

Cash corn was 16714c higher.

Oats were higher with the other grains on smaller offerings, more than any urgency in the buying power.

Cash oats were 1665c higher.

Smaller longs in hog products were in the lead as sellers yesterday, and these increased offerings depressed values more than anything else. This combined buying gave a good raily to ribbs and pork, while lard was easy. There was a little more inquiry for cash meats and lard, but packers reported actual business as still slow.

blanketing the winter crop was the chief influence,
Corn shorts covered on a big scale. The heaviest sellers of the last two months were the most active buyers today. What brought about the change in sentiment was the fact that shipping demand was reported better in all quarters, and that the movement from rural stations was expected to diminish. Oats reflected the strength of corn. Texas reports of crop damage were also of assistance to the bulfs.

### LONDON SUFFRAGISTS REFUSE TO GIVE BOND

LONDON, Feb. 25.-Five prominent suffragists were brought before the Bow street police court today, charged with obstructing the police during last night's demonstration in Parliament square, when they protested violently against Premier Asquith's refusal to receive them.

The prisoners were Laurence E. Housman, author and artist; Henry W. Nevinson, war correspondent; Mrs. D. A. Thomas, wife of the Welsh coal magnate; H. D. Harben and Miss K. Haig. The magistrate ordered them to give bonds of \$25 each to guarantee their good behavior for six months. The prisoners all refused to enter into the bond. In a speech from the prisoners' enclesure, Laurence Housman said: "I am

here as a protest against the treatment of women political offenders. I shall continue to protest so long as I think it justified and necessary." In the ordinary course offenders refusing to give bond remain in prison for six

months. Alfred Meynell, another prisoner, was charged with assaulting the police and was sentenced to pay a fine of \$10 or go to prison for seven days.

Federals to Stick.

As a parting shot. President Gilmore, before he left New York, fired this one: "Organized ball says there is room for only two major leagues. Well, take it from me, the Federal league will be one of them."

There was a very fair demand for beef steers of a desirable type, and the market opened early and was fairly active. The trade assumed a good healthy appearance and the bulk of the recelpts changed hands in very fair season. The prices paid were fully steady and on the better and more desirable kinds strong to possibly 10c higher in spots.

Cows and helfers were fairly active and steady to 10c higher in some cases. The offerings for the most part changed hands in good season in the morning. Stockers and feeders were in moderate supply and they, too, showed a little

inher than last week and over 10.000 lighter than for the same period a year ago.

Shippers opened the market this morning by buying quite a number of loads of light hogs at prices that were all of its higher, and in some cases looked 5692c ingher. Packers, however, were slow in starting out, most of them not even bidding until after \$100, and when they made their first offers, prices quoted were not letter than steady. With other markets reporting good advances, alesmen refused to cut loose at the prices offered, and as a result the trade was very dull until well along in the forenoon, although a few sales were made at steady to strong prices. In the end packers found that they could not fill their orders without makings some concessions, and when the bulk of the offerings finally iterted to move prices on all kinds looked to be fully 5c higher than yesterday's average market. After a trading basis was reached the market livened up a good deal, and in spite of the early slow ress, a fair clearence had been made by poon.

The same prices and over loose and been made by poon.

The same prices and over loose and on cross-examination by E. P. Costingen, stoutly stuck to his story that the men knew they were going into a strike region and that no force was employed in keeping them on the trains between Pittsburgh and Trinidad.

# Says Health Officer Should Devote Full Time to His Duties

CHICAGO, Feb. 25 .- A public health officer to be efficient must give his full time to his public duties, it was declared here today by General W. C. Rucker, assistant surgeon of the United States public health service. In an address to the Federation of State Medical Boards General Rucker asserted that there were three requisites to thorough public health administration.

These three are the well trained, well remunerated, full time health officer," said General Rucker, "the power behind him in the shape of intelligent, accurate

law and the Adequate appropriation.

Public health can be bought at a price. Compared with the returns it brings, the price is not high. Sanitary appropriations usually are dealt out with a parsimonious and grudging hand. It is necessary that the public health officer demonstrate in terms of dollars and cents that public health and public wealth are inseparable. The humanitarian aspect of the question should not be forgotten, but it is of relawhich the courts have fixed the value of

Smallpox stalked into the ranks of the jury sitting in a case in the court of Judge Lee Estelle, with the result that proceedings were stopped for a time. Dr. Connell, health commissioner of Omaha, fumigated the court room, and caught and vaccinated practically every one who was found in the court room when it was discovered that all had been exposed to

the disease. William D. Morton, juror in the case, left the court house at noon for his home, 1409 North Thirty-fifth street, He felt bad, and before he got ready to return to the court house after lunch, he felt a great deal worse. He called a physician, who pronounced his trouble smallpox. The result was that court procedure had to be suspended for some time while the other eleven jurors and a great many others in the room bared their arms for innoculation.

The case thus rudely interrupted was that of Joseph Galatz against the Union. Pacific Railway company. Galatz is suing for damages in the sum of \$10,000 for in-
