the wheat to make the real "Staff of Life." There are more peo-ple in Ireland who liva to be 120 years (per capita) than any ether nationality. capita) than any other nationality. The Irish owe their great longevity to their staple foods, the Entire Wheat Breat and vegetables.

We will have on sale next Tuesday the famous health giving IRISH ENTIRE WHEAT BREAD, eaten by the Irish at each meal for over 2,000 years. It was their principal food, known as the "Staff of Life."

Wheat contains all of the fifteen elements that go to build up man's marvelous system; it has produced a strong race of men. All other so called foods combined do not contain the necessary nutritious properties to keep man in good heaith. Without the IRISH ENTIRE WHEAT BREAD a large portion of the human system would not be nourished, even if one partook of all the foods to be had in this city, together with the so-called whole wheat and bran bread

Eat plenty of the IRISH ENTIRE WHEAT BREAD at every meal and masticate it thoroughly. In this way pure blood will be made every 24 hours, together with all the other fluids that are made by the system, to take the place of the waste. By sating the only food, the IRISH ENTIRE WHEAT BREAD, which nourishes the entire human sys-tem, you will add from 25 to 50 years to your life. in con-tinuous mod health tinuous good health.

God created wheat specially to be man's food; the Lord's prayer says: "Give us this day our daily bread."

The Lord created oats for the horse. If the horse could talk his prayer would be: "Give us this day our daily oats." The horse never tires of his natural foodouts and hay.

The people who are now eating the IRISH ENTIRE WHEAT BREAD in Ireland for each meal during their entire life time never tire of eating it, even if they live to be more than 100.

There are more people living in Ireland per capita (with a record of their birth) over 120 years of age, than any other nationality.

The Irish owe their great longevity to the natural food of man, the IRISH ENTIRE WHEAT BREAD, which was their main food.

The natural life time of man has been established as 120 years, instead of three score and ten. Man lives six times his maturity.

Man's greatest asset is perfect health. To keep in continuous good health, he should eat plenty of the real "Staff of Life" at each meal, the IRISH ENTIRE WHEAT BREAD. Courtney's will now supply that long felt want,

The Americans will have to "come back to nature." If they continue to eat the class of food they are now consuming, which consists of only a few elements of nutrition, a large portion of same is bolted by them. Their food should contain more waste

Lose no time in procuring a loaf of the IRISH ENTIRE WHEAT BREAD. "The proof of the pudding is eating." Test it and see for yourself. You will find it has a delicious flavor, and worthy of your attention.

Henceforth let your motto be: "Eat to live, but never eat to die." By this means the undertaker will be cheated out of a job, as he is bound to die before you. If you continue to eat the IRISH ENTIRE WHEAT BREAD, you should live to be over 100, in perfect health.

N. B.—This is the first time the real "Staff of Life" was ever baked in this city. All millers take the most nutritious portion of the wheat out, in order to have the flour that yeast will act on. Bread made from

Prevention of premature death is largely within man's control.
