## HISTORY OF BASE BALL

A book of great interest to all base ball fans is about to be published. It is Richter's History and Records of Base Ball, written by Francis C. Richter, founder and for thirty-one years editor of Sporting Life, a weekly base ball Herbert Ausberg, editor of the Grand and trapshooting publication, gotten out at Philadelphia According to advance information, the work promises to be the standard history of the great national game, and an indispensable reference book, as well as an important one, because of the reliable information preserved in it. It is being published by the author, and will contain three parts, with a total of 380 pages and forty-eight fullpage illustrations of 300 base ball notables. Although expensively gotten up, it will be sold at \$2, so as to be within the reach of all fans. Among the many subjects treated in the book are: Origin of the game, first associations and leagues, wars of base ball, the three foreign tours, rise and progress of the minor leagues, ancient and modern records of the game, including general, batting, fielding, base running and pitching records, the great pitchers, classics of base ball, rise and progress of organized ball, development of playing rules from 1845 to 1914, leaders, players and writers of base ball.

#### MUSIC WILL BE FEATURE AT BAZAR-FESTIVAL

The three biggest mills in the roofing industry are behind the Certain-teed label, on every roll and crate of

# Certain teed

Guaranteed for 15 years and will last longer

ROOFING

Roofing Tests-True and Otherwise By George M. Brown, President, General Roofing Manufacturing

Company
As you walk down the concrete run-As you walk down the concrete run-way to catch your train in the new Grand Central Station in New York, you wouder why one portion of the run-way is pinkish in color, the next fifteen of twenty feet dull gray, and the next gleaming with innumerable sparks of mice or carborundum. The point is, they're testing various con-crete compounds for scear,

It is exactly the same in buying roofing the true proof is on the roof Roofs do not wear out—they dry out
No test of toughness has any bearing on the durability of a roof. The
thing that a roof is up against is the
changing weather conditions, changing temperatures—and time. It does
not have to bear rough usage, but it
does have to contend against withering up and drying out. Therefore,
any test for toughness is a false test.
A soft asphalt center protected by a
harder asphalt surface makes the
ideal roofing material. It is not
tough. It tears easily, compared to
many roofings devised to withstand
fictitious physical "testa." But it
will not dry out—on the roof—unit
years after the "tested-for toughness" roof has out-lived its usefulness and dried up.
There is no test by which you can
know in advance the service a roof
will give or how long it will last.
There is only one true means of Roofs do not wear out-they dry out

There is only one true means of advance knowledge—and that is the reputation and guarantee of the manufacturer. But you must go further than that even. You must look beyond the manufacturer's guarantee for what is behind itfor the responsibility to make good the guarantee.

We could not guarantee <u>Certain-teed</u>
Roofing for fifteen years if it were
not built upon the properly blended
soft center asphalt basis with the
barder asphalt protecting surface.

You can buy roofing for less than the price of Certain-teed. But at most your saving is but a few dollars-and it's poor economy.

## Certain-teed

is always reasonable in price-and 15 years' service guaranteed is the best advance roof-knowledge
