By MELLIFICIA Tuesday, March 24, 1914.

A WEDDING which comes as quite a surprise to all but a few intimate friends is that of Miss Elizabeth Redmond, daughter of Mr. and Mrs. B. F. Redmond of Salt Lake City, formerly of this city, to Dr. Max Flathow of this city who has recently gone to Woodbine Ia.

The wedding will be celebrated quietly Wednesday, March 25, in Salt Lake City.

Bidders at Auction of Farnam Street Property

ON THE LEFT IS ELMER J. NEVILLE, WHO BID IN THE PROPERTY AT TWENTY-FOURTH AND FARNAM STREETS FOR \$100,100, AND NEXT TO HIM IS D. V. SHOLES, WHO ACTED AS HIS AGENT. THE MAN WITH THE MERRY LAUGHTER IS Ed Slater of the firm of Payne & Slater, which handled the property.

BIG SUM ON FARNAM STREET

Corner at Twenty-Fourth Sells for \$100,100 at Auction.

ELMER J. NEVILLE THE BUYER

New Record is Set for Purchase Price for Property on That Section of Farnam Street—Bidding Spirited.

The lot on the northeast corner of Twenty-fourth and Farnam streets, 60x122 feet in size, was sold Tuesday at sheriff's sale to Elmer J. Neville for \$100,100—almost double the price paid by its owner William S. Noonan in 1888.

Records in the court house show that Noonan paid \$7,500 for the corner and assumed a mortgage of \$17,000, making the total value in 1888 \$24,500. The property was sold as a result of the foreclosure by the Conservative Savings and Loan company of a mortgage for \$25,640. Noonan has been declared incompetent by the courts.

The price brought for the lot on which are located three stores, six apartments and smaller buildings is said by real estate men to indicate that Farnam street frontage is still in increasing value at an extraordinary rate.

Mr. Neville, who is a member of an old and wealthy Omaha family, gave to Sheriff McShane his check for the full purchase price. He said he had no definite plans with regard to the corner to announce at present.

The sale, which was held in front of the east door of the court house, attracted a large crowd of buyers and spectators, and bidding was extremely brisk, more than 100 bids being made. The sale lasted one hour.

The Conservative company opened the bidding with an offer of \$33,000. Mr. Neville and D. V. Sholes, who represented him, were prominent bidders throughout the sale, but E. M. Slater, said to have been the representative of Dr. H. Gifford, who forced the price past the \$100,000 mark, made his first bid at \$80,000, stopping at \$100,000.

Harry Tukey, who was reported to be acting for John D. Creighton, bid \$90,000, and T. H. McCague, who was said to represent the Boston Ground-Rent company, offered \$90,000.

Following is a list of the bidders who participated in the buying contest: A. V. Drescher, E. S. Neville, W. H. De France, P. J. Norton, M. S. Ellis, T. H. McCague, J. D. Creighton, D. V. Sholes, Harry Tukey, H. H. Baldrice, E. M. Slater, W. W. Young and George A. Joslyn.

Payne & Slater, real estate dealers, were the agents who have been in charge of the property.

In addition a program will be rendered by the Benson High school chorus and solos will be sung by Mrs. Chadwell, Mr. Scott and Mrs. Rumpus. T. E. This Washer Must Pay for Itself

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing to matter with it. I wanted a fine horse. But I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right, but pay me first and I'll give you back your money if the horse isn't all right. We'll all like that. I didn't like that. I was afraid the horse wasn't all right. And that I might have to pay for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now this set me thinking.

You see I make Washing Machines—the "100 Gravity" Washer. And I said to myself, lots of people may think about my Washing Machine as I thought about the horse and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machine for mail. I have sold over half a million that way.

So, thought I, it is only fair enough to let people try my Washing Machine for a month, before they pay for them, just as I wanted to try the new horse.

Now, I know what our "100 Gravity" Washer will do. I know it will wash the clothes without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in six minutes. I know no other machine ever invented can do that without wearing out the clothes.

Our "100 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes. It trays the edges and break buttons the way all other machines do.

It just gives soapy water clear through the fibers of the cloth like a force pump might. "100 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "100 Gravity" Washer on a month's free trial. I'll pay freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight, too. Surely that is fair enough, isn't it?

Doesn't it prove that the "100 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save the whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 cents to 75 cents a week over that of washwomen's wages. If you keep the machine after a month's trial, I'll let you pay for it out of what it saves you. If it saves you 50 cents a week, send me 50 cents a week till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself pays the balance.

Drop me a line today, and let me send you a book about the "100 Gravity" Washer that washes clothes in 6 minutes.

As Much For Your Good as For Mine

I purpose writing six letters to the Public, and I want you to follow me—Don't read the first and stop—I am going to start something—and reading one will prove nothing. I mean to prove what I say—and what I say will touch your pocket-book. I shall contrast with other cars the Cartercar—a car which has attracted more attention in Nebraska in the last three years than any car that ever came west of the Mississippi. I am going to show what the principle is that makes an automobile simple. I am going to show why it runs and how long it will run. I am going to tell you what you ought to know, but don't, about gear cars and what proportion of the price paid for high-priced cars is actual waste.

Now, I am right. You may not think so, and it will be as much for your good as mine to go into this matter thoroughly. Get a demonstration in a Cartercar.

Yours respectfully,

W. E. Foshier
President Cartercar Nebraska Co.
