in the business I have noticed tremendous advances in values in down town resi-

dence and suburban property. Of course

various reasons could be given why certain residence and suburban properties

advance so greatly in value; for instance.

"Our company has platted one acre addition each year for the last three years; tiese additions all being on Sixtleth. south of Leavenworth street. In each case the addition was sold out in exactly one month, thereby indicating that there is a healthy demand for acreage. We are now developing Reed acres, a new addition at Fiftleth and Q streets, South Omaha. This tract of land has been owned by the Byron Reed estate for forty years and is ideally located for subdivision into acre lots. Here again we have the illustration of the effect of rapid fransit or interurban car lines on real estate along the route. It is a wise investor who puts his savings in acrease

near a growing community and waits for the city to expand so he can subdivide into lots and realize a handsome profit."

May Be Three Million of Permits. From the way building permits have started out this spring, the city building inspector has estimated that structures to cost \$3,000,000 will be started this spring. He points to the \$1,600,000 Fontanelle hotel as a big start in one lump and the United States National bank as another that will run something like \$300,000. Then there are several factories and business blocks as well as apartment houses ranging from \$10,000 to

\$50,000 that are either started or to be started soon. Adding to these the great humber of residences, both of costly elesance, and of modest air, and the figure rapidly swells. Hastings & Heyden have started

excavation for a new flat at Thirty-third and California streets. Adjoining ground space for six more structures has been purchased and they will be built during the coming summer. The flats are to have alx rooms each.

Harry Wolf, who has leased the Ware lock at Fifteenth and Farmam streets. will move his own real estate offices to that building Monday. He will occupy rooms 512-13-14. At present he is in 433 Brandels building. Mr. Wolf in moving into the Ware block will not only con duct his real catate business, but will taks active charge of the property and have the management of the building under his personal supervision.

Norris & Norris report much activity in the north part of the city, particularly in Parkwood addition, where they have made fifteen sales in the last few days. Also a number of sales in the Field Club district addition.

Hastings & Heyden report the following sales. This firm is very optimistic regarding business for the year 1014, as these sales have been made in the last two weeks: Miss Anna Melots has pur-

chased 1010-1813 South Twenty-sighth Missouri Pacific They will be held as an investment. Axe R. Carlson purchased lot 180, Roanoke addition, for \$250. Kansas City Vags Run Out of Omaha

Twenty-three vagabond negroes banished by the police of Kansas City, Mo. arrived in Omaha Friday night and applied at police headquarters for shelter. They were locked up in separate cells in the old county jail and were given a hearty breakfast and an escort over the bridge. The known cash assets of the gang were 15 cents, or .652 of a 1 cent a piece.

All of the men are hard looking char-acters, and according to the local police, 'typical strong-arm niggers.'

We've got plenty of that type, black and white, without being saddled up with Kansas City's rubbish, so out they go," said Captain Heitfeld.
