

# Mort's Clothes Shop to Re-organize

The Entire Stock to Be Sold at Greatly Reduced Prices, Beginning Thursday Morning, April 9th, at 9 O'clock.

The Business of Mort's Clothes Shop has grown and thrived for over two years. We have built a Business during this time which we can refer to with Pride for we doubt that any store has the support of a more representative clientele than we. The prestige we have gained and the loyalty of our patrons are among our most enjoyable recollections.

Interests which heretofore have been interested in this Business are to be altered somewhat to further the progress and add to the Capital of this institution.

New ideas are to be injected, new lines are to be added. Certain Policies which in the main have been successful, but which require changing to meet new conditions, are to be incorporated.

The Business Must Be Expanded to cope with the new conditions which have come about in the past few years.

In order to meet these new conditions it is necessary for us to convert our Entire Stock into Cash immediately.

To clear out a stock completely requires drastic price cutting and notwithstanding the natural loss of profits in so doing we have concluded to name prices so low on new Spring Suits, Overcoats and Raincoats for Men and Young Men that this sale will be irresistible.

One of the primary reasons for inaugurating a sale as outlined above is for the purpose of Raising Cash. As a matter of fact Raising Funds is imperative.

The changes which are to be made in the conduct of Business will in no way affect the future character of this shop or its personnel.

The contemplated sale only refers to an enlargement and a betterment of conditions generally.

We want the continued support of those who have been instrumental in placing the name of Mort's Clothes Shop in the forefront with the progressive Men's Stores of the city.

A further announcement, with Price Quotations, will be made in all the local newspapers, and we trust every one will avail themselves of the unusual offerings which are to be made on the Highest Quality Wearables in Clothes for men and young men obtainable.

N. B.—This shop will be closed Tuesday and Wednesday in order to mark down the entire stock and arrange the store for the Big Event which will open on Thursday, April 9th.

### GOVERNOR ON DESERTION

State Executive Not Much in Favor of Pushing the Law.

### WIVES WELL RID OF DESERTERS

Believes Something Should Be Done to Compel Departing Spouses to Support Their Families if Brought Back.

(From a Staff Correspondent.)  
LINCOLN, April 6.—(Special.)—County Attorney Magney of Douglas county has made a request to Governor Morehead for the issuance of a requisition on the governor of Wisconsin for the return to Omaha of Walter Roos, who abandoned his wife some time ago and had been apprehended in Milwaukee.

A letter to the governor states that the county attorneys fully acquainted with the fact that the governor is much opposed to taxing the state treasury to return men who have abandoned their wives and sets out that the relatives of the wife have agreed to bear the expenses.

Governor Morehead will take the matter under advisement for a few days. He is rather of the opinion that where a man would abandon his wife, the chances are the wife is well rid of him and would be better off without him. He thinks that if some way could be provided to make him support her it would be the best thing for the wife, instead of bringing him back and forcing him to live with her against his will, resulting in unhappiness for her and no possible good to be gained.

State Engineer D. D. Price will go to North Platte this evening, where he will receive bids for the construction of a state aid bridge about three miles north of Sutherland on the Platte river. The bridge will be of cement and about 800 feet long.

Switch Charge in Dispute.  
A case brought in the supreme court to test the right of the State Railway commission to establish switching rates at College View, a suburb of Lincoln, was argued in a supreme court this morning. It is claimed by College View people that the town is discriminated against when it comes to rates, and Attorney W. M. Morning cited cases of where it cost about twice as much to get a carload of sand, apples and other things to that place as it did to University Place, Bethany and other Lincoln suburbs. Judge Root, appearing for the Burlington, stated that if the people of College View would buy their stock where the Burlington is located, that town or other road they would find the charges not exorbitant. The difference came in favor of the other suburbs because they could ship over one road and thus avoid transfer and switching charges. The commission had granted the Lincoln Traction company, which has a spur into College View, a switching rate of \$7 per car.

New Elmwood Bank.  
The State Banking board held a meeting this morning and allowed the application of Lincoln and University Place people for a bank at Elmwood to be known as the Elmwood State bank. Gift to Treasurer George.  
State Treasurer George received some money this morning that he does not know what to do with, neither were there any instructions whether the money was his, put it in the republican campaign fund or start another bank. The letter bore a Grand Island postmark and inside was a plain sheet of paper wrapped around a bunch of bills. One bill was for \$20, three for \$5 each and one \$1 bill. If the part will write the treasurer again making his wants known in regard to the disposal of the same his wishes will be carried out to the letter.

### Notes from Beatrice and Gage County

BEATRICE, Neb., April 6.—(Special.)—Word has been received here announcing the death of John Mewhorter, a former resident of Filley, which occurred at his late home at Baker City, Ore. He retired apparently in the best of health and the next morning he was found dead. The body will be brought to Crab Orchard for interment.

Thirty farmers of this vicinity held a meeting in the Commercial club rooms for the purpose of considering telephone rates and service. They have been circulating petitions to present to the telephone company, and up to Saturday had secured 350 signatures. These petitions ask that the company reduce the rates on farm phones from \$1.50 to \$1.25, and that the company put back the kind of instruments that were in use before the consolidation. The farmers agree to order their telephones out if the company does not comply with their request.

Mrs. Robert Ingman died Thursday at her home at Wynmore aged 82 years. The deceased is survived by her husband and two children.

### OCEAN AND RAIL RATES VERY MUCH DIFFERENT

(From a Staff Correspondent.)  
LINCOLN, April 6.—(Special.)—Argentine corn rate from San Lorenzo to New York, 6 to 7 1/2 cents a bushel. Rate from Rosario to New York, 5 to 5 1/2 cents a bushel.

These facts have been made public by the government and doubtless will cause much discussion.

The railroad rates on corn from New York to Chicago are about the same over the cheapest routes as the rate from San Lorenzo to New York. Corn shipped from San Rosario across the ocean to New York for about the same rate as the charges from Buffalo to New York.

Corn comes from the upriver ports of Argentine to Galveston on three out of the four routes for less than 7 cents. From Kansas City to Galveston, in 1913, the rate was quoted at 9.5 cents.
