The Man At The Head Of The House-

'The man at the head of the house with the responsibility of caring for a family should not depend entirely on his earnings from week to week to keep things going. There are ways of providing for the future if-you go about it in a sensible, intelligent manner.

One thing that you can do right now which will be really worth while is to find out what other people know about real estate conditions and values in Omaha. It may be that you have never thought seriously about owning a home or a farm of your own, because somehow the words "rear estate" are associated in your mind with an investment of big money.
