A well filled house greeted the class in expression in the college auditorium

"Şervice is the true form of salesmanship." Ten years ago you would have bought a tar and gravel roof, a tin roof, a slate or a shingle roof, according to the type of building you wished

## Certain-teed

to cover. Today you will buy

Certified Roofing Guaranteed

Ten years ago roll roofing was a high priced specialty. Today it is a staple at a reasonable price. And Certain-teed Roofing made it so.

Ten years ago manufacturers and roofing dealers both thought that they had to have an exaggerated profit on roll roofing—because so little of itwas sold. Certain-teed Roofing, by modern manufacturing methods and by modern selling methods, rendered a tremendous service to roofing users and to roofing dealers by establish-ing a reasonable price basis for better fing than had ever befor, been produced—and a reasonable profit for dealers on a bigger volume of business than had ever before come their way.

On Monday mornings we are telling 7,000,000 readers of daily newspapers the merits of Certain-teed Roofingthis is service to prospective roofing buyers in pointing the way to roofing that is backed by a fifteen-year guarantee. Certain-teed Roofing is sold at a reaprice everywhere by dealers who believe in giving unsurpassed quality at a fair profit. The amount of Certain-teed Roofing required for an average roof, say ten squares, will cost less than \$5 over the cheap mail order grade. This small initial cost is saved many times in the fifteen years' wear which is covered by the manufacturer's

We are also advertising in farm papers, and foreign language news-pap rs, reaching people who may not read the daily newspapers.

This is our idea of service. We have the three biggest mills—we are large buyers of raw materials and we advertise everywhere, because that is the cheapest way to sell our roofing.

We share the savings of our enormous volume with you who use roofing. We encourage jobbers and dealers to follow our example and sell on small margins and depend upon the large volume of business which is certain to result from the best service to users of roofing. That building of yours which requires a

roof—whether it's a factory, warehouse, business block, farm building, residence or any other structure—whether it's new or old-your first thought would be roll roofing, because Certain-teed has put roll roofing easily within your consideration from a price standpoint. It has done more than that-it has put

Certain-teed Roll Roofing first in your consideration from the standpoint of quality, durability and real roofing General Roofing Mfg. Co.
