Demosthenians Win by Virtue of Their Hustling Diligence

The Demosthenians Debating society is one of the societies of the Central High. classic walls of the institution. It is one of the oldest literary societies now in existence at the High school and for sixteen years it has been the leader among the organizations of its kind both in the revered brick structure of former years and in the beautiful Greek temple of today, which, by the way, is known throughout the land as the most artistic school building in the west.

in debating this society is pre-eminent. and it is represented by a large delegation of the boys on the High school deoating teams. Most of the talented depaters who have won honors at the High school have been D. D. S. men. Also, this is the society that carries to successful conclusions new ideas. For example, it was this society that started the custem of giving a society banquet each year. This year the D. D. S. gave another proof of its leadership along this line when it staged the most successful entertainment ever presented at the High school auditorium, the "Mock Assembly of the United States Senate."

People wonder what has done all thisit is the society's spirit, the hustling bustie of its members. By the aid of this apirit the society has secured its present position also by its virtue and expects to keep that position.

Next Friday Will Opening Day of Seymour Lake Club

Friday May 29, will be the formal open-ing day for the Seymour Lake Country club. A dinner dance has been arranged for the occasion and the members have been given the privilege of bringing as many guests as they wish.

During the season there will be two regular dance nights, Tuesday and Friday, instead of only one as last year. Tuesdays will be children's day and on Thursdays a special luncheon will be served for the ladies.

F. E. Snodgrass, who presided as superintendent of the club last year, will be in charge again this year. W. B. Cheek, secretary of the club, has sent out the announcements.

MINERAL WATER DRINKERS ALARMED OVER THEIR FATE

Badly frightened with the belief that perhaps their systems are clogged with ceposits of iron, potash and other minerais, like water pipes in the Young Men's Christian association building have just been found to be, a number of regular drinkers of the association's artesian well water have sought out doctors to learn their fates. However, they have learned that the water is healthful. The scare resulted from the discovery that hot water pipes in the association building were closued with heavy deposits a a reddish brown mineral substance, which ad teen precipitated from the water during the last three years.
