

Council Bluffs

Minor Mention

Council Bluffs Office of the Bee is at 14 North Main St. Telephone 42.

Davis, drugs. Victoria, 115. A. Hoese Co. Corrigan, undertakers. Phone 43. Blank book work. Moreshouse & Co. Woodring Undertaking Co. Tel. 333.

GARDNER PRESS, printing. Phone 33. Lewis Cutler, funeral director. Phone 97. Eyes examined, glasses fitted. Leftert. BRADLEY ELECTRIC CO. WIRING AND FIXTURES. PHONE 33.

Will pay cash for a lot or a five to seven-room house. Give street address and lowest cash price. "D." Omaha Bee, 14 North Main St., Council Bluffs, Ia.

A great improvement has been made in commercial courses by the committee of the League of American Business Colleges. It makes the work more thorough and complete than has ever before been offered.

Notice was yesterday filed in the district court of appeal to the supreme court of the defendants, William Morris and Anastasio Pouloupolis, from the district court judgment secured by George Zees, approximately \$2,000, for a woman's employee who was accused of the theft of \$5 from the restaurant operated by the Zees. He was fined \$100 damages for false arrest and imprisonment.

J. N. Tollinger, deputy clerk of the district court at Avoca, was in the city yesterday looking after his interests as the republican candidate for clerk.

The South Side Improvement club, a new organization that proposes to do something for the southern part of the city, has passed through the formative stage and is now ready to begin its work.

County Attorney Capell returned yesterday morning from Detroit, where he has spent the last ten days trying to bring about the extradition of W. S. Hamilton, indicted here for the embezzlement of \$2,000 from Mrs. Lundeen, a Council Bluffs woman who had entrusted negotiable securities to that amount to his care.

Hamilton has resorted to every possible expedient to prevent extradition and has persistently denied that his name is Hamilton or that he had ever been in Council Bluffs. He refused to admit the identification of County Attorney Capell and Sheriff Lindsey, who were well acquainted with him when he was operating here last summer.

When Assistant Cashier Price of the Commercial National bank, where the securities were hypothecated, positively identified him he did not weaken a bit.

Hamilton's last attempt to avoid extradition was to secure a writ of certiorari as a preliminary to his appeal to the supreme court, after the Iowa regulation had been honored by the Michigan governor and approved by the court. The hearing on this writ is set for today.

Sheriff Lindsey is remaining at Detroit upon the assurance of the court that Hamilton will be turned over to him today.

Under the name of J. A. Cox Hamilton has been in jail at Detroit for six months under an archaic statute that practically permits imprisonment for debt.

WORK ON CONSENT PETITION

Supervisors Take a Short Respite to Select Officers of Election.

LABORS ABOUT HALF COMPLETED

Members of Board Said to Be Smarting Under Some of the Criticisms that Have Been Made.

Canvassing the saloon consent petition was interrupted yesterday afternoon when the county supervisors were obliged to turn aside and transact other public business. It was necessary for the board yesterday to make up the list of judges and clerks of election who will serve in all of the precincts in the county at the June primary election. The work had to be done yesterday and it consumed all the afternoon and will require some time this morning to complete it.

Canvassing the consent petition was continued until noon and stopped with the two thousand eight hundred and seventy-four names. The work is thus a little more than half completed. It is not expected to be finished before Tuesday afternoon. Then several days may be consumed in the examination of technical objections that have been filed as the canvass progressed. Many are of microscopic character, for it is said that Expert Hammond and his sons are trying to earn their pay by hanging objections upon things that are not visible to the naked eye.

Members of the county board are smarting under the imputations that they are in sympathy with the saloon. They are in a quandary as to what to do about the matter; that they are a wet board and that they will not show the anti-alcohol consideration not compelled to be shown. The criticism, it is asserted, is absolutely unjust and is resented the more indignantly for the reason that several of the members have been allied with the movement to close the saloons in the eastern part of the county and helped to defeat the last two attempts to secure the county consent petition.

The members of the board felt the injustice of the imputations so keenly that they decided not to permit the bolt to be removed from the binding of the volume that constitutes the petition. It would have made the labor of canvassing very much lighter and hastened it. While the board had no doubt authority to remove the bolt and separate the petition into its component parts, the decision not to do so was unanimous, owing to the conviction that it would be used as a basis for further criticism.

Best jewelry repairing in the city; all work guaranteed. Lefferts.

Hamilton Fighting Against Extradition

County Attorney Capell returned yesterday morning from Detroit, where he has spent the last ten days trying to bring about the extradition of W. S. Hamilton, indicted here for the embezzlement of \$2,000 from Mrs. Lundeen, a Council Bluffs woman who had entrusted negotiable securities to that amount to his care.

Hamilton has resorted to every possible expedient to prevent extradition and has persistently denied that his name is Hamilton or that he had ever been in Council Bluffs. He refused to admit the identification of County Attorney Capell and Sheriff Lindsey, who were well acquainted with him when he was operating here last summer.

When Assistant Cashier Price of the Commercial National bank, where the securities were hypothecated, positively identified him he did not weaken a bit.

Hamilton's last attempt to avoid extradition was to secure a writ of certiorari as a preliminary to his appeal to the supreme court, after the Iowa regulation had been honored by the Michigan governor and approved by the court. The hearing on this writ is set for today.

Sheriff Lindsey is remaining at Detroit upon the assurance of the court that Hamilton will be turned over to him today.

Under the name of J. A. Cox Hamilton has been in jail at Detroit for six months under an archaic statute that practically permits imprisonment for debt.

BABY CHAMP INTO COURT

Father of Dorothy Klumeyer Is Suing for Divorce.

ALLEGATION OF CRUELTY MADE

"Eminent New York Specialist" Sentenced to Indiana Jail for Five Months for Posting as Expert in Medicine.

(From a Staff Correspondent.) DES MOINES, May 23.—(Special Telegram.)—The custody of Dorothy Klumeyer, grand champion of the baby health contest at the Iowa state fair in 1912, is involved in the suit for divorce brought by H. Klumeyer against the mother of the famous baby. In his petition for divorce, Klumeyer charges that his wife has been guilty of cruel and inhuman treatment toward him and alleges that the future welfare of the baby necessitates that she be placed in his custody and not with the mother. Upon his declaration that Mrs. Klumeyer would remove Dorothy from the state unless restrained from doing so, Judge Brennan of the district court signed an order which will prevent the mother from leaving Iowa.

For the next five months Alexander MacDonald, an eminent New York specialist, must confine his practice to the four walls of the county jail at Indianapolis. His practice was so limited today by Judge McPherson following MacDonald's plea of guilty to a charge of using the mails to defraud. It was shown that in three days MacDonald took away \$1,000 from Des Moines. MacDonald was one of ten quack doctors to be indicted on a similar charge. He journeyed from city to city over the United States.

Women End State Convention. The state convention of the P. E. O. organization of women came to an end at noon today and the 30 delegates left the city. Mrs. Lillian Griffith of Marion was elected president of the state order. It was declared to have been one of the best conventions ever held by the society.

One decision of the convention was that hereafter more work should be given along charity lines and not all upon educational work for girls. The society intends to branch out into various lines of activity.

P. E. O. officers elected were: President—Mrs. Lillian Griffith, Marion. First Vice President—Mrs. Stella Foster, Ottumwa. Second Vice President—Mrs. Ellis Engelbeck, Des Moines. Recording Secretary—Mrs. Beas Manning, Keosauqua. Treasurer—Mrs. Cornelia Sawyer, Sioux City. Organizer—Mrs. May A. Franis, Burlington. Corresponding Secretary—Mrs. Louise Henly, Grinnell.

Race Meetings Will Be Large. Reports to the state agricultural department are that never before in the history of the state has the outlook been so good for fine race meetings on the various tracks in this part of the country. The cash received for entries at the state fair race meet is already far beyond that received last year and the number of horses entered is much larger in all the early closing events. It is declared that with the advent of the automobile as the service vehicle interest is reviving in horse racing.

Return in Examinations. The State Board of Medical Examiners today took action looking to reform in medical examinations. A committee consisting of Drs. Beirring, McClintock, Seever, Royal, Albert and Prentiss was appointed to make investigations and report to the board with the view to having the legislature change the law and permit of oral examinations. There has been much criticism of the somewhat antiquated methods employed in ascertaining the competency of persons admitted to practice in this state and an effort will be made to place it on a better basis.

School for Girls Too Quiet. The State School for Girls at Mitchellville is being visited by the entire membership of the State Board of Control today. The board makes a visit twice each year for the purpose of complete inspection. The school has been under the direction of the present committee since 1907. It has been quiet in all that time has been so distressingly quiet that it is almost forgotten, whereas in the past it was the source of much startling news.

Because of the need of officers of the regular army in service with their regiments the annual school of instruction for officers of the Iowa National Guard, which was to have been held at the state rifle range the latter part of next week, has been abandoned. The War department sent word it would be unable to furnish the instructors this year.

The new armory for the battery formed at Clinton is now ready for dedication and soon the guns will be received for this newest adjunct to the Iowa guard.

Commissioner W. B. Barney and Inspector Thompson of the state dairy and food department this week held dairy meetings in Van Buren county, at Keosauqua and Bonaparte, and as a result there will be organized creamery associations and an effort will be made to revive interest in dairying in the southern part of the state.

The state dairy department and the city of Des Moines have combined to employ Prof. McElroy, now milk inspector of Jacksonville, Fla., to become milk inspector of Iowa. He is a graduate of the Iowa State college.

Members of the Iowa Board of Control have become much interested in the work of prison reform in other states and will do what they can to further this movement in Iowa. Chairman McConlogue of the board states that it was a live subject at the Memphis meeting of the National Conference of Charities and Correction. Many states reported some progress.

Utah doesn't call anyone under 18 years of age a criminal. The Wisconsin is working its convicts on the highways and has established a custodial home for women. Indiana has established a farm for short term convicts. Pennsylvania has purchased 5,000 acres of ground on which to concentrate all its prisoners. In Texas the honor system for convicts has been carried to the limit, half the guards being discharged and the prison doors left unlocked.

Denison Has Athletic Field. DENISON, Ia., May 23.—(Special.)—Denison is to have an athletic field, which will be placed in shape by funds contributed by citizens. Over \$1,500 has been raised. The work of leveling the grounds and putting up fences and grand stands is being pushed. Officers of the association are as follows: C. L. Voss, president; Dr. Philbrook, vice president; Dan Voss, treasurer; and Alfred Wright, G. L. Casswell and Albert Weiss directors. The base ball team is putting in daily practice and the town expects to develop a strong team for this season.

FLINN CONFERS WITH T. R.

Colonel Says Situation in Pennsylvania Looks Very Good.

NEEDS TWO STENOGRAPHERS

Referring to Mellen Testimony Says Morse Indicted During His Administration and Freed

Later.

OYSTER BAY, N. Y., May 23.—William Flinn of Pittsburgh, progressive national committee member, who led the bolt of Roosevelt delegates from the republican national convention of 1912, tonight paid his first visit to Sagamore Hill since Colonel Roosevelt's return from South America.

With Mr. Flinn was Gifford Pinchot, progressive candidate for United States senator from Pennsylvania. It is probable that Colonel Roosevelt will devote several days to a speaking trip throughout the state, after his return from his tour across the continent.

Lineup Very Good. "The line up in Pennsylvania," Colonel Roosevelt said, "is very good indeed. Mr. Flinn is very confident of winning, as am I."

The testimony in Washington of Charles S. Mellen, former president of the New York, New Haven & Hartford railroad, regarding his interview with President Roosevelt concerning the sale of the New Haven's steamship lines to Charles W. Morse of New York, caused the colonel to send a telegram to Herbert Knox Smith of Hartford, Conn., who was commis-

stoner of corporations during the Roosevelt administration, asking him to make public a letter which he had sent the colonel in 1912 regarding this matter, which as commissioner of corporations, he supervised. This letter, the colonel said, explained every phase of the situation.

Colonel Roosevelt said that the Mellen interview was probably one of a dozen that day and he could not recall the details.

"I thought then, and I think now," he went on, "that it would have been a mistake to have Mr. Morse acquire the steamship lines. As to Mr. Morse's business, I will refer you to the courts. You remember that he was indicted under my administration. We put Mr. Morse in jail. He was pardoned—but not until after my administration."

During the morning the colonel was occupied with his correspondence. It required two stenographers to keep pace with him.

Quit Meat When Kidneys Bother

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes, and lemon juice, combined with lithium and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful after-dinner drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertising.

Jap Smugglers Let Immigrants Down to Save Their Own Skins

SEATTLE, Wash., May 23.—Noguchi Kamesuke, an officer of the Japanese liner, Awa Maru, was sentenced today in the United States district court to three years in the McNeil island penitentiary, after he had pleaded guilty to smuggling four Japanese into this country.

The prosecuting attorney asserted that Kamesuke, after a disagreement with one of his four immigrants, tied the man's hands and threw him overboard in Tacoma harbor. The man was nearly drowned. The attorney continued:

"It is a well known fact among certain Japanese that it is not unusual to bring immigrants into port for a certain sum of money and then, in fear of getting caught, throwing them overboard and letting them drown. Recently a number of bodies of Japanese sailors have been found floating in the bay with no explanation of their deaths."

MONITOR HAS ARTICLE ABOUT OMAHA'S PARKS

Omaha's thirteen parks are written up in the Christian Science Monitor of May 20. The article is accompanied by two cuts of Hancock park, especially of the apparatus for children's play and of the lake. The article is more than a column in length and gives figures on the cost of developing the park system in Omaha, as well as other figures of interest regarding the city. The article was prepared by the publicity bureau of the Omaha Commercial club.

Culls from the Wire

The strike in Minneapolis of the 300 log wagon drivers and their helpers, in progress during the last week, was settled last night.

Nearly a hundred persons were hurt, three probably fatally, when a section of the temporary grandstand collapsed during the annual field day exercises of the Evansville, Ind., city schools yesterday. Many of the injured were women and children.

The Japanese steamship Komagata Maru, which arrived from Oriental ports with 25 Hindus chartered by a wealthy countryman who seeks to open a way into Canada for many more East Indians, is detained at the Victoria quarantine station because the vessel is without a bill of health from Moji, Japan, the last Asiatic port at which it called.

The steamer W. M. Gilbert, owned by the Pittsburgh Steamship company, was sunk yesterday in a collision with the steamer Caldera, about fifteen miles before Thunder Bay island in Lake Huron. The vessels came together in a fog. Captain Cummings of the Gilbert got all of his crew on board the Caldera before the Gilbert went down. The Caldera was seriously damaged.

The nature and formation of the American Federation of Labor was explained yesterday by its president, Samuel Gompers, before the United States Commission on industrial relations at New York. Mr. Gompers maintained the federation has not now several years of the working day. He declared the federation was not in favor of a minimum wage law because history had shown that when a government attempts to control the most workmen there is a long period of industrial slavery.

Mother's Friend Before Baby Arrives

During several weeks of expectancy there is a splendid external embroilment in our "Mother's Friend" in which thousands of women have the most unbounded confidence. They have used it and know. They tell of its wonderful influence to ease the abdominal muscles and how they avoided those dreaded stretching pains that are so much talked about. This rare external application is gently used over the skin to render it amenable to the natural stretching which it undergoes. The myriad of nerve threads just beneath the skin is thus relieved of unnecessary pain-producing causes and great physical relief is the result as expressed by a host of happy mothers who write from personal experience.

It is a subject that all women should be familiar with as "Mother's Friend" has been in use many years, has been given the most severe tests under most all trying conditions and is recommended by women who to-day are grandmothers and who in their earlier years learned to rely upon this splendid aid to women. "Mother's Friend" is declared by a multitude of women to be what expectant motherhood requires.

You can obtain "Mother's Friend" at almost any drug store. Get a bottle today and write for the little book. Address: Bradford Regulator Co., 412 Lamar Bldg., Atlanta, Ga.
