Period of Warm Weather Has Beneficial Effect on Business.

SEASONABLE FOOD MOVING WELL

Pattures of Week Number 332 in United States, Against 223 Last Year-in Canada 32, Against 34 Last Year. NEW YORK, May 20.-Dun's Review

omorrow will say:

tomorrow will say:

A period of continuous warm weather has had a beneficial effect upon practically all commercial lines and is tending to offset the earlier handicap of backward spring.

The movement of seasonable goods, both at wholesale and retall, shows encouraging increase and most reports indicate that confidence is gaining strength. As yet the usual statistical comparisons do not reflect the current business improvement, gross returns of railroads making returns for three weeks of May being 7.4 per cent less than last year, while bank clearings this week were 5.6 per cent smaller.

Failures this week numbered 32 in the United States, against 228 last year, and thirty-two in Canada, compared with thirty-four.

BRADSTREET'S TRADE REVIEW

Favorable Features of the Week's Industrial Report. NEW YORK, May 25.-Bradstreet's to-

morrow will say:
Good weather, except in parts of the south and southwest; continued active retail demand for spring and summer wearing apparel, improved demand from jobbers and wholesalers for cotton and other dress fabrics, further sales of basic pig iron, good reports on leading crops, excepting cotton, and the heaviest exports of wheat since January 15 constitute distinctly favorable features of the week's trade report. norrow will say:

trade report.

In addition, the optimistic feeling previously noted in financial markets or voiced by leaders of industry seems to have gained force.

For the week: Failures 290, compared with 11s last year; wheat exports 5,793,867 bushels, against 6,083,357; bank clearings, \$2,885,615,000, a decrease of 4.6 per cent.
