Studebaker
ECONOMICAL LIGHT WEIGHT **SIX**
\$1575

Assembled "Sixes" must come down in price.

But they cannot come up to the Studebaker SIX manufactured quality.

The very hugeness of Studebaker SIX production is reason enough.

No car produced in smaller quantities can have manufacturing advantages like Studebaker's.

The largest, most complete laboratory in the automobile industry—one that specifies formulas, analyzes and tests steel constantly, one that determines the exact number and kind of heat treatment required to bring out strength and hardness.

The best organized and most efficient engineering department in the industry—the only one in active charge of car manufacturing.

The finest of foundry and machine equipment in the world. These various factors make the Studebaker SIX the greatest motor car value in the world—at any price.

And no car produced in smaller quantities can possibly enjoy such advantages.

Send for the Studebaker Proof Book, describing Studebaker manufacturing methods.

MILITANT INVADES COURT

Woman Who Disturbed Royal Function is Miss Bloomfield.

OFFICIALS OF PALACE NERVOUS

Incident Not Part of General Plot and Woman Gained Admission in Regular Way—Will Be Barred in Future.

LONDON, June 5.—Miss Mary Bloomfield, daughter of Lady Sarah Louisa Bloomfield, widow of Sir Arthur Bloomfield, was the woman who created the sensational scene at Buckingham Palace last night when she threw herself on her knees before King George and Queen Mary.

Miss Bloomfield alone was concerned in the incident, though her sister, who also attended the court, was requested to leave the palace after the occurrence, despite the fact that she took no part in the demonstration. She left without protest.

Officials of the palace today were on the verge of nervous prostration as the result of last night's scene, and the lord chamberlain's department has taken every precaution to circumvent any attempt to repeat the performance tonight when another function takes place at Buckingham Palace.

Persons in the immediate vicinity at the time declare the whole scene lasted less than ten seconds and the women had only time to ejaculate audibly. "Your majesties! For God's sake—" when she was seized and hustled out of the throne room, finishing the sentence as she went.

Will Be Barred in Future.

King George was the coolest man in the company and the presentations proceeded after the incident with clockwork regularity.

It is understood no further action will be taken against Miss Bloomfield except to bar her from future court functions.

The sisters obtained admission to the ordinary way, through application to the lord chamberlain's department.

The father of Miss Bloomfield was a well-known architect. Her grandfather, the late Dr. Bloomfield, was bishop of London. Lady Bloomfield, who attended the function, explained today that she was looking after a friend when she was present and saw nothing of her daughter's action.

Miss Eva Moore, speaking today at a meeting of the actresses' franchise league, expressed the opinion that Miss Bloomfield's action at Buckingham Palace

must enormously help the women's cause. She said King George and Queen Mary now know that the women mean business.

British Public Is Angry.

Recent disclosures shown by militants to the king and the burning down of many churches have inflamed public opinion to a remarkable degree. People have been still further incensed by what is regarded as the well grounded belief that much of the work of destruction is done by hired hands well paid out of the bulging coffers of the Women's Social and Political Union. Cases have been reported of women leaving other employment to join the militants, not from love of the cause, but "because the pay is better."

Police magistrates have warned suffragette prisoners that if they had not been protected by the police they would almost certainly have suffered at the hands of the irate public. The ugly temper shown by the crowd at recent militant demonstrations seems to support this view.

Greater activity on the part of the government is expected.

BLANKS ARE ISSUED FOR BOOSTING OMAHA GOODS

Printed blanks have been issued for use in the practical boosting campaign for Omaha and Nebraska made goods, recently inaugurated by the Ben Franklin club. Other organizations are joining the movement and their members will purchase and urge their employees to purchase only home-made products whenever practical. The manufacturers' committee of the Commercial club, after investigating the plan, has endorsed it and will co-operate to insure its success. C. E. Corey and B. S. Elrod spoke at the committee's weekly luncheon.

The blanks issued in the campaign are to be used for making reports as to whether or not Omaha made goods are procurable at stores where they are asked for by purchasers.

AN OMAHA LADY SAYS:

"Here's how I prepare the finest tasting dish served on my table: Break one-half of a ten-cent package of

SKINNER'S SPAGHETTI

Into boiling water, boil fifteen minutes, drain and blanch. Add one can Campbell's Tomato Soup, one large green pepper chopped fine, six sliced fresh bacon chopped fine, tablespoonful of butter and one-half cup of cream. Bake ten to fifteen minutes in Casserole.

Try this — It's delicious. Serve Skinner's Spaghetti as a main dish throughout the summer months—cut out the meat—conserve your health. Your grocer has Skinner's—the best brand sold in America.
