A Query.

Jerome S. McWade, the wealthy Duluth connoisseur, said at a recent dinner:

"I spent the winter on the Riviera. The winter fashions were really shocking—shocking, that is, to Comstock minds. Nothing shocks me.

"But in the evening, at the Nice Country club dances, young siris would wear sleeveless gowns that left the back quite bare from the waist up. They could say truly—ha, ha, ha!—that they hadn't a stitch to their backs, eh? And in the afternoon at the dansants young girls would wear gowns that were either slashed to the knee, or else that were a still subtler device— transparent to the knee, permitting the slim and silken limb to gleam through a panel of lace and tulle.

"A western millionaire at the Neurosca tulie.

"A western millionaire at the Negresco, in Nice, on seeing his three daughters in gowns of this radical type, gave a loud laugh one day last winter and said:

"By Jingo, giris, what will you leave off when the hot weather comes?"—New York Tribune.

RECORD OF SPORT EVENTS

Federation Meeting in France is Preparing List for Adoption.

FOR WORLD-WIDE RECOGNITION Conference and Its Action Has Sanction of International Ama-

> teur Athletic Federation.

LYONS, France, June 7 .- For the first time in the history of athletics an official list of world's records to be recognised by all nations was drawn up today by the records committee of the International Amateur Athletic federation, meeting here. It is expected that the list will be adopted early next week,

It is possible, however, that opposition may arise in the case of the discus, in which the committee, having abolished the 8 foot 21/2 inches circle from the rules, has been unable to recognize any record except that of the American, James Duncan, made at Celtic park in 1919, 145 feet 914 inches.

One of the features of the sitting was the elimination of innumerable records for special distances, and also of all records except those made on a track, The record for 400 yards straightaway of forty-two and half seconds made by M, W. Long at Guttenberg in 1900, has therefore been discarded.

The committee decided to eliminate all records above twenty-five miles or forty kilometers, and also records above two in the Fourth Race scenter distances would be exhausting and should not be encouraged.

Except for the first two miles, the race today was more of a procession than when the Resolute led the Vanitie in the second race Wednesday, which the Bristol boat won by eleven seconds.

The yachts will be overhauled during the next three days in preparation for the three open sea contests next week off Sandy Hook,
