WEAK RAILS GREAT MENACE

Expert Places Blame for New Haven Wreck at Westerly.

TRANSVERSE FISSURE IN HEADS

Type of Rail Used by Corporation and Many Others Not Strong Enough to Resist Strain on Them.

WASHINGTON, June 9.—In a report to the Interstate Commerce commission today on the cause of the wreck of the New York, New Haven & Hartford passenger train near Westerly, R. I., October 25, 1912, H. W. Belnap, chief inspector of safety appliances, finds that derailment of the train was due to a broken rail. The wreck resulted in the injury of seventy-four passengers and three employees.

Mr. Belnap declared investigation had shown that the fractured ends of the New Haven train by reason of the presence of transverse fissures in its head, caused by "high wheel loads with their attending strains."

The inspector further reported that the presence in the New Haven track and continued use of rails of the same or similar construction and exposed to the same service conditions "is a source of danger."

WILL NOT DEMAND WAR INDEMNITY FROM MEXICANS

(Continued from Page One.)

Everything that has been advanced by the American delegates in their proposals for peace has been contingent upon ultimate constitutional approval, so that there is a confidence in many quarters that agreement with the constitutionalists will not be a difficult task, even if they do not join the conference. The mediators are confident today of reconciling the counter proposals of the American delegates with those of the Mexicans.

The Antilla incident is not entirely closed, but it has passed the danger stage and cannot disrupt the proceedings.

After a long conference between the mediators and the Mexican delegates it was learned that the counter proposals of the United States were not entirely satisfactory, but the Mexican delegates expressed confidence that in a few more conversations the points of disagreement would be adjusted.

WON'T DENY CABINET TO GO

Blanquet Declines to Make any Statement as to Resignation.

MEXICO CITY, June 9.—(Delayed in Transmission.)—General Aureliano Blanquet, minister for war, when questioned tonight concerning rumors as to the resignation of the Mexican cabinet and whether there was any truth in them, as far as he was concerned, declined to make any statement.

In reference to the proposed blockade of Tampico by the federal gunboats, General Blanquet said that although it had been suspended, the original decree had not been rescinded. He declined to comment on dispatches from Washington stating that the American government would not recognize the blockade.

A presidential decree suspending the federal blockade of Tampico appeared in this evening's issue of the Diario Oficial.

It declares that as the Mexican delegates to the mediation conference at Niagara Falls are negotiating for the maintenance of the condition of things established when mediation was instituted with respect to the receipt of arms and ammunition by the constitutionalists, the decree establishing the blockade of Tampico is declared in abeyance.

General Blanquet would not discuss the reported evacuation of Guaymas by the federal troops under General Joaquin Teller.

General Ignacio Morales Zaragoza, with the federal troops, who defended Tampico so long against the constitutionalists, arrived today at Pachuca, capital of the state of Hidalgo, three hours' journey by rail from the federal capital.

Provisional President Huerta today reviewed the natural guards and lancers in Chapultepec park. He was accompanied by Dr. Ignacio Alcocer, minister of the interior, and General Carlos Rincon Galardo, chief of the rural guards.

TAMPICO, Mex., June 9.—(By way of Brownsville, Tex., June 8.)—President Huerta's so-called bloodless squadron, which arrived at Tampico this morning, vanished from view this evening without having an opportunity to establish officially the proposed blockade against this port.

The two Mexican gunboats, the Bravo and the Zaragoza, hoisted anchor and steamed southward at 4 o'clock, accompanied as before by the American cruiser Tacoma, and the gunboat, Sacramento. Their destination was not stated, but it was supposed to be Coahuacalcoas.

Immediately after arrival of the Mexican gunboats this morning, Rear Admiral Mayo, in command of the American naval forces here, summoned the captain of the Zaragoza aboard the battleship Minnesota and informed him that instructions of the utmost importance had been received from Washington, with orders to communicate the same to the Mexican commander.

Details of these instructions were not revealed, but it is understood they informed the Mexican captain that the Washington government would not permit any interference with the traffic of the port nor permit the Mexican gunboats to enter the Panuco river.

The only communication from shore with the gunboats occurred during the afternoon, when a tug went out to the Zaragoza with constitutional officials, who offered the proposition that both vessels transfer their allegiance to the constitutionalists.

Amunition is Held Up. WASHINGTON, June 9.—At the cabinet meeting the question of amunition reaching the constitutionalists from the United States was the chief subject of discussion and Secretary of Commerce Redfield was directed to hold up at Galveston the cargo of arms consigned to Carranza's agents, which is enroute to the Texas port on the Morgan liner El Sud. The ship cleared for Galveston and is to tranship the cargo to a ship of the Wevlin line for Tampico. As Secretary Redfield left the White House he said he would at once notify the customs officers at Galveston to hold the amunition there.

more that the Hamburg-American liner Arcadia was loading there 10,000 worth of amunition consigned to Hamburg. The collector reported that he believed the consignment notice was a subterfuge and that the amunition actually was destined for Mexico.

As to the Antilla there was considerable discussion in the cabinet and it was declared no directions had been sent relating to permitting it to land its cargo of amunition at Tampico.

Carranza at Saltillo. SALTILLO, Coahuila, Mexico, June 7.—(Via El Paso, June 8.)—General Carranza was given a tremendous ovation upon his arrival here tonight. The constitutionalist commander was dined by General Carranza at the residence of the eastern military zone, who arrived before Carranza from Monterey, which he captured.

Britten Would Put Crimp in Going Out on Lecturing Tours

WASHINGTON, June 9.—Secretary Bryan's lecture tour dropped up in the House today again, when Representative Britten of Illinois, republican, introduced a bill to make it a penal offense for any cabinet officer, head of clerk of a government department to lecture for pay, other than actual hotel and traveling expenses and to prohibit senators or representatives from lecturing for pay while congress is in session. Offenders would be fined \$5,000 or imprisoned for two years or suffer both penalties.

Mr. Britten launched a broadside in a statement accompanying his bill in which he spared no political party, and included Senator La Follette and Representative Murdock.

"This bill was prepared last September, but was not introduced when Secretary Bryan formally declared that he would lecture no more during the period," he said in his statement.

"I am at a loss to understand how the secretary can consistently leave his office when a state of war practically exists between this country and Mexico and the foreign policy of our government is being laughed at by every civilized nation on earth. This certainly is no time for Mr. Bryan to be hiking around the country doing one night stands with Tyrolean yodlers, contortionists and sleight of hand artists and I am equally opposed to members of congress doing this sort of thing when congress is in session."

South Dakota is Hit by a Bunch of Small Tornadoes

HURON, S. D., June 9.—Eight tornadoes about ten miles north and northwest of Westington this afternoon damaged farm buildings. Twisters near Sheffield and southeast of Huron also did much damage. Heavy rains have fallen here, nine inches in a week, and the town is flooded.

Farmers in the vicinity of St. Lawrence and Miller, west of Westington, are reported to have sustained heavy property damages. Some live stock was killed, but the most serious damage was caused by the destruction of buildings.

Reports of slight crop damage due to the heavy rains of the last week were received from some districts.

Although wire communication was uncertain tonight it was not believed deaths resulted from today's storms.

ST. PAUL, Minn., June 9.—Severe wind and rain storms visited sections of Minnesota, western Wisconsin and North and South Dakota late today and tonight, overturning barns, destroying small buildings and putting out of commission telegraph and telephone wires, according to reports received here.

A tornado struck Truxav, Wis., tonight, demolishing several buildings. No one was injured.

Notes from Beatrice and Gage County

BEATRICE, Neb., June 9.—(Special.)—Charging her husband with extreme cruelty, Zoe Wallin of this city Monday filed her petition in the district court, asking that she be granted a divorce from James Wallin, who formerly traveled out of this city. She asks for the custody of their three minor children and \$50 a month alimony.

Earl Nance of Rusk, Neb., who had just finished a course at the Northwestern business college, died at a local hospital Sunday, aged 21 years. The body was taken to Rusk Monday for interment.

F. W. Acton, deputy sheriff, Monday filed for the republican nomination for sheriff of Gage county.

Lesam Baer of Lincoln and Miss Blaine Mahoney of this city were married at Omaha Sunday. After a wedding trip of a few weeks they will make their home at Lincoln.

A large barn on the W. P. Bryson farm east of Adams was struck by lightning this morning and burned to the ground, with all its contents. A large amount of alfalfa was consumed and two large concrete silos, which had just been erected near the structure were damaged.

Mrs. Leander Gell, who located in the vicinity of Adams in 1877, died Monday at Adams, aged sixty-eight years. She is survived by three children, two daughters and one son.

COUNTERFEITING OUTFIT IS FOUND IN A BARN

(From a Staff Correspondent.) LINCOLN, June 9.—(Special.)—As a result of finding a counterfeiters' outfit in a barn belonging to Frank J. Sieck of University Place last night, Sheriff Gus Myers wired United States Service Agent Hugh B. Mills of Omaha and he arrived last night and took charge of the outfit, which consisted of a bucket of metal, some moulds and a few coins of different denominations.

Sieck, who is out on bail awaiting a hearing of his case before the supreme court for complicity in the robbery of a couple of farmers in Lancaster county, denies any knowledge of the stuff and said that the mould, which was made from a couple of pieces of 2x4 scantling, held together with a hinge and holes bored in them for the moulds, had been in his possession for two years, but did not know the nature of the thing, as it had lain around the barn and he never took the trouble to examine it.

Everybody reads Bee Want Ads.

Salesman's Effort to End Life Foiled

(From a Staff Correspondent.) LINCOLN, June 9.—(Special.)—L. H. Heilbroner, a traveling salesman from the New York fur house of Kay & Epstein, 25 West Thirty-second street, was found lying in the aisle of a coach on Burlington train No. 2 from Hastings this morning with his throat cut.

He was picked up and when the train reached Lincoln, was taken to a local hospital, where he is resting nicely and it is not thought that the wound will keep him there very long.

Heilbroner could not account for his action in cutting his own throat, which he admitted, only that he had been suffering from the blues and in a fit of despondency slashed his throat with a razor. Further than that he would say little.

No Training of Dogs in the Closed Season

(From a Staff Correspondent.) LINCOLN, Neb., June 9.—(Special.)—In the future Chicago sportsmen who want to come to Nebraska and train their birds will have to do it on the quiet or the game warden will make an example of them. It is said that in past years Chicago sportsmen who desired to give their dogs special training in hunting prairie chickens, have come to the state and during the closed season have trained their dogs out in the sand hills, but Game Warden Rutenbeck has notified them that the practice must cease as it is just as much of a crime to possess the birds as it is to kill them.

Summer Term Opens. KEARNEY, Neb., June 9.—(Special.)—The summer term of the Kearney State Normal school opened in this city Monday, and from the first day's registration it is evident that the school will enjoy the largest enrollment ever attending a summer session. All of the homes of the city are being thrown open to the

students and additional provisions have been made by the school officials for caring for the summer boarders. The enrollment for the summer term will reach close to the 1,000 mark before the end of the week, judging from the inquiries and the number already enrolled.

Postmasters Visit the Western League

(From a Special Correspondent.) LINCOLN, Neb., June 9.—(Special Telegram.)—The democratic national administration on has not worked such a change in the personnel of the Nebraska postmasters' convention. Quite a number are left whose faces are familiar to those who have been in the habit of attending conventions of the postmasters. There are not as many new faces as some people think there ought to be.

Very little was done at the first session of the postmasters' gathering of the state which convened today. Addresses of welcome and speeches incident to the opening were given and then the postmasters and their women attended the Lincoln-St. Joseph base ball game at Antelope park. This evening they were entertained at a cabaret dinner at the Commercial club rooms.

Tomorrow the convention will start out with the program as arranged.

Runaway Bride Makes Explanation

BEATRICE, Neb., June 9.—(Special.)—Miss Anna Novotny, a school teacher of Virginia, who disappeared last week from her home on the eve of her marriage to a young man named Fisher, has written to her parents from Narika, Kan., giving as her reason for leaving that she was not ready to get married because she loved her school better than anything else. She says she will remain at Narika for the present.

Studebaker
ECONOMICAL LIGHT WEIGHT **SIX**
\$1575

There is more car value in the Studebaker SIX than in any other "SIX."

Because we manufacture a larger proportion of its parts than any other manufacturer produces for his car.

Every piece of steel used in it is made by a special Studebaker formula, and all parts are heat treated from two to four times during manufacture.

We actually create greater value in the Studebaker light-weight SIX's parts than the makers of assembled "Sixes" can buy.

We can afford to embody highest quality in each of its parts because Studebaker builds 50,000 cars. Each car carries only one fifty-thousandth of the Studebaker overhead expense.

We are content with a smaller manufacturing profit per car, because our large production even matters up.

Send for the Studebaker Proof Book, describing Studebaker manufacturing methods.

PLUMBERS PUT UP BOND

President of Iowa Association is First to Respond.

COURT GIVES UNTIL JULY 7

Voting Machines Opened in Des Moines to Ascertain Correctness of Count and They Are Found to Be Correct.

(From a Staff Correspondent.) DES MOINES, Ia., June 9.—(Special Telegram.)—Robert Knauer, president of the Iowa Association of Master Plumbers, and his son, R. E. Knauer of Boone, are the first of the thirty-six master plumbers indicted for conspiracy by the federal grand jury, to put up bond. Both men came voluntarily to the federal building and put up the \$2,000 bond that is required in the cases.

All of those indicted have until July 7 to put up bonds for their appearance at the full term of the district court.

Voting Machines Correct. A controversy having arisen as to who was nominated for democratic candidate for congress in this district, the board of supervisors today ordered examina-

tion of machines in two precincts of Des Moines to see if the count had been properly reported and found that no mistake had been made. The recount of ballots in some other counties may affect the result. In one ward of Winterest a recount showed fourteen less majority for John Mulvaney over C. S. Coater, the latter making the demand for recount.

Four Men in Race For Dem Nomination

(From a Staff Correspondent.) LINCOLN, Neb., June 9.—(Special.)—The filing of Richard L. Metcalf for the democratic nomination for governor reached the office of the secretary of state late yesterday afternoon and is now snugly reposing in the filing box in the secretary's desk.

The petition which accompanied the filing contains the names of twenty-eight Douglas county democrats who are responsible for the filing. The first name on the petition is C. G. Cunningham, while others are Senator John H. Grossmann, C. S. Montgomery, William F. Baxter, George A. Mazner and John A. McShane.

This makefour candidates for the democratic nomination, Governor Morehead, John G. Maher and George W. Berge being the others.
