The leading "LIGHT SIX" for 1915

The new profit-sharing price

Ten per cent more power and many refinements

TATE announce the new 1915 Chandler at a new profit-sharing price. \$1595. Deliveries will begin at once. Our first shipment is here now.

Even at the 1914 price of \$1785, the Chandler pione of all the light sixeswas an unapproached value.

Refined in many details, embodying marked improvements, and with more power, what of its leadership now, for 1915, at this new price!

Search far and wide, and you cannot find like value in any other car at any similar price.

There are no radical changes in the Chandler design for 1915. There could not be, for the Chandler had already attained seemingly the ultimate in engineering. Owners all over America declared they could not hope for better service from any car.

Come see the Chandler. Come drive it.

There are no experiments in the car. But, throughout, we have effected refinements. We have added 10% to the power.

Our engineers and designers have perfected many improvements.

The 1915 pure streamline body, sweeping in unbroken lines from the bow of the tonneau to the deep Mayo radiator, makes the Chandler the last word in motor car beauty.

And the Chandler company prosperous because of the mechanical perfection of its product and freedom from expensive experimental work and changes, and because of its low overhead expense—is dividing its profits with Chandler purchasers. This fact, and this only, makes possible the new 1915 price, \$1595.

We have never conducted our business on such a plan.
