"A Woman's Dress is a revelation of Her Character."-- Anne Heaton Channing.

NEVER has there been a period when a woman has had such numbers of style ideas with which to express her tastes. From the stormy days of the early Louises to the times of Grant and Lincoln there is no country, no period whose influence has not been felt.

DRESSES are the most adaptable to all these style suggestions, and they are most in demand for wear at this time of the year.

IN TUNICS, in flounces, in drapes and in severe effects, we are making our Summer Exposition and at prices you will find decidedly moderate.

Newton Crane of the American society in London and a number of other Americans.

AN OLD-TIME SWELL BALL

San Francisco's High Society Function at Hundred Dollars a Ticket.

San Franciscans of today are justly proud of their reputation for hospitality, but our fathers were not so slow, for they laid the foundation of the reputation we are maintaining when they gave a ball and banquet admission to which was by ticket at \$100 each. The time was the night of November 17, 1883, the event celebrated the visit of a Russian squadron and the place was Union Hall, located on the south side of Howard street, between Third and Fourth streets.

Workmen's Compensation Law in Iowa to Have This Effect.

REDUCES NUMBER OF LAWSUITS

One-Fifth Cases Now Being Filed Will Be Settled Automatically When the New Act Goes Into Effect.

(From a Staff Correspondent.) DES MOINES, Ia., June 13.—(Special Telegram.)—Assertion is made here that by reason of the workmen's compensation act the number of lawsuits needed for doing the business of the courts in Des Moines may be reduced by one.

It is found that far more than one-fifth of the business of the courts relates to damage cases that will be impossible when the act goes into force and all business is on the new basis.

Steps are already being considered to reduce the number of judges if results are as expected.

TWO DEAD, TWENTY HURT

Eastbound Santa Fe Limited is Wrecked at Bagdad, Cal.

O'RENDORFFS AMONG VICTIMS

Prominent Canton, Ill., Manufacturer and His Wife Are Injured—Smoker Telescopes the Dining Car.

LOS ANGELES, Cal., June 13.—Two persons were killed and twenty-three injured in the wreck last night at Bagdad, Cal., when an east-bound Santa Fe limited train ran into an open switch and crashed into a freight train on the siding. Seventeen of the injured and the bodies of B. M. Cram and Charles Beldin of San Francisco, the two men killed, were brought here aboard a special train today.

The names of some of the injured follow:

E. Barrows, train conductor, injured internally.

U. G. Orendorff, Canton, Ill., body bruised.

Mrs. U. G. Orendorff, bruised about head.

Olivia Cunningham, Oakland, Cal., bruised.

Mrs. G. Zinnow, Hamburg, Germany, injured about head, serious.

Mrs. J. A. Hinman, Yokohama, Japan, left arm broken.

Frank Stokes, dining car conductor, left leg crushed.

A. Miller, Pullman conductor, slightly bruised.

It was reported a railroad headquarters that the wreck was caused by an open switch leading into the siding on which the freight train stood to let the limited pass.

Bagdad is a little station in the desert, 23 miles from Los Angeles. It is a sink, nearly 500 feet below sea level, and limited passenger trains do not stop there. The train therefore was traveling at high speed when it ran into the open switch and crashed into the forward end of the freight. A composite smoker telescoped the dining car of the limited. It is not known whether Cram and Beldin, the two killed, were in the smoker or the dining car, but all the injured were in the dining when the crash occurred shortly before 8 o'clock last night.

U. G. Orendorff, who was injured in the wreck, is a wealthy manufacturer and newspaper publisher of Canton, Ill.

Fainting Bertha Leaves Bluffs Upon Suspended Sentence

"Fainting Bertha" Lieboke came near throwing a genuine faint in the Council Bluffs police court yesterday, when Police Judge Snyder imposed a sentence of one year in the county jail, with a \$300 bond attachment.

There was no answering assurance in the looks of the police court habitués and Bertha and the genuine faint were very close together. The incident was averted, however, when Judge Snyder concluded the sentence by declaring the order would be suspended long enough to permit Bertha to get out of town.

The scene was in touch early today with Huerta's commissioners at Niagara Falls, and also in communication with Mexico City by telegraph.

Constitutionalists agents were silent on the protocol, but C. A. Douglas, one of Carranza's legal representatives, conferred at length with Secretary Bryan.

Search for President. NIAGARA FALLS, Ont., June 13.—A search for a man to take the place of Huerta as provisional president of Mexico today occupied the mediators, following the signing of the first of a series of protocols.

HUERTA ENGAGES COUNSEL

Former Senator Towne is Attorney for Dictator in Washington.

FIRST PROTOCOL IS SIGNED

American and Mexican Delegates Agree Upon Plan for Appointment of a Provisional President.

WASHINGTON, June 13.—While officials here today expressed great satisfaction over the signing of the protocol in the Mexican peace negotiations at Niagara Falls, satisfied that it means the elimination of Huerta, it developed General Huerta has engaged counsel to represent him here, and that through this agency he is constantly in touch with the Washington government and developments at Niagara Falls.

Charles A. Towne of New York, former United States senator from Minnesota, is General Huerta's counselor, and during the last few days he has conferred with Secretary Bryan and has been in communication with President Wilson over the development of the plan whereby it is proposed to transfer the Mexican government from Huerta to a provisional regime.

Mr. Towne declared today that the signing of the protocol was a hopeful sign of a satisfactory settlement being reached, but he looked upon today as the most critical one since the mediation conference began.

Mr. Towne was in touch early today with Huerta's commissioners at Niagara Falls, and also in communication with Mexico City by telegraph.

Constitutionalists agents were silent on the protocol, but C. A. Douglas, one of Carranza's legal representatives, conferred at length with Secretary Bryan.

AMES COLLEGE GIVES DEGREE OF DOCTOR OF SCIENCE TO WILSON

AMES, Ia., June 13.—(Special.)—The state of Iowa honored itself in honoring one of its sons when Iowa State college in the person of president R. A. Pearson conferred the degree of doctor of science upon James Wilson, farmer, legislator, professor, investigator and for sixteen years cabinet officer, at the forty-third annual commencement exercises of Iowa state college in the college gymnasium last Thursday morning.

The scene was a most brilliant one at which 273 persons received collegiate degrees and forty-five were awarded certificates and diplomas. Governor Clarke, Attorney General Cosson, President D. R. Murphy and several members of the state board, James Wilson, President Pearson, the dean and almost a hundred members of the faculty were present robed in academic black and here and there a flock of colors of a master's or doctor's degree—the rostrum presented an imposing picture. The members of the senior class, also in academic black, filled the first third of the seats in the gymnasium.

Four thousand people crowded the gymnasium almost to its capacity.

Dean Albion Woodbury Small of the University of Chicago in the commencement address gave the graduating class some common sense wisdom phrased in the language of the "game." He told them to "get busy in the game," to "deliver the goods" and to be on the lookout for a chance to make a "sacrifice hit" to help some one along the way.

Farmer Secretary Wilson received an ovation when he arose to accept the degree of doctor of science from President Pearson. Not until he raised his hand for silence did the applause cease. He told of his connections with the college and of the appreciation to him in noting the growth of the institution in the last few years.

Governor Clarke urged the graduates to become public minded, to have a mind for the affairs of the state which had made their education possible.

Huerta Not Mentioned. The language of the protocol purposely uses the phrase, "which shall be recognized in Mexico City," without specifying by whom, so that in another protocol recognition will be promised by the United States as well as the mediating countries—Argentina, Brazil and Chile.

The first protocol is the only one which will deal with the method of transfer. It omits the reference to constitutional succession through the appointment of a minister of foreign affairs, which the Mexican affidavits had suggested. By its simple affirmative statement that a government shall arise in Mexico City on a certain date there is no prohibition of any particular way by which the transfer shall be accomplished, but it is explicitly understood that the appointment by General Huerta of the man selected here is one process to which the United States objected and which will not be put into effect.
