Importance was attached to a further break in foreign exchange rates as a builts factor. Demand sterling dropped to 4.850, after having touched 4.8905 earlier in the week.

Crop news was of the same favorable character as during recent weeks. Reductions in steel and copper prices were reported in some instances, but the stocks in these groups were as firm as the remainder of the list.

In the bond market there were wide fluctuations. Missouri Pacific convertible as lost 2 points, but later recovered haif of their decline. Rock Island debentures and international seam pumps 5a were exceptionally strong. Chicago & Indiana Coal railway is collapsed, falling 24 points to 61. The slump was attributed to uncertainty over the payment of July interest on the bonds of this company, which is controlled indirectly by the St. Louis & San Francisco. The seneral bond market was irregular, total sales par value, \$1,820,000, United States bonds were unchanged on call. Number of sales of stock and leading quotations were:
