"Why did I resign" His reply, which he also insisted should be written down, was:

"I resigned the presidency because I believed that after having arranged international affairs my duty was to give this last proof of my devotion to the sons of the republic. Also I was convinced that my resignation would serve as a means of conciliation between all the sons of the republic."

The second self-naked question was: "Why are you leaving the country while you are still able to serve her?"

It was answered as follows: "My departure from the national territory has no other cause than to leave the new government an ample field for action. I also believe my continuance here would give rise to conjectures which would result in prejudicing the proceedings of the new government. I declare o the world that the line of conduct I have always followed had no other object than my heartiest desire for pacification of the country." General Huerta dropped his cigarette
