Stock Cars Being Fixed Up to Haul Grain to Market

All of the railroad freight men anticipate something of a shortage of freight cars when the heaviest of the grain movements starts, but according to their version they are going to be able to supply a much larger quantity of equipment than ever before.

Sorenson Is Still Making the Race

In the list of candidates for office this fall, published in The Bee Sunday morning, in some way the name of Al Sorenson, candidate for congress from the Omaha district, was omitted. On account of the omission, Mr. Sorenson is a bit peeved, contending that as his name did not appear, his friends will think that he is no longer a candidate.

Biggest Day of the Season on Omaha Grain Exchange

Despite Lack of Rain Corn Shows Wonderful Growth.

SMALL GRAIN IN GOOD SHAPE

Wheat and Oats in Nebraska Are Reported Harvested, with the Threshing Under Way for Heavy Yield Per Acre.

The crop and soil reports of the railroads for the week ending Saturday night indicate that while there was little rain in Nebraska last week, even with the hot weather the corn crop was not damaged in the least, but instead, made a most wonderful growth. The Burlington in its exhaustive crop report gathered from data supplied by the stations throughout the state estimates the condition of corn as follows, the estimate being based on the ten-year average:

THREE-YEAR GARBAGE DEAL

Commissioners to Enter Into Contract for Garbage Disposal.

WANT AN INCINERATION PLANT

But No Funds Are Available So the City Dada Say They Are Forced to Do Next Best Thing Under Circumstances.

A three-year contract for the disposal of city garbage will be entered into between the city and the Omaha Trenching and Feed company, if the action of the city commission in committee of the whole is formally endorsed. The company asked for a five-year contract, but opposition to any contract for more than one year forced the compromise.

Commissioner A. C. Kugel, Mayor Danman and Commissioner J. J. Ryder argued the question of the length of the contract. Mr. Kugel at first opposing any contract for more than a year, and the mayor and Mr. Ryder favoring a three-year contract.

"This is the only proposition we have," said Commissioner Ryder. "I know of my own knowledge that conditions now are more satisfactory than they have been for years. It's all right to have a theory and oppose contracts on franchise generally, if that is the way you feel, but here we are up against a serious, practical proposition."

"I am going to vote for a contract," said the mayor, "because it is the only thing we can do. If you have any other proposition, Mr. Kugel, put it up to us now."

Commissioner Kugel suggested putting the garbage in holes in vacant lot or burying it on property which might be used for that purpose by permission of the owners, but this suggestion did not meet with much favor.

Finally Commissioner Kugel moved that a three-year contract be entered into, although the representatives of the company at first said only a five-year contract would be considered.
