COVELESKIE BEATEN IN FIRST

Highlanders Capture Second by Scoring Seven Runs Off Dubuc in the Fifth Inning of Contest.

NEW YORK, July 22.—New York took a doubleheader from Detroit today by scores of 3 to 1 and 8 to 5. Coveleskie, who shut out New York twice earlier in the season, was defeated in the first game for the second time in two days. He pitched good ball today, but Caldwell was his master, an error in the second inning depriving the local star of a shutout.

The Yankees won the second game by scoring seven runs off Dubuc in the fifth inning on a double, three singles, a hit batsman, two errors, a wild pitch and a sacrifice fly. Cole was knocked out of the box in the third inning. Pieh, who replaced him, was also hit hard, but Detroit could not bunch hits on him. Crawford made a home run and three singles in the second game. Bostons in Second Place.

BOSTON, July 22.—Boston went into second place in the American league race today by a double victory over St. Louis. The scores were 5 to 3 and 6 to 2.

The first game was a close one. St. Louis scored one run at the outset. The Red Sox went ahead with two runs in the same inning, gained on heavy hitting and the Browns tied the score in the second, when Howard, who had doubled, raced home from secon base on Ware's bunt. Boston got a lead again in the third on Speaker's second and an error by Ware.

In the sixth St. Louis tied the score once more, but the Red Sox in their half of the inning added two runs on Lewis' double, Janvrin's single and Shotten's error. In this game Foster started to pitch for Boston in his first game for several weeks, but gave way to Bedient after the second inning.

By timely hitting in the second game the Red Sox kept always ahead and the result was never in doubt. Score, first game:

New York Americans Buy Player Kraft

NEW YORK, July 22.—President Farrell of the New York American league club announced today that he had purchased Clarence Kraft, over whom a threatened strike impended early yesterday, from Charles Ebbets of the Brooklyn and Newark clubs. He stated that Kraft, who is in Providence today with the Newark Internationals, would report here tomorrow and play first base in the game against Detroit at the Polo grounds. The particulars of the transaction were not stated.

KRAFT WON LAST GAME IN WHICH HE PLAYED

NEW YORK, July 22.—Clarence O. Kraft, the base ball player whose refusal to go to Nashville almost caused a strike of major league ball players, left Newark last night to join the Newark team in Providence, and in all probability will be in the game today. The strike was averted yesterday when Charles Ebbets of the Brooklyns paid the Nashville club $2,500 for its claim to Kraft.

"I am glad the case has been settled," Kraft said, "and I will try to show the fraternity members that I appreciate what has been done for me, and also to Ebbets for his part in settling the affair."

Kraft has been in Newark for about two months. He was sent over by Charles H. Ebbets to bolster up first base for the Indians. He played the position well and was improving in his work when he was ordered out. In fact in his last game, which was against Baltimore, he won the contest by a home run with the bases full.

Southern Railway Said to Imitate New Haven Methods

WASHINGTON, July 22.—Charges that purchases of branch lines by the Southern railway were comparable to the New Haven transactions were made today by B. L. Dulaney of Bristol, Tenn., before the senate committee investigating charges that the railroad discriminates against Charleston and other southern ports at the behest of a coal trust.

"These deals show how millionaires are made," declared Dulaney.

Chiefly his charge rested on what he said was the sale of the Virginia & Southwestern to the Southern by H. K. McHarg, a director in the latter, at a profit of $4,000,000. Dulaney said he, as a member of a company owning the Virginia & Southwestern, offered control of the stock to the Southern for $500,000, with $1,000,000 bonds outstanding. Later, he said, McHarg sold it to the Southern for approximately $6,500,000. The Knoxville & Bristol, Dulaney said, offered to him for $40,000, was later sold to the Southern for about $500,000.

Man Charged with Four Murders Cuts His Own Throat

BOSTON, July 22.—Lawrence Robinson, charged with the murder of Police Inspector Thomas J. Norton, committed suicide last night by cutting his throat with a steel shank which he had removed from one of his shoes. Since the opening of his trial he had been confined at night in a room of the court house.

Robinson was accused of shooting Norton while resisting arrest in the Boylston cafe on June 19. Robinson was wanted in Grand Rapids, Mich., for the killing of three clerks in a jewelry store during a robbery.

Robinson was placed on trial on Monday and taking of testimony was to have begun today. Several witnesses from Michigan and Ohio were on hand to testify.

MAN WHO SHOT FELIX ANDERSON SURRENDERS

ST. LOUIS, July 22.—Edward Koenig, who for four days had been sought by the local police in connection with the shooting of Felix E. Anderson, assistant to President W. S. McChesney of the Terminal Railroad association, surrendered to the police in a lawyer's office today.

To Chief of Detectives Allender, Koenig admitted he had shot Anderson and said he did so because "they had conspired to ruin and kill me." Asked to define "they" he answered incoherently. Allender expressed the belief that Koenig either is insane or feigning insanity.

"I left the railroad voluntarily several years ago," said Koenig, "but when they gave me 'clearance papers' they read that I had been dismissed. This prevented me from getting work anywhere else. I begged and begged in vain that the company reinstate me or give me correct clearance papers."

Koenig denied he was connected with the Industrial Workers of the World."

He was finally rescued and the flames extinguished, but physicians called to dress his wounds declared that he is burned so severely that it is doubtful if he will recover.

GRAIN AND PRODUCE MARKET

Spring Wheat Crop Now in Balance, with Many Possibilities.

CORN VERY MUCH UNSETTLED

Yellow Cereal is Up and Down and with Condition's in Corn Belt Varying it is Hard to Tell Where Cereal Stands.

OMAHA, July 22, 1914.

The spring wheat crop is now in the balance. There are many possibilities surrounding it and because of this fact speculation has at the moment dwindled to much smaller proportions. The old-time bears are growing of the black rust reports that are coming forward. They not only hear that to put out short lines will cause loss, but many of them were on the buying side in a most liberal manner yesterday. One of these was John F. Barrett and his following, as well as someone doing business through the house of Kidston and other concerns. It looked as if the bears have played that side of the market to a standstill until such time as conditions in the spring wheat country become more favorable, if they are to change in that direction.

One of the best crop experts reiterated the claim made of losses by black rust and blight in parts of the Dakotas. These reports were given considerable attention as well as credence. They claimed that deterioration has been marked in some sections and that former estimates must be reduced in order to get near the actual result.

Producers of grain in that section of the spring wheat country where deterioration has been pronounced say losses have been caused by blight and not black rust; that the latter exists in many directions, but that the plant is too far advanced for the disease to do great damage.

Corn was irregular and unsettled, with prices ⅛c lower to ¼@⅜c higher. Conditions in the corn belt varied. Some sections reported prospects as good while others claimed that rains are needed. Weather in Argentina is unfavorable and prices at Buenos Ayres were up ¼@1⅛c. Country offerings at Chicago small. Cash demand fair, with sales of 175,000 bushels and vessel room was chartered for 50,000 bushels.

Oats were ⅛@¼c higher on September and December and unchanged for July and May. The market was active, with shorts in the lead as buyers. Cash sales were 200,000 bushels.

The weakness in lard was the feature as well as the factor in the provision market yesterday. It was the controlling influence and caused the entire list to ease off somewhat.

Wheat was unchanged to ⅝c higher.
Corn was ½c higher to 1c lower.
Oats were ¼c lower.

Clearances were: Wheat and flour, equal to 1,783,000 bushels; corn, 1,000 bushels; oats, 390,000 bushels.

Liverpool close: Wheat, ⅝@½d higher; corn, ¾@1¼d lower.

Primary wheat receipts were 3,285,000 bushels and shipments 1,745,000 bushels, against receipts of 2,228,000 bushels and shipments of 691,000 bushels last year.

Primary corn receipts were 510,000 bushels and shipments 328,000 bushels, against receipts of 560,000 bushels and shipments of 540,000 bushels last year.

Primary oats receipts were 822,000 bushels and shipments 621,000 bushels, against receipts of 790,000 bushels and shipments of 684,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 22.—Black rust and heat spoiling the outlook for even an average yield in the spring crop belt made the wheat market today tend to soar. The close was firm, ⅞@1c to 1⅛c above last night. Corn showed a net advance of ⅛@⅝c to ⅝c, and oats finished ¼c off to ⅛c up. In provisions the outcome ranged from 22½c decline to a gain of 2½@5c.

It was generally admitted for the first time that all prospects of a big crop of wheat this year in the northwest was gone. Some experts contended that the yield in Minnesota and the Dakotas would prove to be far below normal, and there seemed to be no doubt that virtually the whole territory throughout the three states named had been overspread to a greater or less extent by black rust. On the other hand, there was high authority for an opinion that a big loss from what had been hoped for the spring wheat harvest would yet equal an average, although some sections would be hit hard.

Houses that do much of the export business here were conspicuous buyers of wheat throughout the session. Belief prevailed that many of them had missed their mark. In this connection a decided falling off in acceptances from the country helped prevent any reaction in prices, and so, too, did bullish crop reports from Russia and Canada.

Predictions that the United States government should stop altogether the importing of damaged corn from Argentina put strength into the corn market. Complaints of drouth continued, but were offset in part by news of scattered showers. There was a noticeable scantiness of receipts. Hedging sales kept the oats market relative weak. New crop holders were said to be letting go freely.

Pork and lard broke, unloading some of the principal longs. Ribs at one time received support.

CATTLE—Receipts were very light this morning, only 54 cars being in sight; still, this leaves the receipts for the three days this week at 9,000 head, the largest of any similar period since three weeks ago, and larger than a year ago by 1,000 head.

Buyers were out in good season in the morning and everything in the way of desirable killers changed hands in very good season at fully steady prices. Buyers were claiming that, taking quality into consideration, cattle were really higher than yesterday. While there was nothing fancy in the yards, there were cornfed cattle good enough to bring $9.60.

Good dry-lot cows and heifers were in good demand at firm prices, but grassy stock was none too active, although selling just about as well as yesterday.

There were very few stockers or feeders in sight, but what there were commanded steady prices.

Quotations on cattle: Good to choice beef steers, $9.25@9.75; fair to good beef steers, $8.75@9.25; common to fair beef steers, $7.75@8.75; choice to fancy cornfed heifers, $8.00@9.00; good to choice heifers, $7.00@7.75; good to choice cows, $6.50@7.40; fair to good grades, $5.50@6.50; common to fair grades, $3.75@5.50; good to choice stockers and feeders, $7.75@8.25; fair to good stockers and feeders, $7.00@7.50; common to fair stockers and feeders, $6.25@7.00; stock cows and heifers, $5.00@7.00; stock calves, $7.00@8.00; veal calves, $7.50@10.50; bulls, stags, etc., $5.25@7.65.

HOGS—Receipts were moderate for a Wednesday, only 117 cars, or 7,700 head, being received. For the week the total is 23,187, being 1,500 smaller than last week and 200 short of the corresponding period last year.

With local receipts moderate and other markets all reported strong, shippers and speculators bought rather freely this morning at prices that were strong to in some cases a nickel higher, tops again reaching $8.95.

Packers were very bearish again, however, and after laying out for the best part of the forenoon they finally started bidding prices that were all of a dime lower, and in some cases even worse than that. One packer bought a couple of droves that did not look to be over a nickel lower, and a couple of other strings sold at 5@10c lower figures, but up to midday this was the extent of the packer trade. Sellers were all trying hard to hold things up, but killers seemed determined to pound prices in spite of the fact that all other points are at least steady and in most cases show a gain. It is hard to describe the dullness of the market. Packers did not seem very much interested in whether anything sold and at noon a good share of th supply was still unsold, with the trade practically lifeless.

SHEEP—There was another liberal run of sheep and lambs this morning, there being about the same number on sale as yesterday. For the three days this week the total receipts are the largest for some time back and larger than a year ago by almost 4,000 head. As was the case yesterday the arrivals consisted largely of lambs, with only a moderate sprinkling of old sheep and ewes.

It became apparent very soon after buyers began looking at the offerings that they had most positive orders to buy both sheep and lambs lower, and as prices here yesterday were high as compared with those paid at Chicago buyers really had the best of the argument. As a rule their bids were right around a quarter lower. Sellers made a hard fight to maintain prices and as a result the market was very slow and dull all the morning. It was, in fact, after 11 o'clock before enough business had been transacted to really make the market and then the big bulk of the receipts changed hand in a very short time. The lamb market was around 10@15c lower than yesterday, good range lambs selling at a top of $8.00, as against a top yesterday of $8.10. Old sheep and ewes were steady to 10@15c lower. Feeders were in fair demand and prices on that kind of stock did not show much change.

Quotations on range sheep and lambs: Lambs, good to choice, $7.75@8.00; lambs, fair to good, $7.25@7.75; lambs, feeders, $6.50@6.90; yearlings, good to choice, $5.65@6.00; yearlings, fair to good, $5.40@5.65; yearlings, feeders, $5.00@5.40; wethers, good to choice, $5.40@5.60; wethers, fair to good, $5.00@5.40; wethers, feeders, $4.00@4.50; ewes, good to choice, $4.60@4.75; ewes, fair to good, $4.25@4.60; ewes, feeders, $3.00@3.50.

NEW YORK STOCK MARKET

Holds Fairly Firm in Those Securities Reasonably Sure.

MIXED VARIETIES MAKE GAINS

Investment Bonds Resist Declining Tendency Elsewhere, but List as Whole is Easier.

NEW YORK, July 22.—Despite the injection of such new and unfavorable elements as the proposed dissolution suit against the New Haven road and the abandonment of the Rock Island reorganization plan, today's stock market held fairly firm in that class of securities whose present and future seem reasonably assured.

Some of these issues rose above the preceding day's best prices, notably Union Pacific, United States Steel and Amalgamated Copper, but failed to hold any considerable part of their advantage. New Haven fell 2 points at the outset but soon recovered a part of its loss.

A mixed variety of specialties gained from 1 to 4 points, including Harvester, Bethlehem Steel, Studebaker and American Tobacco. Virtually all the Rock Islands lost ground, the decline in the debenture 5s extending to 7⅝ points while the convertible 4s fell 3⅝. Missouri Pacific stocks and bonds, notably the convertible 5s, were weak, the latter losing 5 points. Denver & Rio Grande 5s and Colorado Midland 4s recorded marked losses.

Investment bonds resisted the declining tendency elsewhere, but the list as a whole evinced an easier tone. Total sales, par value, aggregated $2,796,000.

United States government bonds were unchanged on call.
