GRAIN AND PRODUCE MARKET

Flour Advances as an Additional Support to Wheat Prices.

WARRING NATIONS ARE BUYING

Making Contracts at Many United States Mills for Output During the Next Several Months to Come.

OMAHA, Sept. 5, 1914.

There was only one side to the wheat market yesterday as has been the case for some time past. With an advance in May to \$1.315, compared with a resting spot of \$1.355, on Thursday, the casual observer may see there is somehing other than ordinary complications behind this abnormal strength.

In addition to the sensational market for wheat and the continued gain in prices in all the pits of the country, there were further advances in flour and the offer-ings throughout the country are light even at higher prices. The market was a most unusual one with many of the best posted speculators refusing to sell, even on the sensationally higher levels reported. This action on the part of professionals is seldom seen as a profit is senerally taken by those who have accumulated fortunes in speculation in various channels.

Not only were reports received from the larger markets of the country of heavy purchases of wheat and flour, by nations at war, but nearly every point with a fair sized mill reported agents of the warring nations securing outputs for months to come, with the prices a secondary consideration. The sales of fleur at Minneapolis by one house were reported at 100,000 bits, to foreigners and reports from other sections of the country would make a total of several hundres thousand barrels for the day. The flour that was soid at Minneapolis was taken by France and finneapolis was taken by France and that soid at other points was bought by Great Britain, France and Germany, Report was received on the Board of Trade that agents of Great Britain have purchased enormous quuntities of wheat in that country.

Corn was a strong market, the trend being upward and this, too, in the face of profit lable. guage and literature.

I. R. Lines, the newly elected secretary in charge of religious work of the Young Men's Christian association, will capable of the State o

buying of January deliveries, which closed with values strong for the distant months.

Wheat was le lower.
Corn was le to Uşc lower.
Corn was le to Uşc lower.
Coats were Usc lower.
Clearances were: Wheat and flour equal to 27,000 bushels; corn, 2,000 bushels; oats, 481,000 bushels.
Liverpool closed: Wheat nominal; corn, not reported.
Primary wheat receipts were 2,045,000 bushels, and shipments 1,285,000 bushels, and shipments of 681,000 bushels last year.
Primary corn receipts were 210,000 bushels, and shipments of 910,000 bushels, and shipments of 219,000 bushels last year.
Primary corn receipts were 1,281,000 bushels, and shipments of 219,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Fentures of the Trading and Closing Prices on Board of Trade.

CHICAGO Sept. 5 — Belief that the demand from Europe had been sufficiently discounted for the present led to a set back in wheat prices today after a spanmodic early bulks. In the end, the market was steady at his to the under last night. Corn finished he to the down, oats he off to Ce up and provisions lowered a shade to 15c.

Free selling of wheat set in as soon as the market had touched a new high level for May, 11.2 as against \$1.1%, the tip top point yesterday. The west and northwest were said to be letting wheat go less meagerly from farms and there seemed to be a noticeable diminishing of urgency as to exports. Conceal profit taking was also in order on wheat bought the last couple of duys, especially as no further chance to even up trades would be open until Tuesday, owing to the labor holids. Six days this week. Same to such stop order unlicking as three weeks ago. Same four weeks ago. Same four weeks ago. Prices on Board of Trade.

CATTLE-There were no cattle of any consequence in this yards this morning and nothing to make a market. For the week receipts have been very liberal, although running behind the record for a

week receips have been very liberal, although running behind the record for a year ago.

Good cornfed steers have been scarce for a year ago.

Good cornfed steers have been scarce all the week and the market on that kind firm. Range beeves broke sharply at the beginning of the week, but under the influence of a good buying demand the loss was all recovered later on, so that at the close the maket is strong as compared with last week's close.

Common cows and canners have been cities sellers all the week at firm prices, but fair to good cows and helfers broke sharply the first of the week in sympathy with the decline on beef steers. Later in the week as the receipts became light, the market strengthened up and is now firm as compared with one week ago.

Good feeders have been firm all the week and in active demand at prevailing prices. Supplies of that kind have been kept well cleaned up. On the other hand, thin and common feeders and light stockers have been more or less neglected all the week and have eased off until they are around 15@35c lower than one week ago.

Quotations on cattle: Good to choice

are around 15@35c lower than one week ago.

Quotations on cattle: Good to choice cornfed beeves, \$3.50@10.25; fair to good cornfed beeves, \$3.50@10.25; fair to good cornfed beeves, \$7.75@2.50; common to fair cornfed beeves, \$7.76@8.70; common to fair range steers, \$3.740@8.50; fair to good range steers, \$5.760@7.40; common to fair range steers, \$6.00@76.75; fair to good grades, \$5.50 good to choice grass cows, \$6.25@7.75; fair to good grades, \$5.50; good to choice stockers and feeders, \$7.50 (\$5.00; fair to good stockers and feeders, \$7.50 (\$5.00; fair to good stockers and feeders, \$8.00@6.75; stock cows and heifers, \$5.25@8.75; atock calves, \$7.00@6.00; vesii calves, \$8.00@10.50; bulls, stags, etc., \$5.25@7.00.

CHERNE-Irregular: receipts. 1.50 boxes, and there were times when there are the considered the c

SHEEF-Eight cars of inmbs. among which was shout a deck of ewes, were the only fresh receipts this morning, and these were shipped direct to a local packer. The week's receipts, however, have been liberal, footing up as many as 124.483 head, being 12,214 more than last week and 3,112 more than during the same week ago. As usual at this receipts was made up of feeder offerings principally from Wyoming and Idaho.

receipts was made up of feeder offerings principally from Wyoming and Idaho.

The week opened out with a big run on Monday, resulting in a decline of 19 spide on both uged sheep and lambs and this was followed by another generous supply on Tuesday, but prices were stendy to strong. Weak to a dime lower on ever and lambs was the market on Wednesday and since then until the close of the week values have shown a little improvement, closing quotations on fat lambs being steady to a dime lower than a week ago, while mutton is around steady for the week, due in the main to a scarcity of such offerings rather than to any increased demand.

Feeding sheep and tambs have been in good supply most of the week and the number of feeders going to the dountry has been fairly large for this time of the year. Owing to the liberal receipts buyers have been able to fill their orders on most days on a basis generally logificallower on lambs and about steady on aged feeders. The steady deal in feeding yearings, wethers and ewes has been attributed to the shortage of such kinds of feeders, and this is likely to be the case most of the season.

Quotations on range sheep and lambs: Lambs, good to choice, \$7.597.50; lambs, feeders, \$5.597.50; yearlings, facetor, \$6.500.50; wethers, good to choice, \$6.500.50; wethers, good to choice, \$6.500.50; wethers, feeders, \$6.500.50; wethers, good to choice, \$6.5
