OMAHANS SEE STATE SHOW

Fifteen Hundred of Them Make Trip to Lincoln to Attend Fair

RAIN KEEPS GROUNDS MOIST

Plenty of Good Features on Dry Ground, However, and Exhibits Enjoyed by All Who Make Trip to Exposition

(From a Staff Correspondent.) LINCOLN, Sept. 10.—(Special.)—Old Sol was accommodating enough this morning to stick his head out from behind the clouds long enough to make the people of Nebraska think Thursday was going to be a good day to attend the Nebraska state fair and they hiked to the trains and came to the capital city in droves. The old man disappeared from sight about 10 o'clock and from that time on for the rest of the day kept from sight.

Up to today the attendance has exceeded last year by about 4,000, but the fair management is not looking for enough to carry them through unless tomorrow should be a good day for the closing.

Omahans on Hand. This being Omaha and South Omaha day a special train this morning of fourteen coaches brought in about 1,500 people, headed by Green's band of Omaha, and later in the day regular trains added to the number.

Among the interesting exhibits this year, as in other years, is the fish exhibit from the state fisheries superintendent, O'Brien of the hatcheries and State Game Warden Gust Rutenbeck, with their deputies, have prepared one of the best exhibits ever shown at the state fair and the crowd in attendance around the building attest to the popularity of the exhibit.

The University of Nebraska exhibit in the old horticultural hall, which has been turned over to the university, is another place of great interest. All departments of the university are represented with exhibits of every kind and variety.

Fix Up Race Track. Work began early this morning on the race track to get it in shape for the races this afternoon, the heavy rain of last night having put it decidedly to the bad. Beachey Proves Star. Lincoln Beachey made his usual three flights during the afternoon and electrified the people with loops, upsets, down flying and many other stunts which he seems capable of performing. Beachey has made a big hit with the crowd.

Politicians in Numbers. Today was supposed to be political day at the fair and republicans and democrats alike were supposed to trot out their fastest horses and put them to their paces on the stage in the big auditorium. However, the democrats failed to show up at the appointed time after State Chairman George of the republican state committee had mounted the platform and in a ringing speech told the populace gathered in the big building what republicans proposed to do to the democrats this fall.

What Would You Do? There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value.

True Toasted Corn

Is as different from commonplace corn flakes, as succulent green sweet corn is different from the hard, flinty, yellow grain of the farmer's corn crib.

In spite of the numerous "corn flakes" marketed, few persons really know the rich sweetness of choice corn when skillfully cooked, flavored and toasted.

This true toasted corn—distinctive in its rich, rare flavor—is called

Post Toasties

A call for "corn flakes" often brings some one of the many brands of ordinary flakes. To avoid disappointment ask for, and insist upon Post Toasties.

This food can be distinguished by the original yellow package; by the rich, true corn flavour imprisoned in the making; and by the size and tender crispness of the golden brown flakes.

Toasties are ready to serve hot or cold, with cream or good milk—also fresh fruit in season. A further delicate flavour may be released by heating a few minutes in oven before serving. And it's a flavour worth knowing!
