SEVERAL FIRMS INCORPORATE

New Organizations File Articles With Secretary of State at Lincoln—Prominent Railroad Man Married in Lincoln.

(From a Staff Correspondent.) LINCOLN, Sept. 23.—(Special.)—Before leaving Lincoln last night Colonel Roosevelt issued the following regarding his attitude toward Senator Sackett, progressive candidate for governor: "I cannot speak too emphatically in favor of Mr. Sackett and the other candidates on the progressive ticket. It would literally have an electric effect for good all through the country if you elected Mr. Sackett and his colleagues. They stand on one of the best and wisest platforms I have ever seen promulgated in a state—and I wish to call particular attention to what this platform says about substituting co-operation for competition in business, about keeping the fee of water power sites for the people and about taxing unearned income more heavily than earned income."

COUNTY HIGH SCHOOL LAW IS HELD VOID

STAPLETON, Neb., Sept. 23.—(Special.)—Judge Grimes has rendered a decision in the test of the constitutionality of the county high school law in district court. He holds the law of 1911 valid and the new law of 1912 unconstitutional. That the method of attacking the validity of the latter by injunction was the proper course. Therefore, in the case at hand, John H. Worrell against Regents, Judge Grimes makes the injunction permanent. That there was no legal Board of Regents and that all of their actions in levying a tax for county high school purposes was unwarranted and without color of law. This case has been widely watched. Eighteen counties of the state are affected.

President Advises Coal Operators to Accept Compromise

WASHINGTON, Sept. 23.—President Wilson today told J. F. Welborn, president of the Colorado Fuel and Iron company, that he believed it to be the duty of the operators in Colorado to accept the basis for the settlement of the strike proposed by federal mediators. Mr. Welborn told the president that the operators objected to several points in the plan, but the president asked that they reconsider the question. In answer to the objections of Mr. Welborn the president declared he could not act as the umpire between the operators and the miners, and that he felt it the duty of the operators to accept the plan already adopted by the miners.

The continuance of federal troops in Colorado was discussed and later it was said the president would withdraw the troops unless a satisfactory settlement was reached. This was not verified, however, in official quarters. The president had expected to receive a committee representing the independent coal operators involved in the strike. Mr. Welborn told him that the other operators were unable to be present, but would write. The president asked that Mr. Welborn tell the other operators that he could not accept a refusal of the plan. Mr. Welborn presented an alternative plan for the solution of the strike trouble, but the president refused to consider it, saying that he did not believe a compromise possible. The president declared that the public interests demanded the end of the strike and that it was the patriotic duty of the mine operators to accept the proposal.

FRENCH OFFICERS KILLED

Proportion of Their Fatalities as Compared to Privates May Lead to Change of Uniform's Colors.

BERLIN, Sept. 23, 8 p. m.—(Via London, Sept. 23, 4:30 a. m.)—The casualty list published today shows the death of two German generals in the western campaign, Generals Von Wrochem and Von Arbon. Major General Von Throtha is also given as killed, his death having occurred on August 30. Among the lightly wounded are two lieutenant generals, Von Willman and Von Kuehn.

The list, containing 3,806 names, gives the name and date of the battle for the first time, and indicates that the casualties published so far covered (not of sentence apparently deleted by the British censor). The total losses so far published aggregate 10,886 dead, 28,750 wounded and 13,021 missing.

French Officers Too Conspicuous.

PARIS, Sept. 23.—The proportion of French officers killed or wounded in the battles is so great as compared with the casualties among the privates that the question is being discussed whether it would not be advisable to modify officers' uniforms and make them more difficult to distinguish from those of the men. The Germans seem to pick out the officers all the more easily since the French officers are said to be showing great daring at the heads of their companies. There have been many promotions of general officers recently to fill vacancies made through casualties.

Reliability is what a doctor must be assured of in recommending a food or drink. He must know that it is honest, efficient, pure and wholesome. In cases of nervousness, heart flutter, headache, biliousness, indigestion, etc., where the patient is a coffee drinker, most doctors order: "Quit coffee and use Postum." Doctors recommend Postum because they know that it is a pure food-drink—absolutely free from the drug, caffeine, which makes coffee injurious to most users. It is sufficient that thousands of physicians not only recommend, but themselves use POSTUM —its worth having been fully demonstrated, not only in the home, but in Sanitariums, Hospitals and Colleges. Postum now comes in two forms: Regular Postum—must be well boiled—15c and 25c packages. Instant Postum—soluble—no boiling—made in the cup with hot water, instantly. 30c and 50c tins. Both kinds are delicious—cost per cup about the same—sold by Grocers everywhere. "There's a Reason" for Postum
