

SPECIALS FOR THE PARADES

All Railroads Prepare to Handle Enormous Crowds for Festival.

ARE EXPECTING BIG BUSINESS

Every Road to Run Special Trains From Omaha Immediately After Big Electrical Parade.

With good crops and a most prosperous condition existing all over Omaha trade territory and a prospect of continued good weather, the railroads are preparing for an immense business into the city during the Ak-Sar-Ben festivities.

The night of October 7, at 10:30 o'clock, the Wabash will run a special train as far as St. Joseph, Mo. Parties arriving in the city will come on regular trains, which will carry extra equipment.

The Illinois Central will have a special train out, running as far as Wall Lake, Ia. It will leave the Union station at 10:30 at night.

The Missouri Pacific will run a special as far as Nebraska City, leaving the Webster street depot after the parade. The down-the-river business will be taken care of by the regular train that leaves for Kansas City at 11:30 at night.

The night of the big parade, the Rock Island will run two special trains out of the city, one going as far as Atlantic, Ia., and leaving the Union station at 10:25. The other will run to Fairbury, Neb., leaving at 10:15.

Two Milwaukee Specials.

The Milwaukee will run two specials into the city the day of the electric parade, both coming from as far as Manilla, Ia. The first will arrive at 11:59 in the morning and the other at 3:25 in the afternoon. Out there will be a special train that will leave the Union station at 12:34 Thursday morning, going as far east as Manilla.

On the Burlington, there will be one special train from the east, coming from Creton, Ia. It will arrive at 2:59 and leave at 3:05. From the west, there will be two special trains from the west. The first will arrive at 7 and the second at 7:15 o'clock in the evening. Going out, the first train will leave at 10:29 and the second at 10:30. From the south there will be a special train, arriving about 7:30. Returning, there will be two specials, one leaving the city at 11 and the other at 11:15 at night.

The Union Pacific will not run any specials into the city, but to accommodate the crowds coming in, trains Nos. 4, 6, 22, 24 and 25 will make stops at all stations. Leaving the city, there will be two trains, both running as far as Grand Island. The first will depart at 11:15, and will run by way of Papillion and Sironment, and the other will go over the Lane cut-off and the main line.

On the Northwestern, at 10:30, the night of the parade, a special will be run east, going as far as Carroll, Ia. At 11 o'clock a special will leave for the up-river country, going to Emerson and thence west to Wakefield and Wayne. At 11:19 a special will leave for Norfolk, and at 11:30 one for Fremont, connecting with a train for the South Platte country and starting from Fremont.

Marine Band to Play One Concert in Omaha

The famous United States Marine Band, which will visit Omaha on October 7, is 113 years old. Today the greatest military musical organization in the western hemisphere and the peer of the European bands, it was at first a drum and fife corps.

When the marine corps was established under an act of congress approved by President John Adams in 1775, the law provided for a drum and fife corps, six long time there was no regularly recognized leader. First one member and then another would act as fife major, but the American desire for progress became manifest in this connection, and musicians were imported from abroad to supplement the severely martial style of instruments to which the band had been limited.

Italy provided a group of musicians, who soon succeeded in placing the band on something of an artistic footing. Since that day its prestige has steadily increased, until it is now one of the largest and most splendidly equipped governmental organizations for musical performance the world has ever known.

Lieutenant William H. Sautelmann, the leader, is a musician of broad experience and accurate attainment. When he conducts, he knows precisely what every instrument should be doing, and the men know that he knows. Under his leadership the aggregation of men is employed, it might be said, as a single instrument. Consequently, artistic effects of the highest and most brilliant quality are easily and naturally attained by this band. Uncle Sam's one foster child in the domain of pure art.

WHEAT DECLINES TO LESS THAN A DOLLAR

The local grain market took another slump following the lead set by Chicago. The decline was greatest on wheat, the price here going below \$1 per bushel, most of the sales being made around 95 and 98 cents. Chicago sales were around \$1.02 and \$1.05.

The Chicago decline extended to the options, December wheat selling at from \$1.98 to \$1.94, and May from \$1.15 to \$1.10.

Corn continued fairly strong. Omaha prices for cash, ranging from 72 to 75 cents, with Chicago from 75 to 78 cents.

Omaha receipts were: Wheat, forty-eight; corn, twenty-eight; and oats, fifty-five carloads.

FEW PERMITS ISSUED FOR SCHOOL CHILDREN TO WORK

Chief Probation Officer J. B. Carver of public schools has issued only six permits for children of school age to work. Only three permits to attend night school have been issued to children under the public school age limit. This is a record for the minimum of children allowed to work.

The public night schools will not open until October 12. They will be held in Kellom and Comenius schools as usual.

Sears Holds Press May Be Enjoined in Political Campaign

Decision that a newspaper may be enjoined in a political campaign was rendered today by District Judge Sears in the injunction case against The Bee, brought by R. Beecher Howell.

Judge Sears held in effect that if he had required Howell to put up a bond to protect The Bee as required by law, his signing of a restraining order forbidding publication of the headline, "Howell Will Not Run," would have been legal.

This was the only point at issue in the case, the restraining order being without reason of lack of a bond. "The duty of the state to protect the integrity of the primary election, and of the candidates so listed and notified, is as broad and far-reaching as is the subject matter so brought within the scope and control of the state," said the court, basing on this theory what attorneys for The Bee declared was an invasion of the right of a free press.

In order to secure an opinion by the supreme court concerning the rights of a free press, The Bee's attorneys excepted to the decision and perfected the record for the purpose of appeal.

Come and Go Gossip About Omaha People

Mrs. C. C. Allison left today for Greenwich, Conn., accompanied by her daughter Grace, who enters school at Ely Court this fall.

Miss Eugenie Patterson returned yesterday from Chicago, where she has been with her sister, Mrs. Ben Boyce, most of the summer.

Mr. and Mrs. S. E. Douglas have gone to Excelsior Springs to remain about two weeks. They will visit in Iowa before returning to Omaha.

Mrs. Herman Kountze arrived in Omaha Sunday, coming direct from Atlantic City, and is staying at the home of her daughter, Mrs. Jerome Magee.

Miss Margaret Greer Baum is expected home tomorrow from Dubuque, where she has been visiting on her way west from Rochester, N. Y., where she was bridesmaid at the wedding of a friend.

Mr. Everett Childs, son of Mr. and Mrs. Lewis Childs, is at home for a visit before leaving Monday for Buenos Ayres, where he goes as agent for an eastern steel company with which he is employed in Harrisburg and Philadelphia.

He will be gone about six months this time, and then expects to go back to South America for two years.

Mrs. W. A. Wilcox has returned from a trip to Canada. Mrs. Wilcox was accompanied home by her mother, Mrs. E. Pymmer, whose home is in Newburg, Ont.

Mrs. W. T. Canada has returned from a visit with Mr. and Mrs. M. W. Knickerbocker in a ranch in central Oregon. Mrs. Canada's health was very much improved by her stay there. She was accompanied home by Mr. Knickerbocker, who has gone to attend a family reunion in Hamilton county, Iowa.

Mrs. Ben B. Wood will give up her apartment at the Genoa and move to the new apartment house, Highland

Herron Tells About His War Stay in Europe

Before a crowd of several hundred people at the Presbyterian Theological seminary, Prof. Charles Herron related his recent experiences in Europe before and during the early days of the war.

Prof. Herron graphically described the points of interest and institutions he visited and then related how the people of Switzerland received the news of hostile activities and his efforts to leave Zurich for a point where he could obtain passage home.

Finally the American minister at Zurich told him of a chance to reach Paris by train, and availing himself of the opportunity after being urged to make haste he reached the capital of France just as the citizens were preparing in earnest for the great conflict.

At night the huge searchlights played about the city and by their light he could see a seeming fleet of gnats about the summit of Eiffel tower, which he later learned were aeroplanes protecting a wireless apparatus which occupies the top of this towering work. Finally he secured transportation by train to the coast and passage home.

Prof. Herron testified strongly to the courtesy and consideration shown him by the French people and also with what regard they hold America and its citizens.

The students of the law college held their first moot court session Friday evening. The court sessions will be in charge of Louis J. De Foesl this year and will count as class work. The seniors act as lawyers, the juniors as witnesses and the freshmen as jurors.

Glee Club Elects Officers for Year

The Central High School Glee club elected officers for the ensuing semester, as follows: Kenneth Widener, president; Willie Campen, business manager; Frank Hunter, secretary-treasurer, and Porter Allan, librarian.

The Glee club is working on an entirely new plan this year and it is proving to be a success. Instead of having the rehearsals after school, as has been the method, they are held during school hours every day in the week. Second hour is the one used for this and the practicing is done in one of the gymnasiums. All prospects so far point to this year's club as the best for many years.

Pioneers May Use County Court House

Permission to use the first floor of the court house for a reproduction of the first territorial inaugural reception at Omaha in February, 1858, was granted to the State Pioneers' association and the local pioneers society by the Board of County Commissioners.

The date for the event has not been fixed, although it will be held during Ak-Sar-Ben. Plans of the pioneers provide for an elaborate reception, features of which will be old-fashioned costumes and music.

By the Taxicab Test "Nobby Treads" are Cheapest in the End

Taxicab Companies can quickly find which tires give them lowest cost per mile. An individual motorist would wear his car out before trying every make of tire. A few weeks' test gives the purchasing agent of a taxicab company the correct answer to the tire problem.

Creighton Medical Seminar Meets

The Creighton Medical seminar met at the Creighton Law college Friday evening. "Sugar as a Food," a paper by A. R. Atzen, furnished opportunity for considerable debate. William Roney read a paper on "Physiology of the Liver."

Dean A. L. Muthhead of the medical college was present and stated that the object of the society was to study the new advances made in the medical world. He asserted that the "willight sleep" of the Germans is merely a revival of an idea which has been threshed out and rejected some time ago by the medical world.

The students of the law college held their first moot court session Friday evening. The court sessions will be in charge of Louis J. De Foesl this year and will count as class work. The seniors act as lawyers, the juniors as witnesses and the freshmen as jurors.

COURT PERMITS SALE OF ANNA WILSON PROPERTY

Formal approval by the district court of the plan of the Old People's Home association to sell the residence of the late Anna Wilson, bequeathed to it by her will, and of using the proceeds, together with a bequest of \$10,000 for a new home near Fontenelle park, was registered by the signing of a decree by Judge Sears.

The site for the new building was donated by Mr. and Mrs. George Jostya. The new home, according to plans some time ago completed, is to cost \$75,000.

See readers are too intelligent to overlook the opportunities in the "want ad" columns. They're worth while reading.

PERSONAL PARAGRAPHS.

C. E. Spens, assistant freight traffic manager of the Burlington, came over from Chicago and is a caller at local headquarters. Miss Spens came with him and will remain until after the Ak-Sar-Ben festivities, spending a portion of the time with her parents in Council Bluffs.

C. E. Yates of Lincoln, for forty-two years with the Burlington, most of the time superintendent of telegraph lines west of the Missouri river, but retired in 1903, is in town, calling on friends at the local headquarters.

Sage Tea Puts Life and Color in Hair

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all done without scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Hupp Manager Will Return to Europe

John L. Poole, export manager of the Hupp Motor Car company, with headquarters at Paris, France, will return to Europe some time in the very near future, for the purpose of looking into Hupp's business. Mrs. Poole will accompany him.

Mr. Poole, speaking about his proposed return abroad, is inclined to believe that there will be business for American automobile manufacturers in Europe this fall. He has based this assertion upon personal investigation and from the various interviews he has had recently with men who have returned to the United States from the very heart of the war crisis.

"Of course, I understand," said Mr. Poole, "that the present war has practically demoralized business conditions in the belligerent countries. But I really feel that in order to know the exact state of affairs, it is necessary for me to make a first hand investigation of business conditions and for this reason I am going to Europe."

"Comte de Pecorini, our distributor at Rome, has just arrived at Detroit and placed an order for 100 Hupmobiles. This certainly looks good to me and the count states that while generally the war in

Europe will have a tendency to depress business for a while, it will only be temporary until such time as the conflict is over, or is confined to certain limits."

CENTRAL WEST RECOVERS FROM LULL IN BUSINESS

"Every motor of the Haynes Light Six car must run so smoothly before leaving the test frames that a common, ordinary lead pencil will stand on end for hours when placed on top of the cylinders," declares C. J. Corkhill of the Nebraska-Haynes Auto Sales company, distributors in this territory for the Haynes. "Balancing a silver dollar on edge of the cylinders when the motor is running from 1,000 to 1,500 revolutions per minute is another test that is frequently applied."

"Each Haynes motor is put on a frame mounted on elliptic springs identically the same as in the chassis and run fifteen hours. If there is the least vibration in the motor at any speed, it will be shown immediately by the vibration in the springs supporting the frame."

"Manufacturing a perfectly balanced, silently running motor is a highly developed science. The fundamental work must start in the designing room, where the proper masses of metal must be proportioned to the arms of the crank shaft. After each crank shaft is machined and

the bearings ground to a high polish, it is accurately balanced. Not only must the shaft balance on sensitive rolling disks in any position, but it must balance while being revolved at a high rate of speed."

LADIES' HAIRDRESSING IN LONDON AND PARIS

By Constance

When I was in Europe this year I found both cities so thickly dotted with hairdressing parlors and hair goods stores that I wondered if the women ever had time for anything but care of the hair. Personally I was chiefly interested in finding a really good shampoo and I found that they never use makeshifts but always some item made for shampooing only, and I was happily surprised when several inquiries each brought the suggestion that our own American made canthrox shampoo is best. They like it because in addition to being perfectly safe and making the hair free from all dandruff, excess oil and dust, it is so simple to get canthrox from any druggist and just dissolve a teaspoonful in a cup of hot water, knowing you will then have a preparation that makes the hair not only entirely clean but so fluffy that it appears very heavy. Canthrox stimulates the scalp to healthy action, making the head feel good, and the hair look good.—Advertisement.

Oldsmobile \$1285 Established 1880-Incorporated 1899 NEW LIGHT FOUR

The Demand For the last two years there has been an increasing and insistent call for a smaller, lighter Oldsmobile, built with the characteristic compactness and refinement of the famous "Big Six." We immediately prepared to meet this demand—but not hastily, for we knew the market would be ready as soon as we were—but step by step, seeking the type of car that would fill this demand, not for one season but for many seasons to come.
