### RUSSIANS POUR SOLDIERS INTO HUNGARY PLAINS

(Continued from Page One.)  
Their losses were heavy, mainly from artillery fire, which broke the attempt to move upon Drushkenik.

**German Retreat.**  
PETROGRAD, Sept. 28.—The following official communication has been received from the staff of Grand Duke Nicholas, commander-in-chief of the Russian forces in the field:

"An engagement near Sopotnik, on the Nieman river in Russian Poland, and Drushkenik, came to an end with the retreat of the Germans.

"The enemy has approached Osonovets from the north and has begun the bombardment of the fortress.

"In Galicia we have occupied Dembica, on the railroad sixty-five miles east of Cracow and between Tisovetz and Tarnow.

"A numerous column of the enemy is retreating from Przemysl in the direction of Sanok, thirty-eight miles southwest of Jaroslavl. In their flight they abandoned artillery and automobile transports.

"At Coloujok we defeated a detachment of the enemy and captured many prisoners. Continuing the pursuit, we entered Hungary."

**Serbian Advance in Bosnia.**  
PARIS, Sept. 28.—(6 a. m.)—A dispatch from Nish to the Havas agency dated September 27 says:

"The Serbian troops advancing in Bosnia have occupied Roumanian mountains near Sarajevo.

"The Serbian troops from Belgrade drove the enemy from Ada Tsigmla and from Ada Mala, inflicting heavy losses.

"The Austrians are redoubting their efforts to go to the north to cross the Save and the Danube. The last attempt to pass into Serbia near Belgrade cost them some hundreds of dead, among them a number of officers.

"Otherwise there is practically no change in the situation on the various fronts."

### WALL PARTY IN DANGER CROSSING THE NORTH SEA

Two boats quite near the one on which Carl Wall of Omaha crossed the North sea, were sunk by mines with heavy loss of life, the night that he went from Denmark to England. The Walls have just reached here. Mr. Wall, who is foreman for the Haismann Vinegar company, went to Sweden with his wife and sister, but their planes were over the war, although they were at no time in danger.

### Eat Less and Take Salts for Kidneys

Take a glass of Salts if your Back hurts or Bladder bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; if they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent bicarbonate beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Advertisement.

### GERMANS POUND AWAY AT ALLIES IN AISNE BATTLE

(Continued from Page One.)

tion of Aisne, six miles northwest of Brussels. The correspondent says a Zeppelin airship yesterday flew over Ghent and the coast.

**Actions Become General.**

BERLIN, Sept. 28.—(Via London.)—The correspondent of the Local Anzeiger, in a dispatch published here today, points out that a decisive turn in the battle which has been raging in the western theater of war need not be expected for some time. Subordinate actions are becoming general, the correspondent declares. The losses of the Germans have been extraordinarily heavy and the fact that those of the enemy have been even greater is a poor consolation. The troops are confident that in the end they will win the action.

A long column of French prisoners of war arrived during the week from the direction of Rheims. Last Monday the correspondent met a column of about 1,000 men whose faces showed that they were glad to have at last escaped the turmoil and terrors of the greatest of modern battlefields.

### FRENCH ADVANCE IN RANGE OF GUNS

(Continued from Page One.)

The military experts here cannot see now what resources the Germans can call on to retrieve their fortunes.

The Matin expresses the opinion that the new troops the allies found fronting them in the left were not from the German left, but were part of the forces detached after Chaplain and sent to East Prussia, and now brought back in haste.

**Critical Point.**  
The general opinion is that the battle has reached the most critical as well as the most violent phase, and that the issue cannot be delayed much longer.

The losses of the last few days on both sides are said to exceed all other engagements of the war. Stories have reached here from Belgium that the Germans, unable to bury their dead on the field, have shipped them behind the army by trainloads in order to avoid epidemics.

**Armies Close to Each Other.**

LONDON, Sept. 28.—Telegraphing from Bordeaux under date of Sunday the Times correspondent says: "The rival armies are now close to each other. A few hundred yards separated the trenches yesterday. Everywhere the German fury was unavailing and the close of the day found the allies' left reaching up still further north."

"The battle has become to some extent a race between this movement on the left and the enemy's offensive against the center and the right. The failure of the enemy to shake off the tightening grip of the allies on the Oise and north of Somme was accompanied yesterday by a renewed attempt to smash the center. There was massed the flower of the army the Prussian guard, which distinguished itself from the outset of the campaign by its ability to give and take hard knocks.

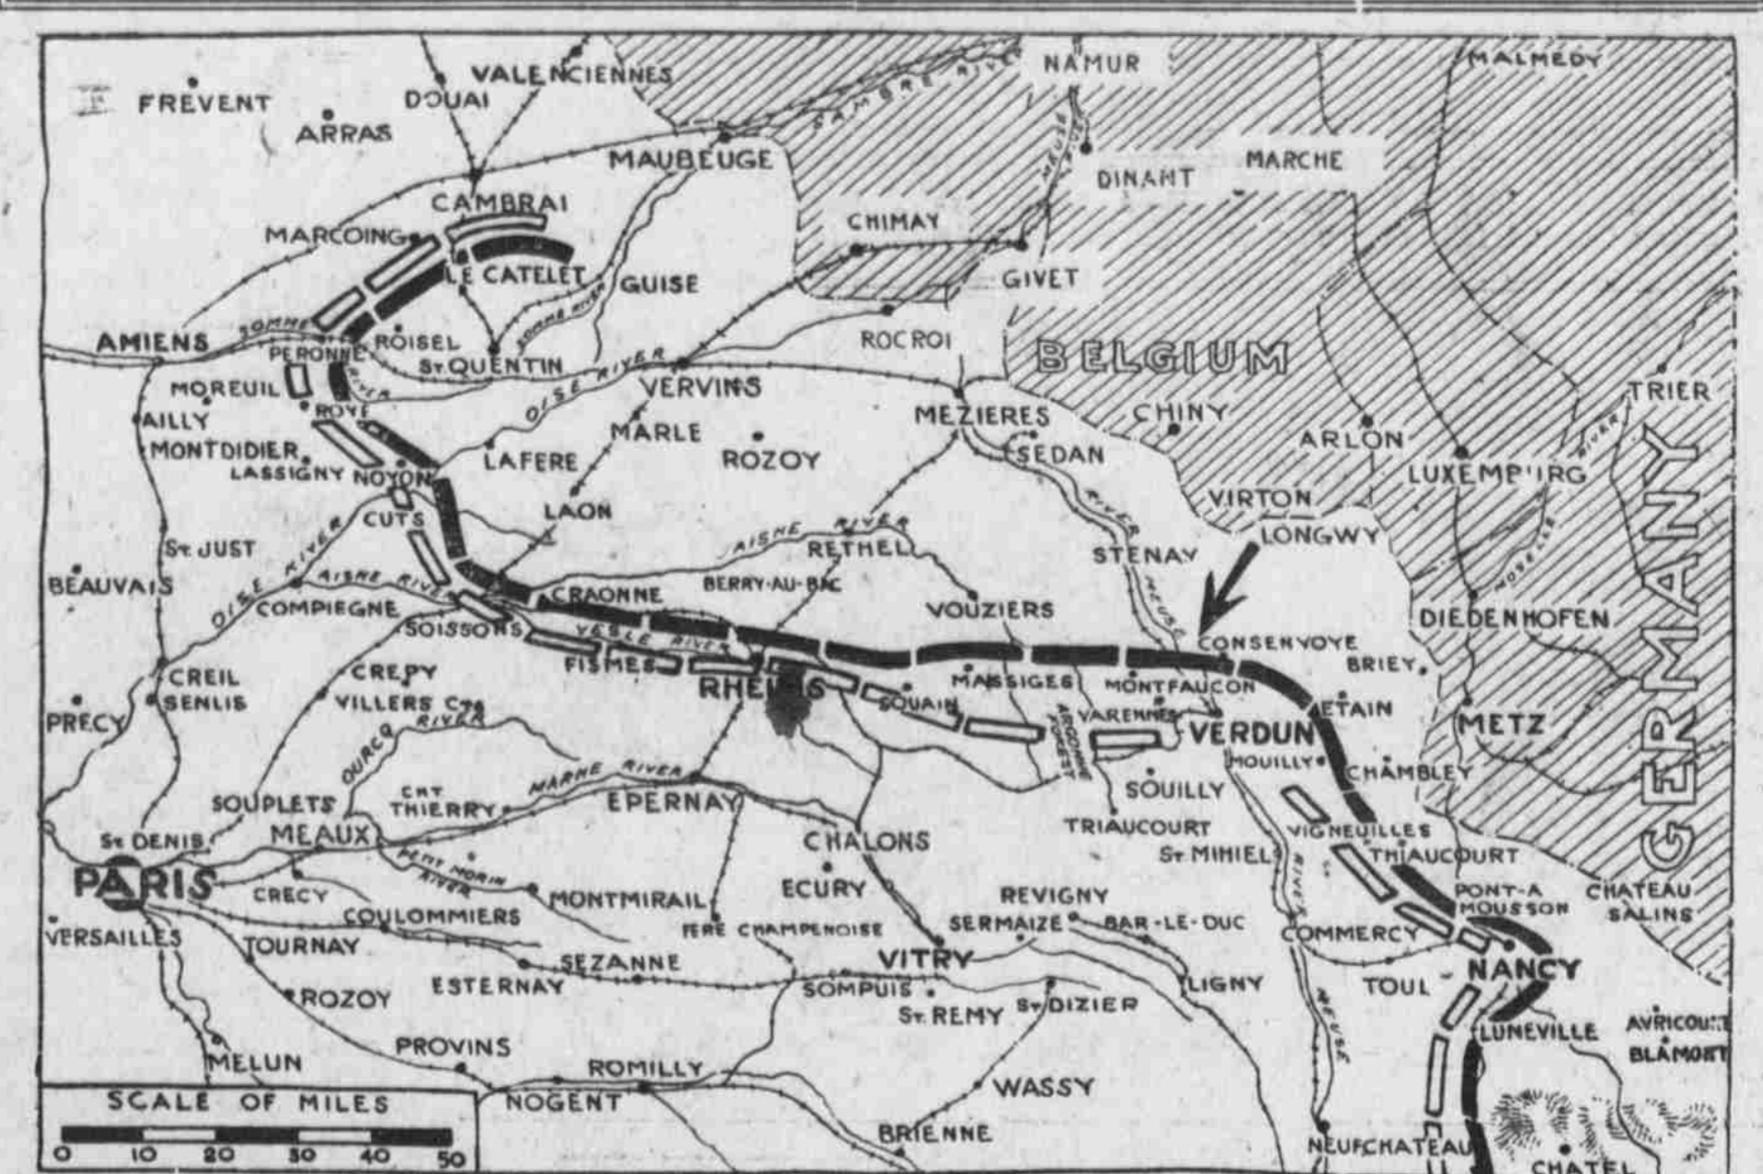

"Further to the right the German offensive at first met with some success. The attack was launched in the morning through the hilly, wooded country between the road from the Somme to Chalons and the railway from St. Menhoult to Vouziers. At the end of the day the French recovered the lost ground."

### MYSTERY SHROUDS SHOOTING TRAGEDY

(Continued from Page One.)

The man was bleeding from a wound near the right temple. A .25 caliber automatic pistol was clutched in her hand, Miss Graham said. Had Many Diamonds. Mrs. Houston was extensively dressed and had several thousand dollars' worth of diamonds on her fingers. Besides her husband, a former employe of the Union Pacific, she had but one son, Howard J., employed as a clerk in the Corn Exchange National bank. Hanson is married and his wife, who is at present in Minneapolis, is on her way to Omaha. Mrs. William Proebsting, 42 South Forty-fourth avenue, sister of Hanson, said the latter disappeared last May and has not been heard from since. He left

his wife and a young daughter, whose first news of Hanson was received yesterday. Howard Hickins, son of the woman supposed to have done the shooting, told reporters that he has not seen his mother in five months. He rooms with his father at the Young Men's Christian association. "I heard she was in town last night," he said, "but I did not want to see her."

The Loyal hotel register contains the names of Mr. and Mrs. George V. Hickins, Omaha. The taxi cab driver said he picked the woman up there at about 10 o'clock.

**Had Been in South America.**  
Information received by Coroner Crosby is that Hanson for the last year has been in South America and returned to Omaha only a short time ago. He was bordering on a state of nervous collapse, it was said, and he went immediately to the hospital for rest. He had few visitors, except his father, who came here from Tilden, and he spent his time writing letters or playing the piano.

Late yesterday afternoon Mrs. Hickins was still alive and occasionally would regain consciousness for a few moments. She was too weak to talk to hospital attendants.

### ROUT OF PRINCE'S ARMY SAVES PARIS

(Continued from Page One.)

in position gained and a tremendous quantity of ammunition had been exploded. Retreat in Night. "Then on the night of the sixth and seventh came the mysterious German retreat. Various theories were advanced to explain it: First, there may have been a sortie from Verdun; such an operation while the main force was heavily engaged would bring havoc to any army. Second, the army transport service may have broken down. This, after the enormous expenditure of ammunition might have compelled the crown prince's army to fall back or be captured.

"Of course, the fighting on this wing continued for several days, but the Germans were only trying to save what was left of the badly crippled army from complete destruction.

"With the crown prince retreating there was nothing left for General von Kluck's and General von Buelow's armies but to execute the same maneuver. This brought about the battle of the Oise, and all subsequent fighting, and the rumor persists that the crown prince was wounded. Whether that is so or not, his army almost disappeared from the theater of operations.

### COSSACKS PLUNDER AS MATTER OF FORM

(Continued from Page One.)

There had been shots fired out of a certain building always is offered. Estates belonging to nobility as a rule escape destruction. In the first place it is the general belief that within these estates rich booty is to be had and also that they can serve as quarters for the officers. Thus the saving of my own dwelling is explained. But why they should want to burn our herd of cattle, when it could serve them as food, is a riddle. "A farmer's wife, whose husband is in the field and whose dwellings were located close to the Russian frontier, tells me the following: "Shortly after mobilization a number of Cossacks appeared in our yard and immediately set fire to a barn. I gathered all my courage and commanded them in Russian immediately to extinguish the fire; that then they might refer to me in the kitchen and they would be treated to a cup of coffee. This seemed to impress them; they put out the fire, drank their coffee and left with profuse thanks. But when a neighbor of mine tried the same ruse he was promptly shot down."

### Disguised German Ship Tries to Mine Harbor at Guernsey

NEW YORK, Sept. 28.—An unsuccessful attempt to mine the harbor at Guernsey, England, said to have been made by a disguised German cruiser, which had on board 1,000 German marines and enough explosives to blow up a dozen warships, was reported today by Miss Margaret Daniels, a missionary of the Baptist foreign missionary society, on her arrival aboard the French liner Espagne from Havre.

The vessel, according to Miss Daniels was disguised as a Dutch merchantman. The Dutch flag at the topmast aroused the suspicion of the British authorities, who had made arrangements with the Dutch that all their vessels entering English ports should fly the Dutch flag at half mast. The ship was accordingly surrounded by torpedo boats and a search revealed 1,000 German marines hidden below decks. The marines were arrested and sent to a detention camp. Ignazio de La Barra, brother of the former provisional president of Mexico, was among the Espagne's 300 passengers. He came from Monte Carlo, gambling paraphernalia there, he said, had been replaced with hospital beds and operating tables.

### The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And whatever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the most helpful things is an external abdominal application known as "Mother's Friend." There is scarcely a community but what has its enthusiastic admirer of this splendid embrocation. It is so well thought of by women who know that most drug stores throughout the United States carry "Mother's Friend" as one of their staple and reliable remedies. It is applied to the abdominal muscles to relieve the strain on ligaments and tendons. Those who have used it refer to the ease and comfort experienced during the period of expectancy; they particularly refer to the absence of nausea, often so prevalent as a result of the natural expansion. In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women with timely hints, suggestions and references to the fact that it should be in all homes. "Mother's Friend" may be had of almost any druggist, but if you fail to find it write us direct and also write for book to Headfield Regulator Co., 404 Lamar Bldg., Atlanta, Ga.

### Foreign Exchange Market Demoralized

NEW YORK, Sept. 28.—The foreign exchange market was demoralized today by a further material advance in cables and demand bills on London, which quoted at \$5.02 and \$5.01 respectively. These quotations represent an advance of 3 cents a pound sterling compared with last Saturday's rates and efface much of the ground recovered in the last two weeks.

The advance was explained in part by the existence of a large speculative short interest which based its hopes on large shipments of grain and cotton.

The proposed \$100,000,000 gold pool also had been expected to effect a reduction of rates, but delay in the completion of this plan has worked to the disadvantage of the short interests.

### Have Dark Hair and Look Young

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. When ever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 25 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.
