CAPTURE OF SALTILLO DENIED

Washington Hears Permanent Peace in Mexico Will Soon Be Restored Through Naming of Calderon.

WASHINGTON, Oct. 2.—Unofficial reports reaching the administration tonight from constitutionalist sources here conveyed further assurance that permanent peace soon would be restored in Mexico through the designation of Fernando Iglesias Calderon as provisional president pending an election.

No official word from Mexico City concerning the convention which was called to meet today to promulgate plans for a general election, or from the peace conference between Carranza and Villa representatives at Zacatecas and Agua Calientes, was received by the State department today.

Reports that troops had been ordered discontinued until an agreement of the peace commissioners and that preparations for a general convention of constitutionalist chiefs, October 10, had been approved by the Carranza-Villa representatives, were accepted by officials here as an important step in the interests of peace.

Rafael Zubaran, head of the constitutionalist agency here, issued a statement tonight in which he denied reports of the capture of Saltillo by Villa forces.

Information received to the effect that General Rosalio Hernandez, stationed with his command near Pardon, and Generals Montolivia and Luis Herrera, with their troops at Paredon remained loyal to the central government and have withdrawn their forces from the division of the north.

General Hernandez's command will number more than 3,500 men and General Hernandez has close to 2,000 men under him.

Rafael E. Muzquiz, the Carranza consul-general along the border, announced from his office here today that he had received definite information that scores of officers of the old federal army were preparing to join Villa in his revolt against the central government.

MEXICO CITY, Oct. 2.—The general conference called for by the plan of Guadalupe met in the chamber of deputies this afternoon at 4 o'clock with General Venustiano Carranza, president.

After the report of the credentials committee had been heard, General Carranza read a message reviewing his acts since he assumed power as supreme chief of the constitutionalists and reiterated his willingness to abide absolutely by the decision of the present conference regarding the provisional presidency, the calling of general elections and the scope of the reform laws.

A discussion ensued regarding the advisability of adjourning the present convention and meeting again at Aguas Calientes on October 5, when all factions, including Emiliano Zapata, would be represented.

No decision has been reached in this matter at the time of the filing of this dispatch, but the general sentiment among the delegates seemed to favor adjournment until some time between October 5 and October 10, when the present body would meet with the northern generals at Aguas Calientes.

Twenty Posing for Picture Hurt When Platform Collapses

KANSAS CITY, Mo., Oct. 2.—Twenty persons, most of them women, delegates to the fourth annual session of the Missouri grand chapter, Order of Eastern Stars, were injured here today when a temporary platform, erected on the lawn in front of the Shrine temple, collapsed and precipitated its 400 occupants to the ground.

The platform had been erected for the purpose of grouping the delegates for a photograph. It sloped from the ground in front to a height of about ten feet in the rear. Upon the request of the photographer the persons on the stand rose to their feet. As they rose the underpinning in the structure gave way.

Those who fell last were able to scramble over entangled bodies to the broken ends of the platform, so deep was the pit made by the falling bodies.

Fallen timbers were jammed against the bodies and limbs of those caught in the trap and as a result most of the injured suffered broken limbs or painful cuts.

SON OF BARONESS AMHERST IS KILLED IN ACTION

LONDON, Oct. 2.—Captain William Amherst Cecil of the Grenadier guards, son and heir of Baroness Amherst of Hackney, has been killed in action. His name is the only one appearing in the list of casualties issued tonight, under the heading of "Killed." Otherwise the report records one officer died of wounds and other officers, previously reported as missing, are now known to be prisoners of war.

SLUMP IN FOREIGN EXCHANGE

Cables Decline to 4.97 and Demand to 4.96.

MONEY MARKETS VERY DULL

True State of Market Shown in Price Paid by Erie for Extension of Its Six Per Cent Notes.

NEW YORK, Oct. 2.—With the actual inauguration of the \$100,000,000 gold pool, for which account a considerable sum of gold was shipped to Canada, foreign exchange suffered another setback today, cables declining to 4.97 and demand to 4.96.

Canadian banks placed small sums of money at 7 per cent for thirty days and some out-of-town institutions resumed their purchases of mercantile paper at an average rate of 7 per cent.

Price cutting in some unfinished products for home use was announced by independent manufacturers of iron and steel. Domestic orders are in slightly better volume but the further curtailment of operations at leading industrial centers indicates a gloomy outlook.

Contrary to expectation, very few defaults of October interest payments were reported. Further improvement in general bonds was noted.

Two of the largest railway systems, the Pennsylvania and the New York Central, submitted August earnings today. East of Pittsburgh, the Pennsylvania showed an increase of \$17,000 in operating income, while its western lines fell off \$142,000.

London experienced a feeling of relief in connection with the new moratorium which allows another fortnight's grace for certain bills of exchange.

Son of Omaha Man Dies from Injury in the Prize Ring

SAN FRANCISCO, Oct. 2.—Five arrests were made here today as the result of the death of Emurel Sexton, a pugilist fighting under the ring name of "Bill Huddle," who succumbed early this morning to the effects of a beating administered last night in a six-round bout with Arthur (Knockout) Carroll.

Those arrested were Gregory Mitchell, matchmaker for James W. Coffroth, promoter of the fight; Bert McCullough, the referee; Carroll, the surviving principal, and two seconds. The defendants were admitted to \$2,500 cash bail in the case of Carroll and \$500 for each of the others.

Sexton collapsed after weathering the entire six rounds against an opponent who outclassed him. He did not again recover consciousness. An autopsy showed that death was due to a cerebral hemorrhage.

The death boxer was a son of O. C. Sexton, a railroad contractor of Omaha, and his mother is Mrs. Charles Givens of Dunbar.

Sexton and Carroll supplied one of the preliminary bouts to the Chip-Murray contest. News that the fight had resulted fatally was received with consternation in pugilistic circles today, while supporters of the anti-prize fight referendum law to be voted on in the November election were quick to seize upon the tragedy as an argument to be impressed upon voters.

Entombed Miners Escape with Lives

WEBB CITY, Mo., Oct. 2.—After more than two scores of men, many of them battered and bruised, had tottered 20 feet up ladders to the surface, it was announced late tonight that the last of the men imprisoned in the cave-in of the American Davey zinc mines had been rescued and that no lives were lost.

Early reports said that a number of miners, estimated at twelve to twenty, were imprisoned in the mine and it was believed all had perished. However, the prompt action of the rescuers assisting the men to the surface in small groups was successful beyond expectation and finally all were accounted for.

DUQUOIN, Ill., Oct. 1.—A violent explosion of unknown cause shook the Majestic colliery here tonight and is believed to have cost the lives of several workmen.

Fisher of Dundee preached the sermon. Rev. J. Frank Young of Westminster church, a classmate of Rev. Ernst at McCormick seminary, charged the pastor and Dr. Daniel E. Jenkins of the Omaha Theological seminary and president of the University of Omaha, charged the people.

INES STRETCHED IN TURNING MOVE

Hand-to-Hand Fighting on Wings Results from Efforts of Rivals to Overlap Each Other.

ENDS ARE HEAVILY REINFORCED

Allies Have Been Able to Bring Much Greater Power to Bear and Have Thus Gained Advantage.

AT THE BATTLE FRONT, Oct. 2. (via Paris).—The generals in command of the allies are full of praise for the corps of dispatch riders, who, since the beginning of the great battle of the Aisne, have kept up communication between the various corps along the line spreading from the Somme to the Moselle and along the frontier of Alsace-Lorraine.

The dispatch riders are mostly volunteers from British universities, many of them very wealthy youths. Night and day they have made dashes through the country infested with German cavalry, carrying messages which have kept the brigades and army corps in close touch and enabled commanders to send reinforcements to the points where they were most needed.

Scatter German Horse. On many occasions these dispatch riders, mounted on motorcycles, by sheer audacity and speed, have scattered reconnoitering parties of German cavalry, some times facing enormous odds in their dangerous work.

The recent terrible hand-to-hand conflicts in the western and eastern wings arose from the attempts of the German and the allied generals to execute flanking movements in great force at the same time in the open country. The lines of the armies have been growing even longer in the last ten days in a mutual endeavor to overlap each other.

The wings have been heavily reinforced, but the allies have been able to bring greater power to bear and not only have prevented the Germans from breaking through, but have gained ground steadily and now have the advantage.

Fresh Troops Older Men. German prisoners who have been taken on the western end of the line in large numbers show that the reinforcements which have arrived recently consist largely of men who are nearing middle age. Some of them are fathers with families, who have been away from the active army service ten or fifteen years. This seems to indicate that many corps have been withdrawn to meet the Russian advance.

The German practice of maintaining an incessant offensive appears, according to military men, to be having the result of wearing out their human material. Some of their corps have been almost wiped out.

Fighting Unceasing. The fighting, since the beginning of the battle of the Marne is taken as the commencement, has been unceasing, something previously unknown in military history, and before this fight started many German regiments had fought all the way down from Liege, Belgium.

The German attacks in the last twenty-four hours seem to have become less energetic. The allies have been able to repulse them and follow them up more easily. There are signs that exhaustion is setting in among the invaders, owing to the hard fighting and the severe weather conditions. Meanwhile the allies are being given intervals of rest in the trenches between the periods of intense exertion, as fresh relays can be brought to the front at any time.

JUDGE GARY RESIGNS MORE DIRECTORSHIPS

NEW YORK, Oct. 2.—Elbert H. Gary, chairman of the United States Steel corporation, announced this afternoon that he had resigned as director from all companies with which he had been previously connected except where these companies were affiliated with the corporation.

Judge Gary's withdrawal from outside corporations is in line with the attitude known to prevail among certain business men, that inasmuch as the administration looks with disfavor on interlocking directorates, they should do their share, where possible, toward abolishing them.

The last company from which Judge Gary resigned as director was the Southern Railway. Previously to that he had resigned directorships in twelve other corporations during the last twelve months.

Canary Bird Prices Soar Because the Songsters Come from Germany. Those who may have been under the impression that canary birds imported into this country come from the Canary islands will suffer a severe disillusionment at this time, especially if the family believes that a canary bird is needed, and some one proceeds to "buy" a canary.

The fact is that in times of peace canary birds come from the Harz mountains in Germany, where they are bred by the peasants in garrets and spare rooms or their cottages. One New York firm alone imports 100,000 canaries annually.

At present 60 canaries can be bought in the bird stores because of the blockade of German ports. Ordinarily these birds sell for \$15 to \$20 a dozen. The individual birds is sold on his merits, as indicated by his looks and his voice. The female canary is a poor singer, and sells for half the price of the male. The birds sing best between the ages of a half year to 8 years. Frequently they live to be 12 years old.

The bird dealers also suffer from lack of cages for other birds. The canary is shipped in individual wooden cages made in Germany, and is sent in lots of 100 to 500. Those birds have to be fed daily on canary seed and hard-boiled eggs, as well as given fresh water. A skilled attendant has to accompany them on the voyage, and frequently a young peasant earns his traveling expenses to this country in that manner.—Wall Street Journal.
