all in fine condition and should come into bearing next year.

These orchards are made up very largely of Bartlett Pears and Newton Pippin Apples, and are in a spiendid position, both for horticultural development, and so far as the value of the property is concerned, as the orchards are right on the edge of Medford; as a matter of fact, the outer line of the city limits of Medford is a street which runs along the edge of the property.

The state highway, cement paved, running frem Seattle. Wash, to San Diego, Cal., passes through one portion of the first 40, separating four or five acres, property in back of us, with more matured trees, has brought as high as \$1,000 an acres; one 16-acre orchard produced tured trees, has brought as high as \$1,000 an acre; one 16-acre orchard produced \$19,000 in returns last year.

This is considered one of the finest sections in all Oregon for fruit growing, but it is too far away for me to handle.

Will sell or trade for good Minnesota, Iowa or Wisconsin farm.

GRAIN AND PRODUCE MARKET

Government Crop Report is About as Was Epected.

ALL GRAINS ARE HIGHER

Corn is Unchanged to One and One-Fourth Higher-Oats Are Advancing.

OMAHA, Oct. 8, 1914. The government crop peport, which was received right after the close, could not possibly have been an influence in the markets on the Hoard of Trade. The figures, as sent out of Washington, were about as expected on wheat, corn and cats, and as a consequence they are not likely to become an influence in any of the markets right away. The volume of trade in wheat was comparatively small, and on the decline the buying indicated a renewal of export inquiry, particularly at the board.

News from abroad was mainly bullish. The summary of seeding and crop conditions in Europe, as furnished by the Liverpool Corn Trade News, was generally unfavorable.

Idverpool Corn Trade News, was generally unfavorable.

Northwestern farmers are delivering wheat in a smaller way, as the receipts at Minneapolis and Duluth vesterday were only 1,688 cars, and at Winnipeg were 538 cars.

Corn closed at advances of 1421/20.

Export brokers in the onts market were good buyers of that grain early to protect liberal sales of cash made over night abroad.

Peatures of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 8.—Revival of export business today gave the wheat market a decided upward turn. Closing prices were steady at 1%c to 2c net advance. Corn finished %c to %2%c up, oats with a gain of 46% and provisions unchanged to 40c higher.

CHICAGO GRAIN AND PROVISIONS

a gain of 45% and provisions unchanged to 40c higher.

Liberal export sales of wheat were announced here and at Duluth and Winnipes. The Chicago sales, which were of wheat to be shipped by way of the guif, amounted to 500,000 bushels. Heavy buying of the December option here was said to be for the account of exporters at the eastern seaboard. It was only by degrees, however, that the extent of the transatiantic purchasing became known, and although the market opened some higher in sympathy with Liverpool, the course of prices for a while was rather Unstandary.

Corn advanced with wheat after a mod-Corn advanced with wheat after a moderate early decline, due to the bearish showing of the government crop report. Wet weather counted against the bears and so glass did reports that a remarkable increase had taken place in the use of glucose as a substitute for sugar. Strength in oats came chiefly from big sales to shippers. It was said that 500,000 bushels were taken for export.

Although provisions at the outset were weak with hogs, the market later scored the best advance in some time. Shorts, who were the chief buyers, were influenced by the strength of grain and by the backwardness of speculative offers.
