The instructions to the boys are to handle no other cards or literature except that furnished by the committee and to call for their pay at headquarters room in the State bank building Wednesday morning between 9 and 12. A motion to instruct the chairman to furnish the precinct committees with the usual challenger's certificate was ruled out of order by Chairman Thomas.

He says he has been a republican for eighteen years—ever since the silver issue was up—and further, that no one is likely to mistake him for Dr. P. L. Hall and that Dr. P. L. Hall himself is one of his firm friends, who has assured him his personal support.

In every case except one the answer was, 'I don't know.' I asked several if they could tell me the

KARBACH MAKES CAMPAIGN HIS PERSONAL ISSUE

Comment is being evoked by the advertising matter put out by the republican county committee giving special consideration to all the legislative candidates except one, Charles J. Karbach, running for state senator. It develops that Mr. Karbach has insisted on regarding his nomination as a personal one and a party matter; has refused to attend the meetings of the other candidates or to sign

any of the posters they tried to force on him or to pay the campaign assessment with which he was asked to come across, and this to the wear the committee is getting even with him. Bee Want Ads Are the Best Business Boosters.

Unfair! Unfair! Unfair!

WORKMEN'S CONFISCATION LAW CONDEMNED BY WORKMEN. LABOR UNIONS APPEAL TO THE FAIRNESS, JUSTICE AND HUMANITY OF THE PEOPLE. ALL VOTERS REQUESTED TO VOTE AGAINST THE LAW AT THE REFERENDUM ELECTION NOVEMBER THIRD, 1914.

The last Legislature, under the influence of the insurance lobby, passed an unjust, unfair and inhuman Confiscation Law under the false and misleading name of a Compensation Law, but about thirty-five thousand of the fair-minded citizens of Nebraska throughout the state signed a petition to have the law suspended and referred to a vote of the people at the coming November election. All the petitioners and every fair-minded voter in the state should vote against this Confiscation Law. Within the past few days the insurance companies and their representatives who had the law passed—unable to find a single sound spot in the law itself—have been filling the newspapers with huge advertisements regarding the alleged views of Wilson, Roosevelt and others, on the principle of Compensation Laws in general, but no pretense is made that any of the men referred to have ever read or even seen the proposed Nebraska law, which is nothing more nor less than a fraud, a cheat and a trap intended to mislead and catch the unthinking voter under the false name of Compensation. The Central Labor Unions of Omaha and South Omaha, representing more than 85% of all organized labor in the State of Nebraska, have unanimously condemned this law and ask you, in the name of justice and humanity, to vote against it at the election next Tuesday, November third, 1914, for the following reasons: 1. The law was passed through the untiring efforts of the Employers' Liability insurance companies' lobby, and was not passed in the interest of the laboring people. 2. While the Law pretends to be elective, it is in fact compulsory; because if the employer elects to accept the law, you may be sure that he will not keep men in his employ who elect not to accept the Law. 3. The Law does away with the right of trial by jury. 4. The Law does not provide any compensation for men who are disabled fourteen days or less, which means that it provides no compensation whatsoever for 90 per cent of all men injured. 5. The Law does not require any security whatsoever for the payment of the small allowance provided. 6. The Law does not allow anything for pain or suffering, no matter how great or how long continued; nor does it allow anything for mutilation or disfigurement of the body. For example, it allows nothing for the loss of a man's fingers or toes or his ears or nose, except pay for half time, not exceeding \$10.00 a week, that he is actually unable to work with his hands. 7. The Law provides no greater compensation when a man is killed, leaving a wife and ten children, than when he leaves a wife and one child. 8. The Law does not do away with law suits or lawyers, which is the very thing that the upholders of this law claim that it will do, but it does cut the amount of possible recovery down to almost nothing. 9. The employer need not pay the weekly installments of compensation unless he sees fit to do so, but he may force his employe to sue for each and every installment as it comes due. 10. The Law does not provide any greater compensation for the man who loses both arms or both legs and both eyes than it provides for the man who merely loses his arms. 11. If a workman has his leg cut off through the unquestioned fault of his employer, he would get no greater compensation than the workman who had his leg cut off through his own carelessness. 12. The proposed Law allows the injured man not only about one-tenth of what he can now recover under the general law, and permits his employer to keep the other 90 per cent of what should rightfully be given to the injured man. 13. The average common laborer will not earn on an average more than \$10.00 a week, and the proposed Law provides for him only the following meager allowances: For the loss of his hand only \$5.00 a week for 175 weeks, or \$875.00. For the loss of his arm above the elbow, \$5.00 a week for 215 weeks, or \$1,075.00. For the loss of his foot or leg below the knee, \$5.00 a week for 150 weeks, or \$750.00. For the loss of his leg above the knee, \$5.00 a week for 215 weeks, or \$1,075.00. For the loss of his eye, \$5.00 a week for 125 weeks, or \$625.00. If he has his leg cut off at the hip, this Law says that he should receive only \$1,075.00, payable in weekly installments of \$5.00 a week. If he has his arm cut off at the shoulder, it only allows him the same amount payable in the same manner. 14. In their newspaper advertisements, the insurance Companies admit that the alleged Compensation Law is weak, defective and insufficient; but pretend that it can be amended by the Legislature. We submit in all fairness that there is not a single sound spot in this so-called Compensation Law from beginning to end on which an amendment could be based. The law is all bad. There is nothing good in it. No fair-minded, human man or woman could be satisfied with such payments as above set forth; and if you are not satisfied yourself, you should not vote to inflict such a Law on other people. Cut this out and remember to vote against this Law next Tuesday. Put your X in the square marked NO. The Labor Unions of the StSate appeal to the people to help them in defeating this unjust and inhuman Law.
