CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.
CHICAGO, Oct. 20.—Considerable excitement in the wheat market today resulted from the addition of Turkey to the nations at war. Prices were ateady at the close, but 24c to 24c22c higher than last night. Corn made a net advance of the to 54c2c, and oats to 4c. In the provisions the outcome was unchanged to 124c up.

SILEAL - The smallest run for a Friday since the second week of last June arrived on the market this morning the receipts being no more than 2,500 head, about half of what was on sale a week ago, two weeks ago and a year ago. For the five days of the week the receipts amount to only 87,300 head, 52.46 short of the same time last week and 41,550 short of the corresponding period a year ago. The market this morning was a repetition of the last two or three days back, in that the receipts were below normal and the scare by of something really good in the killing line prompted buyers to get out early and pay prices generally a dimenigher on sheep and lambs. It is needless to add that trade was active, resulting in another early clearance. Cornfed lambs sold up to the \$8.00 mark. The big majority of the lamb offerings was on the fed order and what few range lambs put.

same days last week, 34.85 20.352 12.554
Instead of showing a drop, however, prices jumped right from the start.

Export sales continued at higher prices, and acted as more than an offset for profit taking in which some of the holders of wheat indused. Perhaps of a liberal increase of the United States visible supply total, though, formed an evident check against such wild uptures as took place during the early stages of the war.

European demand widened out for corn and had much to do with the strength of that cereal. Buillsh sentiment was increased by the measureness of country with wheat and corn, offerings were light at the start, but on the buige selling was more free.

Wool Market. BOSTON, Oct. 20.—The Commercial Bulletin will say tomorrow:

The wool market occupies a strong pohition today, although the situation on goods throughout the country is reported as very slow. Medium to coarse wools are especially strong and active, while good, fine wools are steady and inferior lots are rather irregular. The market has been somewhat less active than a week ago.
