GUEST OF COMMERCIAL CLUB

President Mohler to Preside at the Luncheon When President Felton and Others Will Speak.

Word reaches here that President Feiton and Vice President Balbon of the Great Western, the latter in charge of traffic, will arrive in Omaha next Wednesday and remain over until the following day.

The program indicates that the Great Western officials will be busy during most of their stay. Some time Wednesday there will be held a meeting of the officers of the Mason City & Fort Dodge Railroad company, at which a new director, possibly an Omaha man, will be elected. Following this there will be a meeting of the board of directors.

Thursday noon, at the Commercial club, President Felton will be the guest at a dinner at which 300 to 400 are expected to sit at the tables. President Mohler of the Union Pacific will preside and there will be speeches by President Felton and a number of the Omaha busi-

When not otherwise engaged, the two Great Western men will be taken on automobile rides about the city. While here they will probably stop at the

Burlington Men Find Conditions in Wyoming Are Good

Burlington officials are all home from the inspection of the new line between Casper and Orin Junction, Wyo. They found the track in perfect condition and the new road doing a good business. Relative to conditions in Wyoming, Assistant General Freight Agent Johnson said:

"Wyoming is unusually prosperous this fall. Crops of all kinds have been good and prices have been high. Cattle have brought good prices and as a result in many sections the ranchers have sold short. At this time large numbers of feeders are coming out of the state, consigned to the Nebraska feedlots. By the last of next week the run of cattle will be over until next year.

"The sheep are pretty well cleaned out, with the exception of the stockers. Those that would make mutton have been sold and large numbers have come east into

"While there is no wildcatting in the oil fields, development goes steadily on Every few days a new well is brought In and immediately capped that the output may be used later and when needed. The refineries at Casper are running on full time and the two roads, the Burlington and Northwestern, are hauling out about an average of thirty cars daily. The cars have a capacity of about 10,000 gallons leach, thus indicating that the daily output of the refineries is something like 306,900 gallons."

Retiring Employes of Union Pacific Are Given Some Tokens

Three Union Pacific employes have just my and have gone upon the retired list, and on account of valuable services rendered will receive pensions furing the remainder of their lives. The men and length of service are; K. Lilenstolph, 29; W. P. Davis, 29, and S. M Maxwell, 30 years.

All three of the men retired have for years been in the freight claim depart-Their associates and fellow ployes knew it was the last day that they were to remain in the employ of the company, and consequently they felt that the retiring men should take away with them some little remembrance. C. B. Hoover stepped to the front where all of the men clerks had gathered and to each of the men who had so long sorved the company in an appropriate speech presented each with a gold-headed

St. Petersburg Knows but Little of Army's Movements at Front

The Russian government is keeping the closest secrecy concerning the movements of its army, and even the people in St. Petrograd know little of what has happened, according to postcards received here by Stanley Bonavine from his brothers who are with the caar. A regulation in Russia keeps the oldest

son of the family at home in war times, says the postcards. No letters are being mailed out of Russia now. engineering department.

Bonavize is a draughtsman in the city

ALLEGED HORSE THIEF WANTED IN UTAH TAKEN

MASON CITY, Ia., Oct. 21 .- (Special Tolegram.)—J. F. Barker, wanted at Ogden for horse stealing, was arrested by Deputy Sheriff Marsh, fitteen miles west of here. Baker admits eleven indictments hanging over his head in Utah and Idaho and of escaping from several jalls and penitentiaries. He says he is Il years old and was first arrested when 17 years old. He submitted to arrest, but said he would break jail beofficers arrived from Utah Barker is still in jall stripped of his clothing and officers are on the way from Ogden.

FANNING FIRST TO MEET DEMANDS TO DO PAVING

Paying Contractor Charles Fanning is the first to comply with the city comdon's demand to proceed at once with paving work which has been delayed unnecessarily. Fanning has the contract for paving Elm street from Twentieth to on. Other contractors will be prosecuted if they do not complete their joba The city commission charges the con-tractors with willfully delaying vork so that they could have an opportunity to work cent year under "easier men" who might be elected to the commission.

See What a Warm Fall Has Done to Prices of Women's Apparel

MANUFACTURERS of Women's Apparel are hit awful hard by the continued and almost un-precedented warm weather this fall. The highest class manufacturers have been hit hardest of ail, because they are so particular about style that their garments are made to conform with the most recent fashions' ideas and they MUST find a market at once, or they have no other recourse but to sacrifice them, for they cannot carry such garments in stock very long. We have taken advantage of these conditions by buying enormously and paying from 40c to 65c on the dollar. These special values prove to you what a store with an outlet and ready cash can do.
